Profit and Gift in the Digital Economy Dave Elder-Vass, 2016-06-24 Our economy is neither overwhelmingly capitalist as Marxist political economists argue nor overwhelmingly a market economy as mainstream economists assume Both approaches ignore vast swathes of the economy including the gift collaborative and hybrid forms that coexist with more conventional capitalism in the new digital economy Drawing on economic sociology anthropology of the gift and heterodox economics this book proposes a groundbreaking framework for analysing diverse economic systems a political economy of practices The framework is used to analyse Apple Wikipedia Google YouTube and Facebook showing how different complexes of appropriative practices bring about radically different economic outcomes Innovative and topical Profit and Gift in the Digital Economy focusses on an area of rapid social change while developing a theoretically and politically radical framework that will be of continuing long term relevance It will appeal to students activists and academics in the social sciences

Gifts and Interests Antoon Vanderveelde, 2000 According to a common understanding of economics economists attempt to understand and explain societal reality in the light of individual self interest For them a gift is no exception to this except for the slight and misleading veil of altruism which covers a purely egoistic motivation On the other hand theologians philosophers and ethicists use a more normative concept of man Man realises his best potential through deeds of selfless sacrifice that remain unknown to everyone In reality however people are either entirely egoistic nor altruistic Marcel Mauss model of the gift is interesting because it seems to escape the classical or rather modern egoism altruism dichotomy Gifts are not primarily motivated by the well being of myself or the other but rather by the desire to bring about or maintain a certain kind of social relation between giver and receiver Altruistic as well as egoistic motivations are an integral part of that

relation The role of gifts in the constitution of social relations and social cohesion explains why most kinds of gifts are reciprocal and even obligatory In this book anthropologists sociologists and economists as well as philosophers focus on the question of the relevance of Mauss work on the gift for the understanding of actual social phenomena *11 Years CLAT & AILET (2008-18) Topic-wise Solved Papers 2nd Edition* Disha Experts, 2018-11-19 The book consists of topic wise questions from the past 11 years 2008 to 2018 question papers divided into 5 sections English Including Comprehension Elementary Mathematics Logical Reasoning General Knowledge Legal Aptitude The coverage of the papers includes CLAT NLU and AILET from 2008 to 2018 as they actually reflect the pattern of the Law exams In all there are 22 Question papers from 2008 to 2018 which have been provided topic wise along with detailed solutions Practicing these questions aspirants will come to know about the pattern and toughness of the questions asked in the examination In the end this book will make the aspirants competent enough to crack the uncertainty of success in the Entrance Examination The strength of the book lies in the originality of its question papers and Errorless Solutions The solution of each and every question is provided in detail step by step so as to provide 100% concept clarity to the students Handbook of the Economics of Giving, Altruism and Reciprocity Serge-Christophe Kolm, Jean Mercier Ythier, 2006-07-20 The Handbook on the Economics of Giving Reciprocity and Altruism provides a comprehensive set of reviews of literature on the economics of nonmarket voluntary transfers The foundations of the field are reviewed first with a sequence of chapters that present the hard core of the theoretical and empirical analyses of giving reciprocity and altruism in economics examining their relations with the viewpoints of moral philosophy psychology sociobiology sociology and economic anthropology Secondly a comprehensive set of applications are considered of all the aspects of society where nonmarket voluntary transfers are significant family and intergenerational transfers charity and charitable institutions the nonprofit economy interpersonal relations in the workplace the Welfare State and international aid Every volume contains contributions from leading researchers Each Handbook presents an accurate self contained survey of a particular topic The series provides comprehensive and accessible surveys **Gift-Giving in Japan** Katherine Rupp, 2003-06-10 Gift giving is extremely important in Japanese society not only at personal and household levels but at the national and macroeconomic levels as well This book is the first in English to document the extraordinary scale complexity and variation of giving in contemporary Japan Gift Giving in Japan is based on eighteen months fieldwork in the Tokyo metropolitan area as well as short term research in other parts of Japan The core of the study is the experience of family representatives of different ages classes genders occupations neighborhoods and religions The author also interviewed experts including the author of gift giving etiquette books Buddhist and Shinto priests department store and funeral home employees and workers at Tokyo s Tsukiji fish market She participated in neighborhood festivals election rallies house building rites and other ceremonies of which gift giving was an integral part Recent anthropological interest in drawing a strong contrast between commodities and gifts both reflects and reinforces the conception of the gift as part of the

Schlesinger, 2019-10-01 In a context of scandal and decline the Christian church cannot afford to do business as usual It must regain its bearings and clarify its nature and purpose *Sacrificing the Church* provides this clarity by returning to the church's foundation Jesus Christ and him crucified It presents an ecclesiological vision in which every aspect of the church's life flows from and expresses the one sacrifice of Christ This sacrifice is the basis of every ecclesial experience the form and content of the church's life a life which shares in the eternal Trinitarian life of God By and as Christ's sacrifice we are introduced into the divine life This participation plays out in three key areas which set the church's agenda in the contemporary world its worship of God Mass mission to the world mission and efforts toward the unity of all people beginning with divided Christians ecumenism **The French Civil Code (as Amended Up to 1906)** France, 1908 *The Gift* Aafke E. Komter, 1996 What moves us to give gifts to other people *The Gift* brings together perspectives on gift exchange and reciprocity from different social scientific disciplines The first part of this book contains anthropological and sociological classics on gift giving and reciprocity In the second part the focus is on social psychological theories and on empirical research on gift giving in Western society Finally the main concepts underlying gift exchange reciprocity self interest and altruism are discussed Here the focus is on fundamental assumptions about human nature Altruism and self interest turn out to be much more interwoven than we are inclined to think **Excess Profits, Estate, Gift** Robert Hiester Montgomery, 1920 **Christ's Gift, Our Response** Benjamin Durham, 2015-09-28 Sacramental theology has often been a challenging area of conversation between Catholics and Protestants In *Christ's Gift Our Response* Benjamin Durham envisions a collaborative way forward forging a conversation between two contemporary approaches to the connection between sacraments and ethics Drawing primarily from Louis Marie Chauvet and the Finnish school of Luther interpretation Durham constructs a mutually enriching theological dialogue Beyond comparison and contrast this is an attempt to draw these theologies together as sources for each other rather than as competitors
