**The Mediterranean Tradition in Economic Thought** Louis Baeck, 2012-08-21 The Mediterranean Tradition in Economic Thought surveys the legacy of thinking on economic affairs from the countries in the Mediterranean basin over four millennia. It considers the economic content of the scriptures of the Mesopotamian civilisations, Pharaonic Egypt and the Biblical peoples and the contributions of the Greeks and Romans and their influence on Islamic civilisation and on the Medieval scholastics. The flowering of the school of Salamanca as recently as the seventeenth century demonstrates how long lived the tradition was and throughout. Baeck demonstrates how these ideas continue to survive and resurface, citing the renewed interest in the ethical dimension of economics, the revival of interest in the history of Islamic thought and the re-emergence of Slavophile doctrines in contemporary Russian.

On Behalf of the Mystical Fool John P. Dourley, 2009-09-30 Jung's explanation of the religious tendency of the psyche addresses many sides of the contemporary debate on religion and the role that it has in individual and social life. This book discusses the emergence of a new mythic consciousness and details ways in which this consciousness supersedes traditional concepts of religion to provide a spirituality of more universal inclusion. On Behalf of the Mystical Fool examines Jung's critique of traditional western religion, demonstrating the negative consequences of religious and political collective unconsciousness and their consequent social irresponsibility in today's culture. The book concludes by suggesting that a new religiosity and spirituality is currently emerging in the West based on the individual's access to the sense of ultimacy residual in the psyche and seeking expression in a myth of a much wider compass. This book will be of interest to scholars and students at all levels who are engaged in the expanding field of Jungian studies. It will also be key reading for anyone interested in the theoretical and therapeutic connections between the psyche and religious experience.

The Rising Laity Massimo Faggioli, 2016 *Cities, Citizenship and Jews in France and the United States, 1905-2022* (Volume 2) Josef W. Konvitz, 2023-11-10 This comparative transatlantic two-volume work covers nearly 120 years of the history of the rights, integration and security of the Jewish people in both the United States and France, the countries with the largest and third largest Jewish populations. Religious freedom and secularism have evolved differently in France and the United States, reinforcing their separate national identities. Yet there are parallels to their Jewish history and in how the security of Jews has repeatedly defined and tested the national interests of France and the United States in world affairs. Drawing on the author's personal experience as an international civil servant, these volumes explore topics such as tensions and common interests between France and the United States, the memory of the Shoah, social mobility, the tepid commitment of the United States to the rights of French Jews during World War II, trends in antisemitism and tolerance, and global climate change as a threat to largely coastal Jewish communities. They highlight what makes insecurity different in the 21st century.
