Visual Devices in Contemporary Prose Fiction Simon Barton, 2016-01-26 This book acknowledges that the reader of a novel looks at and sees the page before they begin to read any text placed upon it Thus any disruptions to how a traditional page should look can have a large impact on the reading process The book critically engages with the visual appearance of graphically innovative contemporary prose fiction *Paul Auster* Mark Brown, 2013-07-19 Paul Auster provides the first extended analysis of Auster s essays poetry fiction films and collaborative projects It explores his key themes of identity language and writing metropolitan living and community and storytelling and illusion By tracing how Auster s representations of New York and city life have matured from a position of

urban nihilism to qualified optimism the book shows how the variety of forms he works in influences the treatment of his central concerns The chapters are organised around gradually extending spaces to reflect the way in which Auster's work broadens its focus beginning with the poet's room and finishing with the global metropolis of New York his home city and often his muse The book uses Auster's published and unpublished literary essays to explain the shifts from the dense and introspective poems of the 70s through the metropolitan fictions of the 80s and early 90s to the relatively optimistic and critically acclaimed films and his return to fiction in recent years

Discrepant Solace David James, 2019 Consolation has always played an uncomfortable part in the literary history of loss But in recent decades its affective meanings and ethical implications have been recast by narratives that appear at first sight to foil solace altogether Illuminating this striking archive *Discrepant Solace* considers writers who engage with consolation not as an aesthetic salve but as an enduring problematic one that unravels at the centre of emotionally challenging works of late twentieth and twenty first century fiction and life writing The book understands solace as a generative yet conflicted aspect of style where microelements of diction rhythm and syntax capture consolation's alternating desirability and contestation With a wide angle lens on the contemporary scene David James examines writers who are rarely considered in conversation including Sonali Deraniyagala Colson Whitehead Cormac McCarthy W G Sebald Doris Lessing Joan Didion J M Coetzee Marilynne Robinson Julian Barnes Helen Macdonald Ian McEwan Colm Toibin Kazuo Ishiguro Denise Riley and David Grossman These figures overturn critical suppositions about consolation's kinship with ideological complaisance superficial mitigation or dubious distraction producing unsettling perceptions of solace that shape the formal and political contours of their writing Through intimate readings of novels and memoirs that explore seemingly

indescribable experiences of grief trauma remorse and dread James demonstrates how they turn consolation into a condition of expressional possibility without ever promising us relief He also supplies vital traction to current conversations about the stakes of thinking with contemporary writing to scrutinize affirmative structures of feeling revealing unexpected common ground between the operations of literary consolation and the urgencies of cultural critique Discrepant Solace makes the close reading of emotion crucial to understanding the work literature does in our precarious present *Precarity in Contemporary Literature and Culture* Emily J. Hogg, Peter Simonsen, 2021-04-22 The contemporary moment is characterized by precarity an expanding and intensifying vulnerability conditioned by political and economic structures Using literary and cultural texts to develop a nuanced and critical exploration of the concept of precarity that emphasizes its contemporary manifestations while also attending to its historical roots and existential dimensions this book examines the vulnerabilities which characterize our anxious existence including unemployment environmental crisis temporary contracts and patterns of migration Broken down into three key themes of feelings bodies and time *Precarity in Contemporary Literature and Culture* asks whether precarity can be considered a new phenomenon explores the relationship between precarity and traditional class politics analyses precarity's global dimensions and reflects on the links between contemporary crisis and underlying existential human vulnerability With reference to a wide range of forms such as contemporary realist science fiction and modernist novels film theatre and the lyric poem this book goes beyond one national context to consider texts from the US UK Germany and South Africa **Peter Carey** Mary Ellen Snodgrass, 2010-03-10 Peter Carey writer of such celebrated works as *Oscar and Lucinda* *True History of the Kelly Gang* and *His Illegal Self* is one of Australia's most critically acclaimed novelists Deeply concerned with South Pacific culture especially the lives of its most downtrodden citizens Carey uses popular art as a tool for raising the consciousness of readers This book provides an introduction to the author's life as well as a guided overview of his body of work Designed for the fan and scholar alike this text features an alphabetized fully annotated listing of major terms in the Carey canon including fictional characters motifs historical events and themes Additional features include a listing of headwords a Carey history 44 reading and writing topics and bibliographies of primary and secondary sources A comprehensive index is included William T.
