MICROSOFT WINDOWS

Windows is Microsoft's operating system for personal computers. It has the largest market share of any competitor, with one version or another appearing on roughly 90 percent of the world's personal computers. Hundreds of PC manufacturers sell Windows-based computers. In addition, anyone can build a desktop computer using the same parts as those found in popular brands of PCs. As long as you install Windows on your machine, it will be compatible with any other PC.

+New Note to Section

Windows has undergone dramatic transformations since its introduction in the mid-1980s. The latest version is Windows 10, which can be found on desktops and laptops, as well as Microsoft's Surface tablets. It can run mobile-style apps and traditional Windows software on the familiar **desktop**. The Start menu has been expanded and improved with new **live tiles** that can display real-time information such as the current weather, news, or social media updates. A virtual assistant, Cortana, has been added to offer you a variety of
