Reviewing The Cold War Approaches Interpretations Theory:

Reviewing the Cold War Odd Arne Westad, 2013-10-14 Since the cold war ended it has become an international field of study with new material from China the former Soviet Union and Europe This volume takes stock of where these new materials have taken us in our understanding of what the cold war was about and how we should study it [An Analysis of Odd Arne Westad's The Global Cold War](#) Patrick Glenn, Bryan Gibson, 2017-07-05 Westad's seminal 2005 work shifts the focus of Cold War studies from Europe to the post World War II interventions by both the Soviet Union and the United States in the affairs of developing nations in Africa Asia and Latin America [An Analysis of John Lewis Gaddis's We Now Know](#) Scott Gilfillan, Jason Xidias, 2017-07-05 John Lewis Gaddis had written four previous books on the Cold War by the time he published *We Now Know* so the main thrust of his new work was not so much to present new arguments as to re-examine old ones in the light of new evidence that began emerging from behind the Iron Curtain after 1990 In this respect *We Now Know* can be seen as an important exercise in evaluation Gaddis not only undertook to reassess his own positions arguing that this was the only intellectually honest course open to him in such changing circumstances but also took the opportunity to address criticisms of his early works not least by post-revisionist historians The straightforwardness and flexibility that Gaddis exhibited in consequence enhanced his book's authority He also deployed interpretative skills to help him revise his methodology and reinterpret key historical arguments integrating new comparative histories of the Cold War era into his broader argument *Rethinking Theory and History in the Cold War* Richard Saull, 2001 *Rethinking Theory and History in the Cold War* focuses on what we mean by politics and international relations and how such assumptions have come to determine our understanding of the Cold War Using an historical materialist method the author criticizes conventional conceptions of international politics that tend to focus on the agency of and relations among states and offers an alternative historical sociology of the Cold War through an analysis of the relationship between formal political authority and socio-economic production Seen from this perspective the state the modern conceptions of politics can be seen as products of a capitalist modernity in which politics is based on the separation of the spheres of politics in the state and economics in civil society **BOOK JACKET** **The Cold War in the Classroom** Barbara Christophe, Peter Gautschi, Robert Thorp, 2019-10-23 This book is open access under a CC BY 4.0 license This book explores how the socially disputed period of the Cold War is remembered in today's history classroom Applying a diverse set of methodological strategies the authors map the dividing lines in and between memory cultures across the globe paying special attention to the impact the crisis-driven age of our present has on images of the past Authors analysing educational media point to ambivalence vagueness and contradictions in textbook narratives understood to be echoes of societal and academic controversies Others focus on teachers and the history classroom showing how unresolved political issues create tensions in history education They render visible how teachers struggle to handle these challenges by pretending that what they do is just history The contributions to this book unveil how

teachers backgrounding the political inherent in all memory practices often nourish the illusion that the history in which they are engaged is all about addressing the past with a reflexive and disciplined approach

Human Rights in Europe during the Cold War Rasmus Mariager, Karl Molin, Kjersti Brathagen, 2014-06-05 This book provides an overview of the establishment dispersion and effects of human rights in Europe during the Cold War The struggle for human rights did not begin at the end of the Second World War For centuries political associations religious societies and individuals had been fighting for political freedom religious tolerance freedom of expression freedom of thought and the right to participate in politics However the world was awakened by the atrocities of the Second World War and the idea that every person should have certain perpetual and inalienable rights was set out in The Universal Declaration of Human Rights UDHR from 1948 which contained an enumeration of international human rights standards Adopting an interpretative framework which pulls together universal ideas values and principles of human rights Human Rights in Europe during the Cold War demonstrates how conflicting interests collided when the exact meaning of human rights was established It also discusses various approaches to the idea of imposing respect for human rights in countries where they were systematically violated and assesses the outcome of international accords on human rights in particular the 1975 Helsinki Final Act In conclusion this volume proposes that human rights functioned as moral support to the opposition in repressive regimes and that this was subsequently used as a tool to further system changes Based on new archival research this book will be of much interest to students of Cold War studies human rights European history international law and IR in general

Hanhimäki, Janick Schaufelbuehl, Marco Wyss, 2015-12-22 This book sheds new light on the foreign policies roles and positions of neutral states and the Non Aligned Movement NAM in the global Cold War The volume places the neutral states and the NAM in the context of the Cold War and demonstrates the links between the East the West and the so called Third World In doing so this collection provides readers an alternative way of exploring the evolution and impact of the Cold War on North South connections that challenges traditional notions of the post 1945 history of international relations The various contributions are framed against the backdrop of the evolution of the Cold War international system and the decolonization process in the Southern hemisphere By juxtaposing the policies of European neutrals and countries of the NAM this book offers new perspectives on the evolution of the Cold War With the links between these two groups of countries receiving very little attention in Cold War scholarship the volume thus offers a window into a hitherto neglected perspective on the Cold War Via a series of case studies the chapters here present new viewpoints on the evolution of the global Cold War through the exploration of the ensuing internal and mainly external policy choices of these nations This book will be of much interest to students of Cold War Studies international history foreign policy security studies and IR in general

The Cold War in Asia Yangwen Zheng, Hong Liu, Michael Szonyi, 2010 The Cold War stayed cold in Europe but it was hot in Asia Its legacy lives on in the region In none of the three dominant historiographical paradigms orthodox revisionist and post revisionist does Asia or the rest of the Third World figure with much significance What happens to these narratives if we put them to the test in Asia This volume argues that attention to what has been conventionally considered the periphery is essential to a full understanding of the global Cold War

The Ideological Cold War Johanna Rainio-Niemi, 2014-02-05 This book opens new perspectives into the Cold War ideological confrontations Using Austria and Finland as an example it shows how the Cold War battles for the hearts and

minds of the people also influenced policies in countries that wished to stay outside the conflict Following the model of older European neutrals Austria and Finland sought to combine neutrality with democracy The combination was eagerly challenged by ideological Cold Warriors on both sides of the divide and questioned at home too Was neutrality risking the neutrals commitment to democracy or did the commitment to the western type of democracy threaten their commitment to neutrality Confronting these doubts grew into an organic part of practicing neutrality in the Cold War world The neutrals needed to be exceptionally clear regarding the ideological foundations of their neutrality Successful neutrality required a great deal of conceptual consistence and domestic unanimity None of this was pre given in Austria or Finland However in the model of Switzerland and Sweden armed neutrality was systematically integrated with the official state ideology and promoted as a part of national identity Legacies of these policies outlived the end of the Cold War
