The Paradox of Urban Revitalization Howard Gillette, Jr., 2022-06-07 In the twenty first century cities in the United States that had suffered most the shift to a postindustrial era entered a period widely proclaimed as an urban renaissance From Detroit to Newark to Oakland and elsewhere commentators saw cities rising again Yet revitalization generated a second urban crisis marked by growing inequality and civil unrest reminiscent of the upheavals

associated with the first urban crisis in the mid twentieth century The urban poor and residents of color have remained very much at a disadvantage in the face of racially biased capital investments narrowing options for affordable housing and mass incarceration In profiling nine cities grappling with challenges of the twenty first century author Howard Gillette Jr evaluates the uneven efforts to secure racial and class equity as city fortunes have risen Charting the tension between the practice of corporate subsidy and efforts to assure social justice *The Paradox of Urban Revitalization* assesses the course of urban politics and policy over the past half century before the COVID 19 pandemic upended everything and details prospects for achieving greater equity in the years ahead *The Future of National Urban Policy* Marshall Kaplan, Franklin J. James, 1990 *The Future of National Urban Policy* brings together scholars policymakers and journalists to explore the condition of America s cities The authors focus on policies of the previous five presidential administrations to examine the history of urban policy and offer suggestions for its future Individual chapters address a variety of topics including housing employment education the infrastructure of cities and public policy **Reviving the Urban Waterfront** Andy Leon Harney, 1980

Subcommittee on Economic Stabilization, 1981 *Urban Revitalization and Industrial Policy* United States. Congress. House. Committee on Banking, Finance, and Urban Affairs. Subcommittee on the City, 1980 *Immigration and Metropolitan Revitalization in the United States* Domenic Vitiello, Thomas J. Sugrue, 2017-04-27 In less than a generation the dominant image of American cities has transformed from one of crisis to revitalization Poverty violence and distressed schools still make headlines but central cities and older suburbs are attracting new residents and substantial capital investment In most accounts native born empty nesters their twentysomething children and other educated professionals are credited as the agents of change Yet in the past decade policy makers and scholars across the United States have come to understand that immigrants are driving metropolitan revitalization at least as much and belong at the center of the story Immigrants have repopulated central city neighborhoods and older suburbs reopening shuttered storefronts and boosting housing and labor markets in every region of the United States *Immigration and Metropolitan Revitalization in the United States* is the first book to document immigrant led revitalization with contributions by leading scholars across the social sciences Offering radically new perspectives on both immigration and urban revitalization and examining how immigrants have transformed big cities such as New York Chicago and Los Angeles as well as newer destinations such as Nashville and the suburbs of Boston and New Jersey the volume s contributors challenge traditional notions of revitalization often looking at working class communities They explore the politics of immigration and neighborhood change demolishing simplistic assumptions that dominate popular debates about immigration They also show how immigrants have remade cities and regions in Latin America Africa and other places from which they come linking urbanization in the United States and other parts of the world Contributors Kenneth Ginsburg Marilyn S Johnson Michael B Katz Gary Painter Robert J Sampson
