Wädekin, 2024-09-02 **The Columbia History of Eastern Europe in the Twentieth Century** Joseph Held, 1992 This illustrated historical reference work provides an interpretive overview of each of the countries of Eastern Europe focusing particularly on political developments and including references to significant social cultural and economic events *The Orient Within* Mary C. Neuburger, 2011-05-15 Bulgaria is a Slavic nation Orthodox in faith but with a sizable Muslim minority That minority is divided into various ethnic groups including the most numerically significant Turks and the so called Pomaks Bulgarian speaking men and women who have converted to Islam Mary Neuburger explores how Muslim minorities were integral to Bulgaria s struggle to extricate itself from its Ottoman past and develop a national identity a process complicated by its geographic and historical positioning between evolving and imagined parameters of East and West The Orient Within examines the Slavic majority s efforts to conceptualize and manage Turkish and Pomak identities and bodies through gendered dress practices renaming of people and places and land reclamation projects Neuburger shows that the relationship between Muslims and the Bulgarian majority has run the gamut from accommodation to forced removal to total assimilation from 1878 when Bulgaria acquired autonomy from the Ottoman Empire to 1989 when Bulgaria s Communist dictatorship collapsed Neuburger subjects the concept of Orientalism to an important critique showing its relevance and complexity in the Bulgarian context where national identity and modernity were brokered in the shadow of Western Europe Russia USSR and Turkey [British Foreign Office Documents on the Macedonian Question, 1919-1941](#) Ilko Drenkov, 2021-03-31 This book of documents aims to analyze the British Foreign Office s policy regarding the Macedonian Question in the interwar period and its reflection on the diplomatic relations between the United Kingdom and Bulgaria as well as with the other Balkan countries involved The selected documents review the policy of the British Foreign Office towards the Macedonian Question The British Foreign Office s policy formulated at the Paris Peace Conference had always

been aiming at weakening the issue Gradually the British diplomatic efforts focused on prohibiting the Internal Macedonian Revolutionary Organization IMRO and on its complete disbanding The end of IMRO in 1934 however did not bring the desired end to the Macedonian Question WWII revived the unresolved national questions once again The selected documents have not been published yet and are of great use and interest for many scholars and students The presented documents are not only part of the diplomatic correspondence between Sofia and London but also part of the correspondence between the British Foreign Office and its representatives mainly Athens and Belgrade **From Sofia to Jaffa** Guy H.

Haskell,2018-02-05 *From Sophia to Jaffa* chronicles the fascinating saga of a population relocated Within two years of the establishment of the State of Israel in 1948 an astounding 45 000 of Bulgaria s 50 000 Jews left voluntarily for Israel This mass exodus was remarkable considering that Bulgaria was the only Axis power to prevent the deportation of its Jews to the death camps during World War II After their arrival in Israel the Jews of Bulgaria were recognized as a model immigrant group in a fledgling state attempting to absorb hundreds of thousands of newcomers from more than eighty countries They became known for their independence self reliance honesty and hard work *From Sofia to Jaffa* chronicles the fascinating saga of a population relocated a story that has not been told until now Beginning with a study of the community in Bulgaria and the factors that motivated them to leave their homeland this book documents the journey of the Bulgarian Jews to Israel and their adaptation to life there *Economic Nationalism And Development* Jan Kofman,2019-05-20 In art era of ever

increasing national consciousness combined paradoxically with pressures for regional economic integration this thought provoking and exhaustively researched volume will challenge readers assumptions about optimal paths to national economic development Drawing on archival sources as well as published materials in eight langua *The Balkans Beyond Nationalism and Identity* Pavlos Hatzopoulos,2007-12-19 For decades we have come to accept that nationalism formed the basis of the

modern history of the Balkans In this bold and controversial study Pavlos Hatzopoulos turns this assumption on its head Through a ground breaking examination of the non nationalist ideologies in the Balkans during the interwar period Hatzopoulos calls into question the supposedly inherent connection between the Balkans and nationalism and argues that nationalism does not form the sole ordering principle of the modern history of the Balkan region Focusing on the ideologies of communism liberal internationalism and agrarianism Hatzopoulos examines how these interact with nationalist ideology He demonstrates how non nationalist theories challenge the nationalist view of the Balkans as the sum of several national spaces He even questions the nationalist understanding of the very term the Balkans *The Balkans Beyond Nationalism and Identity* revisits contemporary debates on a region that is still a European crisis point and challenges the nation centric understanding that permeates it In proposing a description of the Balkans as a contested political concept the book argues for a completely fresh interpretation of the region s composition *A History of the Balkans 1804-1945* Stevan K.

Pavlowitch,2014-09-25 The Balkans have often been a flashpoint of conflict in European history The recent civil war has torn

the country apart and the region faces an uncertain future This authoritative study provides an account of the history of the whole area from the first major nationalist rising against its Ottoman rulers in 1804 to the aftermath of World War II Covering the former Yugoslavia Albania Greece Bulgaria and Romania it provides a Balkan wide overview as well as histories of specific states and sets the context to the recent conflict **'Regimes of Historicity' in Southeastern and Northern Europe, 1890-1945** D. Mishkova,B. Trencsényi,M. Jalava,2014-06-27 The volume undertakes a comparative analysis of the various discursive traditions dealing with the connection between modernity and historicity in Southeastern and Northern Europe reconstructing the ways in which different temporalities produced alternative representations of the past and future of continuity and discontinuity and identity **Peasants in Power** John D. Bell,2019-03-12 Agrarianism has received relatively little attention from scholars interested in the modern history of Eastern Europe Contending that an understanding of the agrarian contribution is necessary for an appraisal of the full dynamic of Eastern European politics John D Bell explores the history of the Bulgarian Agrarian National Union the strongest of the East European organizations Tracing the union s career from its founding to its overthrow in 1923 the author discusses the reasons for its appearance its ideology and program and its accomplishments and failure in both domestic and foreign policy He concentrates in particular on the career of Alexander Stamboliski who guided and inspired the BANU during its rise to power This book is thus a comprehensive objective biography of both a movement and a man John D Bell is Associate Professor of History at the University of Maryland Baltimore County Originally published in 1977 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Populism in Central and Eastern Europe** Roman Krakovsky,2025-02-01 The rise of illiberal democracies across Central and Eastern Europe represents an ongoing challenge to the democratic and liberal principles of post Enlightenment societies However considerable debate remains about how to disentangle the complex factors that have contributed to this phenomenon and gain a clearer understanding of the issues shaping the political landscape In this incisive analysis of the populist phenomenon Populism in Central and Eastern Europe re examines the roots of the current political situation tracing the historical evolution of Central and Eastern European populism From late nineteenth century Imperial Russia to Viktor Orb n s Hungary and Jaroslaw Kaczy ski s Poland this book offers an innovative approach to addressing these enduring political issues **The Balkans** Robert Bideleux,Ian Jeffries,2007-01-24 An excellent companion volume to the successful A History of Eastern Europe this is a country by country treatment of the contemporary history of each of the Balkan states Albania Bulgaria Romania Croatia Serbia Bosnia and Herzegovina Macedonia Montenegro and Kosova With a distinctive conceptual framework for explaining

divergent patterns of historical change the book shifts the emphasis away from traditional cultural explanations and concentrates on the pervasive influence of strongly entrenched vertical power structures and power relations Focusing on political and economic continuities and changes since the 1980s *The Balkans* includes brief overviews of the history of each state prior to the 1980s to provide the background to enable all students of Eastern European history to make sense of the more recent developments

*Cold War in the Balkans* Michael M. Boll, 2021-10-21 As World War II drew to a close the United States and the Soviet Union began to maneuver for position in postwar Europe in the first exploratory moves of what would soon become a worldwide contest for power and prestige In Bulgaria Michael Boll finds a unique vantage point for study of the processes of international politics during these years of the emergence of the Cold War Bulgaria he writes was to assume a significance for both the United States and the Soviet Union greater than that small nation's intrinsic importance to either Great Power Bulgaria had joined the Axis under pressure during the war though it alone among the Axis satellites had refused to declare war on the Soviet Union Willing in 1943 to lend support to an American plan devised to bring about Bulgaria's surrender and its participation in the war against Germany the Soviet by the fall of 1944 was to invade Bulgaria and form an alliance with the Bulgarian Communists who offered dependable support in the Red Army's continuing war effort When military objectives were replaced by the Soviet's political drive for consolidation of its newly won empire the Bulgarian Communists remained indispensable allies and continued the determined campaign that culminated in 1947 in declaration of the People's Republic of Bulgaria Boll refutes the frequent charge of American nonpolicy toward Eastern Europe in this period concluding that the loss of Bulgaria was the result not of the lack of determined policy but of a realistic assessment of American capabilities and strategic priorities *Cold War in the Balkans* drawing on important new Eastern European sources and newly declassified British and American archives relates international diplomatic history to local political developments in a way that gives new depth to the study of Cold War origins

*The Bulgarian Economy* John R. Lampe, 2024-12-02 First published in 1986 *The Bulgarian Economy* now with a new preface by the author traces the rapid growth of the Bulgarian economy throughout the twentieth century It also notes the obstacles Bulgaria has faced in bringing about industrial development in a small relatively poor country where in the early twentieth century agriculture predominated It explores the difficulties which have arisen because of the unusual domination of a relatively isolated capital city Sofia over the rest of the country It examines the effects of Bulgaria's being on the losing side in three wars An abrupt change in economic strategy and management came with the Communist accession to power in 1944 and with the simultaneous reorientation from close ties with Germany to close ties with the Soviet Union The book shows however that significant state control had appeared well before this transition and that there is much in common between the pre and post war periods It goes on to emphasise economic growth and structural change in the post war period and the unusually large role of foreign trade The reforms which have taken place since 1960 are accorded a separate final chapter

*Ingredients of*

*Change* Mary C. Neuburger, 2022-04-15 *Ingredients of Change* explores modern Bulgaria's foodways from the Ottoman era to the present outlining how Bulgarians domesticated and adapted diverse local regional and global foods and techniques and how the nation's culinary topography has been continually reshaped by the imperial legacies of the Ottomans Habsburgs Russians and Soviets as well as by the ingenuity of its own people *Changes in Bulgarian cooking and cuisine* Mary C Neuburger shows were driven less by nationalism than by the circulation of powerful food narratives scientific religious and ethical along with people's goods technologies and politics *Ingredients of Change* tells this complex story through thematic chapters focused on bread meat milk and yogurt wine and the foundational vegetables of Bulgarian cuisine tomatoes and peppers Neuburger traces the ways in which these ingredients were introduced and transformed in the Bulgarian diet over time often in the context of Bulgaria's tumultuous political history She shows how the country's modern dietary and culinary transformations accelerated under a communist dictatorship that had the resources and will to fundamentally reshape what and how people ate and drank

**Rebirth** Cyril Black, 2018-05-04 *Rebirth A History of Europe Since World War II* examines the transition of Europe from a period of crisis to an era of political confidence and economic strength As the title suggests the pervasive theme of the book is that of rebirth The most recent decades are set in the context of modern European history as a whole The authors trace the disillusionment and uncertainty that overcame Europe at the turn of the twentieth century and that culminated in the devastation of the Second World War In their analysis of the political and economic causes of the renaissance that has followed the demise of the Cold War the authors highlight the themes of national integration and economic modernization The chapters are uniquely organized to present both international and domestic developments in Europe as coherent wholes as well as the importance of their interaction The initial analysis of key international developments in the twentieth century helps students to understand the relationship between foreign and domestic events and provides background for the substantial discussion of the major European countries that follows in chapters devoted to each national experience The political and economic histories of these nation states are considered in terms of their individual traditions and challenges and the authors explore difficult issues such as the overall costs and benefits of the scientific technological revolution the pursuit of social justice the proper role of the state and of political parties and contrasting national paths of economic and political development *Rebirth* is designed as a text for use in courses on modern European history especially twentieth century Europe and for students of comparative politics who are seeking a substantial consideration of the historical factors of European politics In this revised edition the authors have updated the text with an analysis of developments since 1991 and added recent scholarship to the lists of Suggested Readings

Bulgaria Vesselin Dimitrov, 2001 The communist regime in Bulgaria was perhaps the most stable in Eastern Europe and its demise was brought about only by the general collapse of the Soviet bloc In the light of this what is surprising about the country's transitions to democracy and a market economy is not that it has been uneven but that it has proceeded without fundamental disruptions

and is now showing some signs of consolidation The two party system that emerged from the round table negotiations in 1990 has survived remarkably intact although the parties within it have undergone considerable transformations The institutions of democracy have often been misused but have shown their ability to survive in crisis situations After a dismal record of macroeconomic mismanagement the establishment of a currency board has brought stability to the country's economy and the long delayed structural reform is finally off the ground Having survived the trials of transition Bulgaria is now faced with the more difficult task of adapting its political and economic institutions to the requirements of future EU membership

*Seeking Accountability for Nazi and War Crimes in East and Central Europe* Irina Tcherneva, Vanessa Voisin, Eric Le Bourhis, 2022 The thirst for post World War II justice transcended the Cold War and mobilized diverse social groups This is a story of their multilayered and at times conflictual interactions In this edited collection sixteen historians develop a new approach to the trials against persons accused of war crimes and mass murder in Europe during the ascendancy of Nazism and the Second World War 1933-1945 Focusing on the social aspects of the demand for justice and making use of previously underexploited local and international sources contributors put to the test the notion of show trials and explore a range of judicial and political cultures from Germany to the Soviet Union Essays uncover the expectations around accountability and forms of mobilization on the part of a range of citizens involved in the trials survivors witnesses perpetrators Nazi hunters and civic activists In addition to the perspective of these citizens contributors invoke the expertise of reporters filmmakers historians investigators and prosecutors who shaped public representations of justice These shaping efforts the authors show often supported the desire of political authorities to benefit from the publicity of the trials and to contain the spontaneous dissemination of information The book's close examination of interactions between citizens and authorities thus demonstrates the extent and limits of what might be called a coproduction of justice in the process shedding light on the interdependence between historical knowledge and legal prosecution of mass crimes
