Introduction to Global Military History Jeremy Black, 2014-06-03 This lucid account of military developments around the modern world begins with the American War of Independence and the French revolutionary wars and continues chronologically to the latest 21st century conflicts It combines determinedly global coverage with thought provoking analysis not only of the military aspects of conflict but also its social cultural political and economic dimensions and consequences By placing familiar events alongside the largely unknown the reader is forced to reassess the standard grand narrative of military history that rests on assumptions of

Western cultural and technological superiority It will be essential reading for students worldwide whether studying modern military history modern world history history and international relations or war and society This fully updated second edition includes chapter introductions and conclusions to assist study and revision Voices of War sourced extracts from the field of conflict case studies in each chapter to support the narrative and provoke discussion a 12 page colour map section and over 20 other integrated maps annotated references from the latest publications in the field

Mozambique and the Construction of the New African State Chris Alden, 2001-07-19 An original study of the internationally inspired effort to rebuild this war torn African country It seeks to understand the role of the international community in constructing a new kind of African state in the aftermath of conflict and socialism At the heart of the book is the question of sustainability of the post conflict African state against the backdrop of the multiple legacies of war socialism and regional and international intervention upon an enervated Mozambican society

A Military History of the Cold War, 1944-1962 Jonathan M. House, 2014-04-28 The Cold War did not culminate in World War III as so many in the 1950s and 1960s feared yet it spawned a host of military engagements that affected millions of lives This book is the first comprehensive multinational overview of military affairs during the early Cold War beginning with conflicts during World War II in Warsaw Athens and Saigon and ending with the Cuban Missile Crisis A major theme of this account is the relationship between government policy and military preparedness and strategy Author Jonathan M House tells of generals engaging in policy confrontations with their governments political leaders among them Anthony Eden Nikita Khrushchev and John F Kennedy many of whom made military decisions that hamstrung their own political goals In the pressure cooker atmosphere of atomic preparedness politicians as well as soldiers seemed instinctively to prefer military solutions to political problems And national security policies had military implications that took on a life of their own The invasion of South Korea convinced European policy makers that effective deterrence and containment required building up and maintaining credible forces Desire to strengthen the North Atlantic alliance militarily accelerated the rearmament of West Germany and the drive for its sovereignty In addition to examining the major confrontations nuclear and conventional between Washington Moscow and Beijing including the crises over Berlin and Formosa House traces often overlooked military operations against the insurgencies of the era such as French efforts in Indochina and Algeria and British struggles in Malaya Kenya Cyprus and Aden Now more than fifty years after the events House describes understanding the origins and trajectory of the Cold War is

as important as ever By the late 1950s the United States had sent forces to Vietnam and the Middle East setting the stage for future conflicts in both regions House's account of the complex relationship between diplomacy and military action directly relates to the insurgencies counterinsurgencies and confrontations that now occupy our attention across the globe

The White Redoubt, the Great Powers and the Struggle for Southern Africa, 1960-1980 Filipe Ribeiro de Meneses, Robert McNamara, 2017-12-05 This work examines the attempt by the governments of Portugal Rhodesia and South Africa to defy the drive for African independence in the 1960s and 70s and the international community's response From 1961 to 1974 Portugal Rhodesia and South Africa collaborated in the attempt to preserve white minority rule in their respective territories Hard pressed by African nationalists recently decolonized states and many of the world's Great Powers they supported each other economically politically and militarily turning southern Africa into a major diplomatic concern which defied Cold War logic This book examines how this collaboration came about and how the international community responded to it paying close attention to the evolving situation in each country The Portuguese Revolution of April 1974 undid this white redoubt and the diplomatic policy subsequently adopted by apartheid South Africa's attempt led it to sacrifice Rhodesia in return for the illusion of permanent safety A true work of transnational history this book is based on the archival material of eight different countries yet it serves as well as an introduction to the politics of southern Africa during the late colonial era

Why Comrades go to War Philip Roessler, Harry Verhoeven, 2017-08-01 In October 1996 a motley crew of ageing Marxists and unemployed youth coalesced to revolt against Mobutu Sese Seko president of Zaire Congo since 1965 The rebels of the AFDL marched over 1500km in seven months to crush the dictatorship heralding liberation as a second independence for Central Africa as a whole US President Bill Clinton toasted AFDL leader Laurent D'sir Kabila and his regional allies having developed a unique camaraderie and personal trust on the region's battlefronts as a new generation of African leaders ushering in an African Renaissance Within months however the Pan Africanist alliance fell apart The AFDL's collapse triggered a cataclysmic fratricide between the heroes of liberation that became the deadliest conflict since the Second World War drawing in eight African countries This book draws on hundreds of interviews with protagonists from Africa and the international community to offer a novel theoretical and empirical account of Africa's Great War Bridging the gap between comparative politics and international relations it argues that the renewed outbreak of calamitous violence in August 1998 was a function of the kind of regime the AFDL was and how its leaders saw Congo the region and themselves As a Pan Africanist liberation movement the collapse of the AFDL government internally and the unravelling of regional order externally were inextricably linked

Dirty Wars Simon Innes-Robbins, 2016-10-06 Who is the enemy This is the question most asked in modern warfare gone are the set piece conventional battles of the past Once seen as secondary to more traditional conflicts irregular

warfare as modified and refashioned since the 1990s now presents a major challenge to the state and the bureaucratic institutions which have dominated the twentieth century and to the politicians and civil servants who formulate policy Twenty first century conflict is dominated by counterinsurgency operations where the enemy is almost indistinguishable from innocent civilians Battles are gunfights in jungles deserts and streets winning hearts and minds is as important as holding territory From struggles in South Africa the Philippines and Ireland to operations in Iraq Afghanistan and Chechnya this book covers the strategy and doctrine of counterinsurgency and the factors which ensure whether such operations are successful or not Recent ignorance of central principles and the emergence of social media which has shifted the odds in favour of the insurgent have too often resulted in failure leaving governments and their security forces embedded in a hostile population immersed in costly and dangerous nation building

A History of Postcolonial Lusophone Africa Patrick Chabal, David Birmingham, 2002-06-13 useful timely and important a good and informative book on the Lusophone countries Portuguese colonialism and postcolonial influences Phyllis Martin Indiana University This book produced by the obvious and distinguished corps of country specialists fills a real gap in both state level and regional broadly defined studies of contemporary Africa Norrie MacQueen University of Dundee Although the five Portuguese speaking countries in Africa that gained independence in 1974 75 Angola Mozambique Guinea Bissau Cape Verde and S o Tom e Pr ncipe differ from each other in many ways they share a history of Portuguese rule going back to the 15th century which has left a mark to this day Patrick Chabal and his co authors assess the nature of the Portuguese legacy using a twofold approach In Part I three analytical thematic chapters by Chabal examine what the five countries have in common and how they differ from the rest of Africa In Part II individual chapters by leading specialists each devoted to a specific country survey the histories of those countries since independence The book places the postcolonial experience of the Lusophone countries within the context of their precolonial and colonial past and compares and contrasts their experience with that of non Lusophone African states The result is a comprehensive readable and up to date text and reference work on the evolution of postcolonial Portuguese speaking Africa

Transnational Histories of Southern Africa's Liberation Movements Jocelyn Alexander, JoAnn McGregor, Blessing-Miles Tendi, 2020-05-21 Transnational Histories of Southern Africa s Liberation Movements offers new perspectives on southern Africa s wars of national liberation drawing on extensive oral historical and archival research Assuming neither the primacy of nationalist loyalties as they exist today nor any single path to liberation the book unpicks any notion of a straightforward imposition of Cold War ideologies or strategic interests on liberation wars This approach adds new dimensions to the rich literatures on the Global Cold War and on solidarity movements The contributors trace the ways that ideas and practices were made adopted and circulated through time and space through a focus on African soldiers politicians and diplomats The book also asks what motivated the men and women who crossed borders to join liberation movements how Cold War influences were acted upon interpreted and used and why certain moments venues and relations

took on exaggerated importance The connections among liberation movements between them and their hosts and across an extraordinarily diverse set of external actors reveal surprising exchanges and lasting legacies that have too often been obscured by the assertion of monolithic national histories Tracing an extraordinarily diverse set of interactions and exchanges Transnational Histories of Southern Africa s Liberation Movements will be of great interest to scholars of Southern Africa Transnational History the Cold War and African Politics The chapters were originally published as a special issue of the Journal of Southern African Studies

The Winds of History Andreas Zeman,2023-10-24 Based on extensive archival research in six countries and intensive fieldwork the book analyzes the history of the village of Nkhlongue on the eastern Mozambican shores of Lake Malawi from the time of its formation in the 19th century to the present day The study uses Nkhlongue as a microhistorical lens to examine such diverse topics as the slave trade the spread of Islam colonization subsistence production counter insurgency decolonization civil war ecotourism and matriliney Thereby the book attempts to reflect as much as possible on the generalizability and global comparability of local findings by framing analyses in historiographical discussions that aim to go beyond the regional or national level Although the chapters of the book deal with very different topics they are united by a common interest in the social history of rural Africa in the longue dure Contrary to persistent clichés of rural inertia in Africa the book as a whole underscores the profound changeability of social conditions and relations in Nkhlongue over the years and highlights how people s room for maneuver kept changing as a result of the Winds of History the frequent and often violent ruptures brought to the village from outside

Africa's Armies Robert Edgerton,2009-03-25 Africa s Armies traces the military history of sub Saharan Africa from the pre colonial era to the present Robert Edgerton begins this sweeping chronicle by describing the role of African armies in pre colonial times when armed forces or militias were essential to the maintenance and prosperity of their societies During the colonial era African soldiers fought with death defying courage earning such respect as warriors that they were often recruited into the colonial armies not simply to enforce colonial rule in Africa but to fight for the European homelands as well After independence swept through Africa African military men seized political power in country after country ruling dictatorially for their own benefit and for that of their kinsmen and cronies The author describes the post colonial civil wars that have devastated much of sub Saharan Africa catastrophes marked by genocide famine disease economic collapse and steadily declining life expectancy He closes by describing the role that Africa s military forces can and must play if the future is to bring better times to the continent s many peoples
