Law and Revolution Harold J. Berman, 1985-01-01 The roots of modern Western legal institutions and concepts go back nine centuries to the papal revolution when the Western church established its political and legal unity and its independence from emperors kings and feudal lords Out of this upheaval came the Western idea of integrated legal systems developed over generations and centuries

Encyclopedia of Fundamentalism: Volume 3 of Religion & Society Brenda Brasher, 2001-10-19 The Encyclopedia of Fundamentalism is the third volume of the acclaimed Religion Society series The Encyclopedia of Fundamentalism follows a broad definition of fundamentalism and covers fundamentalism across time and place although the emphasis remains on its primary manifestation Protestant fundamentalism in the United States It draws upon the work of historians sociologists religious scholars anthropologists political scientists and others

Socialism and the Experience of Time Julian Wright, 2017-06-30 How do we make social democracy Should we seize the unknown possibilities offered by the future or does real change develop when we focus our attention on the immediate present The modern tradition of social revolution suggested that the present is precisely the time that needs to be surpassed but can society change without an intimate focus on today's experience of social injustice In *Socialism and the Experience of Time* Julian Wright asks how socialists in France from the mid nineteenth to the mid twentieth century tried to follow a democratic commitment to the present The debate about time that emerged in French socialism lay beneath the surface of political arguments within the left But how did this focus on the present relate to the tradition of revolution in France What did socialism have to say about social experience in the present and how did this discussion shape socialism as a movement Wright examines French socialism's fascination with modern history through a new reading of Jean Jaurès's multi-authored project to write a socialist history of France since 1789 Then in four interlocking biographical essays he analyses the reformist and idealist socialism of the Third Republic long side lined in the historical literature With a sometimes emotional focus on the present times of Benoît Malon Georges Renard Marcel Sembat and Léon Blum a personal history unfolds that allows us to revisit the traditional narrative of French socialism This is not so much a story of the future hope for revolution as an intimate account of socialism intellectual engagement and the human present

Revolution and the Millennium James F. Rinehart, 1997-10-30 An interdisciplinary cross cultural cross historical analysis of three 20th century non Western revolutionary societies China Mexico and Iran that were profoundly impinged upon by European and American imperialism The study explores the role of apocalyptic beliefs in radical movements bent on sociopolitical transformation It concludes that millennial expectations performed important and similar preparatory leadership and therapeutic functions in each case Millenarian movements are powerful and emotional social movements that expect an immediate collective total this worldly supernatural salvation and transformation of society They

anticipate the complete destruction of the existing sociopolitical and economic order which they assert will be followed by a new and perfect society This study provides an interdisciplinary cross cultural cross historical analysis of three 20th century non Western revolutionary societies that were profoundly impinged upon by European and American imperialism It seeks to explore the functional role of millenarianism in these three revolutions In all three cases millenarianism prepared the way for revolutionary transformation It acted as a catalyst for action among that group of the most ardent revolutionists who were willing to pay any price to achieve what they were convinced was the inevitable goal of a utopian society Millenarianism created the potential for charismatic leadership to emerge It functioned as a doctrinal platform that awaited the opportunity to elevate a prophetic revolutionary leader to take control Finally millenarianism performed a therapeutic identity and cathartic function by providing the doctrinal foundation and an effective organization for a social healing process to take place A challenge to conventional arguments on the origins and outcomes of revolutions this study will be of great interest to scholars and researchers in comparative politics sociology and religion

Messianism and Sociopolitical Revolution in Medieval Islam Said Amir Arjomand, 2025-10-28 This study of messianism and revolution examines an extremely rich though unexplored historical record on the rise of Islam and its sociopolitical revolutions from Muhammad s constitutive revolution in Arabia to the Abbasid revolution in the East and the Fatimid and Almohad revolutions in North Africa and the Maghreb Bringing the revolutions together in a comprehensive framework Sa d Amir Arjomand uses sociological theory as well as the critical tools of modern historiography to argue that a volatile but recurring combination of apocalyptic motivation and revolutionary action was a driving force of historical change time and again In addition to tracing these threads throughout 500 years of history Arjomand also establishes how messianic beliefs were rooted in the earlier Judaic and Manichaeian notions of apocalyptic transformation of the world By bringing to light these linkages and factors not found in the dominant sources this text offers a sweeping account of the long arc of Islamic history

Global Deception and the Issue of Freedom Ville Suutarinen, 2022-06-29 A Book about Current Events in Light of Apocalyptic Trumpets Trumpets were signaling devices in ancient Israel and a metaphorical and amazing message is hidden in them for the modern human being The relationship between freedom and responsibility is a very current topic Who has the authority to define the limits of freedom and responsibility Which entity has the authority to decide who has the right to access freedoms The forces of evil including the Antichrist aim to take the hold of this authority by deception The great controversy between light and darkness concentrates on these issues and it is a battle for our mindset and attitudes Jesus Christ will have victory in the end However it is important to know the means of the hoax of Satan and the Antichrist so that we would not be deceived A global medical deception is part of the hoax Liberty of conscience not totalitarianism is at the heart of God s mindset and government The interpretation of the trumpets has a long tradition This book continues the tradition by concentrating on the fifth and the sixth trumpet Often in Protestantism the events of the fifth and the sixth trumpet are either situated into the past so called

traditional interpretation in Adventism or they are seen to reach until the present time In this book we unite the two views and think that the trumpets are repeated in history We aim to let the Bible interpret itself Both global deception and freedom of conscience are issues which are grounded on God s Word The book is a self published work and it contains 259 pages

of Being Karin Holsinger Sherman, 2007-07-20 James Douglass's writings have been recognized as among the most challenging and inspiring explorations of nonviolence and Christian discipleship in the last century Throughout his career Douglass has argued forcefully for the integration of contemplation and resistance theology and cultural critique spirituality and prophetic involvement His work has inspired many of the key figures in recent debates regarding just war Christian nonviolence and radical discipleship and continues to be highly relevant in our contemporary situation In *A Question of Being* the first book length treatment published on Douglass's writings Karin Holsinger Sherman provides an introduction to and engagement with this important body of work through an exploration into its contextual history influences and main themes Moreover the author argues that these themes work together to create an ontology of nonviolence an ontology that integrates the forces of resistance and contemplation so important to Douglass The book begins by examining Douglass's biography and three broad historical trajectories that give context to his thought the fusion of Christianity and American nationalism in the early Cold War period the emergence of cultural critique in the late fifties and early sixties and the Catholic pacifist tradition and the post 1972 period of disillusionment Holsinger Sherman then considers the lives and thought of Dorothy Day Mahatma Gandhi and Thomas Merton as well as their unique intellectual and exemplary influence on Douglass's ideas After explicating the themes of the cross and the kingdom as they developed chronologically in Douglass's writing career this book draws together Douglass's thought to reveal an ontology of nonviolence In her conclusion Holsinger Sherman argues that this ontology of nonviolence is the key to understanding Douglass's integral theology of contemplation and resistance Growth and Decline in the Anglican Communion David Goodhew, 2016-12-15 The Anglican Communion is one of the largest Christian denominations in the world *Growth and Decline in the Anglican Communion* is the first study of its dramatic growth and decline in the years since 1980 An international team of leading researchers based across five continents provides a global overview of Anglicanism alongside twelve detailed case studies The case studies stretch from

Singapore to England Nigeria to the USA and mostly focus on non western Anglicanism This book is a critical resource for students and scholars seeking an understanding of the past present and future of the Anglican Church More broadly the study offers insight into debates surrounding secularisation in the contemporary world **Revolution** Michael L.

Brown,2020-10-06 A revolution of repentance by the power of the Holy Spirit is needed in the church to bring renewal to a hurting nation After reading Revolution you will understand what a biblical revolution looks like and how to implement it starting within your own heart and going outward from there This book is not a call to the violent overthrow of the government nor is it a call to take up arms nor is it a call to political activism in and of itself It is a call to something far more extreme a call to live out the gospel with all its radical claims a call for the people of God to impact this generation with the prophetic message of repentance a call to spark the most sweeping counterculture movement in our nation s history a call to take back the moral high ground that has been stolen from under our feet a call to follow Jesus by life or by death Revolution answers such questions as What is the role of the Christian and the church during these tumultuous times How are we to respond to the racial upheaval happening in our nation What is the church s role in healing the divide in our fractured divided country Dr Brown turns up the volume in this call to God s remnant people to pray repent and act according to the teachings of Jesus who is calling us to holy revolution **Christianity** Matt Stefon Assistant Editor, Religion,2011-08-15

Describes the basic doctrines history and religious practices of Christianity including Christian concepts of human nature and profiles famous Christian figures throughout history **John Woolman and the Government of Christ** Jon R.

Kershner,2018-03-01 In 1758 a Quaker tailor and sometime shopkeeper and school teacher stood up in a Quaker meeting and declared that the time had come for Friends to reject the practice of slavery That man was John Woolman and that moment was a significant step among many toward the abolition of slavery in the United States Woolman s antislavery position was only one essential piece of his comprehensive theological vision for colonial American society Drawing on Woolman s entire body of writing Jon R Kershner reveals that the theological and spiritual underpinnings of Woolman s alternative vision for the British Atlantic world were nothing less than a direct spiritual christocracy on earth what Woolman referred to as the Government of Christ Kershner argues that Woolman s theology is best understood as apocalyptic centered on a supernatural revelation of Christ s immediate presence governing all aspects of human affairs and envisaging the impending victory of God s reign over apostasy John Woolman and the Government of Christ explores the theological reasoning behind Woolman s critique of the burgeoning trans Atlantic economy slavery and British imperial conflicts and fundamentally reinterprets 18th century Quakerism by demonstrating the continuing influence of early Quaker apocalypticism Literary Landscapes of

Time Jobst Welge,Juliane Tauchnitz,2022-11-07 The volume asks how the literatures of the Americas and the Caribbean present multiple or internally differentiated spaces and how these are distinguished or traversed by different temporalities The historical and post colonial experiences of these areas turns them into especially fertile ground for the exploration of the

connections between landscape geography and historical temporal palimpsests as well as the specificities of literary form. The contributions are dedicated to individual yet conceptually interconnected studies of staggered multiple non simultaneous temporalities in modern and contemporary literature. The volume adopts a comparative perspective throughout and intends to foster the dialogue between the study of Latin American and Caribbean literatures in Spanish Portuguese French and English. Therefore the individual essays are not grouped according to geographical or linguistic areas but follow a trajectory from spatiotemporal constellations of the 19th century to ruined catastrophic landscapes and the geopoetic inscriptions of time in regions. The essays should appeal to all readers interested in World Literature Hemispheric Studies as well as temporal approaches to space and geography.

Jacob Green's Revolution S. Scott Rohrer, 2015-01-14 Part biography and part microhistory Jacob Green's Revolution focuses on two key figures in New Jersey's revolutionary drama Jacob Green a radical Presbyterian minister who advocated revolution and Thomas Bradbury Chandler a conservative Anglican minister from Elizabeth Town who was a leading loyalist spokesman in America. Both men were towering intellectuals who were shaped by Puritan culture and the Enlightenment and both became acclaimed writers and leading figures in New Jersey Green for the rebelling colonists Chandler for the king. Through their stories this book examines the ways in which religion influenced reform during a pivotal time in American history.

The Coming of God Jürgen Moltmann, Margaret Kohl, 2004-07-27 Winner of Grawemeyer Award In this remarkable and timely work in many ways the culmination of his systematic theology world renowned theologian Jürgen Moltmann stands Christian eschatology on its head. Moltmann rejects the traditional approach which focuses on the End an apocalyptic finale as a kind of Christian search for the final solution. He centers instead on hope and God's promise of new creation for all things. Christian eschatology he says is the remembered hope of the raising of the crucified Christ so it talks about beginning afresh in the deadly end. Yet Moltmann's novel framework deeply informed by Jewish and messianic thought also fosters rich and creative insights into the perennially nettling questions of eschatology. Are there eternal life and personal identity after death? How is one to think of heaven hell and purgatory? What are the historical and cosmological dimensions of Christian hope? What are its social and political implications? In a heartbreakingly fragile and fragment world Moltmann's comprehensive eschatology surveys the Christian vista bravely envisioning our horizons of expectation for personal social even cosmic transformation in God.

artificial intelligence chatbots and the internet It demonstrates the continuing relevance of history in a cacophonous world of misinformation and censorship emphasizing critical thinking facts and evidence as valuable means of understanding the past and shaping the future Engaging and accessible this volume is ideal for undergraduate courses in historiography and historical methods Souls of Distortion Awakening J. Wicherink, 2006-02-17 This book reunites science and spirituality after her roads separated 300 years ago More and more scientists are discovering that both disciplines are only two sides of the same coin We are on the verge of a major paradigm change in science where the immaterial subjective world of the mind can no longer be separated from the objective material world This leap in human consciousness was already foreseen by the ancients and American indigenous people like the Maya Hopi and Aztecs who prophesized that this transformation of consciousness would take place in our time This book takes you on a journey from the ancient wisdom to the most modern scientific insights and demonstrates how both can be united
