Confederate Emancipation Bruce Levine, 2005-11-01 In early 1864 as the Confederate Army of Tennessee licked its wounds after being routed at the Battle of Chattanooga Major General Patrick Cleburne the Stonewall of the West proposed that the most courageous of our slaves be trained as soldiers and that every slave in the South who shall remain true to the Confederacy in this war be freed In Confederate Emancipation Bruce Levine looks closely at such Confederate plans to arm and free slaves He shows that within a year of Cleburne's proposal which was initially rejected out of hand Jefferson Davis Judah P Benjamin and Robert E Lee had all reached the same conclusions At that point the idea was debated widely in newspapers and drawing rooms across the South as more and more slaves fled to Union lines and fought in the ranks of the Union army Eventually the soldiers of Lee's army voted on the proposal and the Confederate government actually enacted a version of it in March The Army issued the necessary orders just two weeks before Appomattox too late to affect the course of the war Throughout the book Levine captures the voices of blacks and whites wealthy planters and poor farmers soldiers and officers and newspaper editors and politicians from all across the South In the process he sheds light on such hot button topics as what the Confederacy was fighting for whether black southerners were willing to fight in large numbers in defense of the South and what this episode foretold about life and politics in the post war South Confederate Emancipation offers an engaging and illuminating account of a fascinating and politically charged idea setting it firmly and vividly in the context of the Civil War and the part played in it by the issue of slavery and the actions of the slaves themselves

Revolution and Reaction in Nineteenth Century French Literature Georg Brandes, 1960 **Politics and the Sciences of Culture in Germany, 1840-1920** Woodruff D. Smith, 1991-06-20 Examining the ways in which politics and ideology stimulate and shape changes in human science this book focuses on the cultural sciences in nineteenth and early twentieth century Germany The book argues that many of the most important theoretical directions in German cultural science had their origins in a process by which a general pattern of social scientific thinking one that was closely connected to political liberalism and dominant in Germany and elsewhere before the mid nineteenth century fragmented in the face of

the political troubles of German liberalism after that time Some liberal social scientists who wanted to repair both liberalism and the liberal theoretical pattern and others who wanted to replace them with something more conservative turned to the concept of culture as the focus of their intellectual endeavors Later generations of intellectuals repeated the process motivated in large part by the experiences of liberalism as a political movement in the German Empire Within this framework the book discusses the formation of diffusionism in German anthropology Friedrich Ratzel s theory of Lebensraum folk psychology historical economics and cultural history It also relates these developments to German imperialism the rise of radical nationalism and the upheaval in German social science at the turn of the century **Modern and Contemporary**

Mellor,2000-05-22 A survey of British women s writings of the late eighteenth and early nineteenth centuries and the revolutionary New Woman they promoted British women writers were enormously influential in the creation of public opinion and political ideology during the years from 1780 to 1830 Anne Mellor demonstrates the many ways in which they attempted to shape British public policy and cultural behavior in the areas of religious and governmental reform education philanthropy and patterns of consumption She argues that the theoretical paradigm of the doctrine of the separate spheres may no longer be valid According to this view British

society was divided into distinctly differentiated and gendered spheres of public versus private activities in the eighteenth and nineteenth centuries Surveying all the genres of literature drama poetry fiction non fiction prose and literary criticism Mellor shows how women writers promoted a new concept of the ideal woman as rationally educated sexually self disciplined and above all virtuous This New Woman these writers said was better suited to govern the nation than were its current fiscally irresponsible lecherous and corruptible male rulers Beginning with Hannah More Mellor argues that women writers too often dismissed as conservative or retrogressive instead promoted a revolution in cultural mores or manners She discusses writers as diverse as Elizabeth Inchbald Hannah Cowley and Joanna Baillie as Charlotte Smith Anna Barbauld and Lucy Aikin as Mary Wollstonecraft Charlotte Reeve and Anna Seward and concludes with extended analyses of Charlotte Smith's *Desmond* and Jane Austen's *Persuasion* She thus documents women writers full participation in that very discursive public sphere which Habermas so famously restricted to men of property Moreover the new career of philanthropy defined by Hannah More provided a practical means by which women of all classes could actively construct a new British civil society and thus become the mothers not only of individual households but of the nation as a whole Intellectual and social historians and not just feminists have long believed that the late 18th and early 19th centuries in Britain saw an increasing separation of the male public and female domestic realms with the result that the public sphere theorized by Jurgen Habermas and others to have emerged in the Enlightenment almost entirely excluded women With energy wit and admirable command of her sources Mellor author of distinguished books on Romanticism demonstrates that just the opposite was true in the years around 1800 women became the primary producers and consumers of writing in Britain and vitally participated in the discursive public sphere many arguing in their different ways for what Hannah More the most popular author of the period called a moral revolution in the national manners and principles A splendid survey of women novelists poets critics playwrights and social theorists this bracing and important work of revision deserves a place in serious academic libraries serving both undergraduates and advanced scholars D L Patey Choice **A Year of Revolutions** Hanna Ballin
