Radicalism and Cultural Dislocation in Ethiopia, 1960-1974 Messay Kebede, 2008 A provocative investigation into the root causes of the Ethiopian political upheavals in the second half of the twentieth century During the 1960s and early 1970s a majority of Ethiopian students and intellectuals adopted a Marxist Leninist ideology with fanatic fervor The leading force in an uprising against the imperial regime of Emperor Haile Selassie they played a decisive role in the rise of a Leninist military regime In this original study Messay Kebede examines the sociopolitical and cultural factors that contributed to the radicalization of the educated elite in Ethiopia and how this phenomenon contributed to the country's uninterrupted political crises and economic setbacks since the Revolution of 1974 Offering a unique insider's perspective garnered from his direct participation in the student movement the author emphasizes the role of the Western education system in the progressive radicalization of students and assesses the impact of Western education on traditional cultures The most comprehensive study of the role of students in modern Ethiopian political history to date Radicalism and Cultural Dislocation in Ethiopia 1960-1974 opens the door for discussion and debate on the issue of African modernization and the effects of cultural colonization Messay Kebede is Professor in the Department of Philosophy at the University of Dayton and is author of *Survival and Modernization Ethiopia's Enigmatic Present A Philosophical Discourse* 1999 **Religion, Rebellion, Revolution** Bruce Lincoln, 1985-07-22 Papers from a symposium on Religion and revolution held at the University of Minnesota 6-8 Nov 1981 *Market and Community* Mark Irving Lichbach, Adam B. Tocqueville's political thought the methodology that Tocqueville brought to his historical and political writings allowing him to predict so well his assumptions about what constitutes a revolution his conviction that democracy and commerce at times work against each other why Tocqueville's thought defies our modern political classifications his fear of a qualitatively new kind of despotism and Tocqueville's predictions for the future compared to those of Nietzsche Arendt and others Tocqueville's Road Map is a long overdue addition to Tocqueville scholarship that will find an audience amongst scholars of political thought and history

Johnston, 2016-07-29 This book presents a posthumous collection of previously uncollected works of political theory written by Whittle Johnston Johnston believed that both the liberal tradition of political thought and the realist tradition of international thought had contributed much to humanity's store of political wisdom but that each had limitations that could most easily be recognized by its encounter with the other His method of accomplishing this task was to examine the liberal conception of political life in general and international political life in particular and then to explore the realist critique of the liberal view particularly as it was expressed by three great twentieth century realist thinkers all of whom were in their various ways skeptical of liberal assumptions Reinhold Niebuhr Hans Morgenthau and E H Carr In doing so Johnston reveals the power of the realist outlook but also the areas in which it remains insufficient and insufficient particularly where it underestimates the complexity and prudence that liberalism is capable of displaying There have been studies of both liberalism and realism but no other work has put them into conversation with each other in the way that this book does
