**Revolution from the Middle** Samuel T. Francis, 1997      My Reminiscences of the Russian Revolution Morgan Philips Price, 1921      **The Great French Revolution. 1789-1793. Transl. from the French by N.F. Dryhurst** Petr Alekseevič Kropotkin, 1909      *Six Theories about the Islamic Revolution's Victory* Sadegh Haghighat, 2000      **The Civil Sphere in Latin America** Jeffrey C. Alexander, Carlo Tognato, 2018-05-03 Social thinkers have criticized Latin American development as incomplete backward and anti modern This volume demonstrates that while often deeply compromised and fragmented Latin American civil spheres have remained resilient institutionally and culturally generating new oppositional movements independent journalism rebellious intellectuals electoral power and critical political parties In widely different arenas dissidents have employed the coruscating language of the civil sphere to pollute their oppressors in the name of justice In the 1970s and 1980s political thinkers heralded the resurrection of Latin American civil society envisioning a new world of freedom and stability Corruption inequality racism and exclusion become pressing and urgent social problems not despite the promises of democracy but because of them The premise of this volume is that Latin American civil spheres are powerful even as they are compromised creating challenges to anti civil culture and institutions that trigger social reform It is the first of three volumes that place civil sphere theory in a global context      **The Surveyor**, 1908      Modern World History, 1776-1926 Alexander Clarence Flick, 1926      **Marx's Resurrection of Aristotle** Norman Levine, 2021-01-24 This book seeks to show how Karl Marx's vision of communism was a continuation of Aristotle's classical humanist philosophy Challenging the Engelsian distortion of Marx it presents a negation of previous interpretations of Marx which present him in materialist terms Engels proposed a picture of the highest stage of communist society as an economic egalitarianism a vision which became an axiom of Leninist Stalinist Soviet Communism By contrast here it is shown that Marx embraced the Aristotelian concept of distributive justice of proportionate equality Spanning the works of Marx from his university education and doctoral dissertation on the differences between the Democritean and Epicurean philosophy of the atom to the study of his Rheinische Zeitung period and the persistence of classical humanism in Marx's defense of the freedom of the press Levine skillfully reveals the gravitational pull between Marx and Aristotle Showing how classical humanism is the dominant ethos in the communism of Marx the book includes chapters on Hegel as a transition point between Aristotle and Marx The links between Marx's theory of labor and Aristotle's idea of the constitutive subject located in The Politics How the local methodologies of Aristotle and Hegel provided Marx with the social methodologies by which to interpret the functioning of capitalism Marx's Resurrection of Aristotle is the culmination of Norman Levine's life long work to establish the correct placement of Marx and Marx's communism within the classical humanist tradition      **An Explanation and Criticism of the Doctrines and Proposals of Scientific Socialism** James Edward Le Rossignol, 1921      *Emancipatory Thinking* Elaine Stavro, 2018-05-11 Most scholars have focused on The Second Sex and Simone de Beauvoir's fiction concentrating on gender

issues but ignoring her broader emancipatory vision Though Beauvoir's political thinking is not as closely studied as her feminist works it underpinned her activism and helped her navigate the dilemmas raised by revolutionary thought in the postwar period In *Emancipatory Thinking* Elaine Stavro brings together Beauvoir's philosophy and her political interventions to produce complex ideas on emancipation Drawing from a range of work including novels essays autobiographical writings and philosophic texts Stavro explains that for Beauvoir freedom is a movement that requires both personal and collective transformation Freedom is not guaranteed by world historical systems material structures wilful action or discursive practices but requires engaged subjects who are able to take creative risks as well as synchronize with existing forces to work towards collective change Beauvoir Stavro asserts resisted the trend of anti humanism that has dominated French thinking since the 1960s and also managed to avoid the pitfalls of voluntarism and individualism In fact Stavro argues Beauvoir appreciated the impact of material socio economic institutional forces without forgoing the capacity to initiate Applying Beauvoir's existential insights and understanding of embodied and situated subjectivity to recent debates within gender literary sociological cultural and political studies *Emancipatory Thinking* provides a lens to explore the current political and theoretical landscape
