Road To War 1933-39:

Two Roads to War Robin Higham, 2012-06-15 Noted aviation historian Robin Higham has written this comparative study of the evolution of the French and British air arms from 1918 to 1940 to determine why the Armée de l'Air was defeated in June 1940 but the Royal Air Force was able to win the battle over Britain in September. After analyzing the structure, men and matériel of the air arms and the government and economic infrastructure of both countries, he concludes that the French force was dominated by the Armée de Terre, had no suitably powerful aero engines and suffered from the chaos of French politics. In contrast, the independent RAF evolved into a sophisticated scientifically based force supported by consistent government practices. Higham's thorough examination, however, finds the British not without error. **The People's Dictatorship** Alan E. In the 3rd edition of this popular volume, Keith Eubank seeks answers to the questions that have plagued us: Why, after the ghastly ordeal of World War I, did Western powers undervalue the threat from Hitler? Why was there so much reluctance on the part of Britain and France to confront Germany? Why had Germany been permitted to rearm and to occupy independent nations without a struggle? What was the policy of appeasement? Why did the appeasers fail to perceive Hitler's intentions? In addition to a re-examination of these questions and an effort to dispel the enduring myths surrounding the history of this era, Keith Eubank has enhanced this new edition by including an analysis of the motivations and actions of central figures such as Neville Chamberlain and Joseph Stalin, as well as a re-assessment of Soviet policies in the light of recent research that reveals their leaders as far less altruistic than some have imagined. With an expanded conclusion, a new photo section and an updated bibliographic essay, this book remains an excellent brief overview of the period between 1918 and 1939. *The Origins of the Second World War: An International*

know more about World War II **The Origins of the Second World War** R. J. Overy, 2014-01-14 The book explores the reasons why the Second World War broke out in September 1939 and not sooner and why a European war expanded into world war by 1941 The war has usually been seen simply as Hitler's war and yet the wider conflict that broke out when Germany invaded Poland was not the war that Hitler wanted He had hoped for a short war against Poland instead Britain and France declared war on Germany Richard Overy argues that any explanation of the outbreak of hostilities must therefore be multi national and he shows how the war's origins are to be found in the basic instability of the international system that was brought about by the decline of the old empires of Britain and France and the rise of ambitious new powers Italy Germany and Japan keen to build new empires of their own Combined Statement of Receipts, Expenditures and Balances of the United States Government (varies Slightly) ,1939
