increasingly concerned by America's moral vision admitted I've come to believe that we are integrating into a burning house. In *A Burning House* Brandon Washington contends that American Evangelicalism is a house ablaze, burning in the destructive fires of discrimination and injustice. The stain of segregation remains prevalent not only in our national institutions but also in our churches, and this has long tarnished the witness of Christianity and hampered our progress toward a Christ-like vision of Shalom, peace, justice, and wholeness in the world. Common doctrine may unite black and white evangelicals, but rifts such as social ethics and cultural influences still separate us. Throughout this challenging but reconciliatory book, Washington gives a historical and theological appraisal of American evangelicalism to understand how we came to be where we are and what our response should be. Instead of calling the movement to become something new, he challenges it to live into what it has always been in Christ and strive for deliberate and sacrificial integration, the unity of believers of all ethnicities. *A Burning House* is a rallying call to a waning movement whose most public leaders have often turned a blind eye to or even justified the sin of racism, a movement whose theology is sometimes compromised by a secular anthropology. This is a call to both white and black evangelicals to better understand our past so that we can better embrace the unifying and comprehensive message of the gospel we preach. [The Oxford Handbook of Presbyterianism](#) Gary Scott Smith, P.C. Kemeny, 2019-07-08

Presbyterianism emerged during the sixteenth-century Protestant Reformation. It spread from the British Isles to North America in the early eighteenth century. During the nineteenth and twentieth centuries, Presbyterian denominations grew throughout the world. Today there are an estimated 35 million Presbyterians in dozens of countries. *The Oxford Handbook of Presbyterianism* provides a state-of-the-art reference tool written by leading scholars in the fields of religious studies and history. These thirty-five articles cover major facets of Presbyterian history, theological beliefs, worship practices, ecclesiastical forms and structures, as well as important ethical, political, and educational issues. Eschewing parochial and sectarian triumphalism, prominent scholars address their particular topics objectively and judiciously. **Fatal Self-Deception**

Eugene D. Genovese, Elizabeth Fox-Genovese, 2011-10-24 Slaveholders were preoccupied with presenting slavery as a benign paternalistic institution in which the planter took care of his family, and slaves were content with their fate. In this book, Eugene D. Genovese and Elizabeth Fox-Genovese discuss how slaveholders perpetuated and rationalized this romanticized version of life on the plantation. Slaveholders' paternalism had little to do with ostensible benevolence, kindness, and good cheer. It grew out of the necessity to discipline and morally justify a system of exploitation. At the same time, this book also advocates the examination of masters' relations with white plantation laborers and servants, a largely unstudied subject. Southerners drew on the work of British and European socialists to conclude that all labor, white and black, suffered de facto slavery, and they championed the South's Christian slavery as the most humane and compassionate of social systems, ancient and modern. **J. N. Darby and the Roots of Dispensationalism** Crawford Gribben, 2024 John Nelson Darby is best known as the architect of the most influential system of end-times thinking among the world's half a billion evangelicals. This

book re examines Darby s thought and argues that claims that Darby is the father of dispensationalism may need to be revised

Reformed Theology in America David F. Wells,1985 Modern Reformed Theology In America Has shown astonishing variety in its expression Grouped under the name Reformed are in fact five diverse traditions the Princeton theology Westminster Calvinism the Dutch schools Southern Reformed thought and Neoorthodoxy This book provides penetrating analysis of these five traditions and the two leading theologians of each The result is an important advance in our understanding of what being Reformed has meant and what it should now mean in the late twentieth century Publisher

Religion and Politics in America Frank J. Smith,2016-07-11 There has always been an intricate relationship between religion and politics This encyclopedia provides a comprehensive overview of the interrelation of religion and politics from colonial days to the present Can a judge display the Ten Commandments outside of the courthouse Can a town set up a nativity scene on the village green during Christmas Should U S currency bear the In God We Trust motto Should public school students be allowed to form bible study groups Controversies about the separation of church and state the proper use of religious imagery in public space and the role of religious beliefs in public education are constantly debated This work offers insights into contemporary controversies regarding the uneasy intersections of religion and politics in America Organized alphabetically the entries place each topic in its proper historical context to help readers fully grasp how religious beliefs have always existed side by side and often clashed with political ideals in the United States from the time of the colonies The information is presented in an unbiased manner that favors no particular religious background or political inclination This work shows that politics and religion have always had an impact on one another and have done so in many ways that will likely surprise modern students

The Legacy of St. George Tucker Chad Vanderford,2024-01-12 In The Legacy of St George Tucker Chad Vanderford provides a cogent longitudinal explication of how Virginia intellectuals constructed and defined proslavery ideology and state rights He reminds twenty first century readers that in order to judge late eighteenth and early nineteenth century thinkers fairly they must position basic

political ideas within the context of their day not ours Vanderford's book will prove valuable not only for students and researchers of political theory but also of southern intellectual life and the political worlds of the Colonial Early National and Old South John David Smith Charles H Stone Distinguished Professor of American History University of North Carolina at Charlotte Historians born during and after the Civil Rights movement have struggled to take the proslavery and pro secession arguments of the eighteenth and nineteenth century South seriously They generally tend to lump the two theories together as components of one ideology and then attempt to write it out of the political norms of American life In this groundbreaking study Vanderford isolates the different ideological strands in southern political thought of this era and works to understand these ideas in the context of their time St George Tucker 1752 1827 Founding Father professor and political theorist saw clearly that slavery runs against the grain of the values articulated in the Declaration of Independence Under certain narrowly construed circumstances however he thought it necessary to tolerate slavery He viewed secession as an extreme step but one that the Declaration of Independence left open as a possibility for all free states St George Tucker's arguments hinged on a modern view of natural right that builds on the premise that political power can only be legitimate if it rests on the consent of the governed He believed that equally free and independent individuals constructed a voluntary union of equally free and independent states His son Henry Tucker 1780 1848 and grandson John Randolph Tucker 1823 1897 sought to defend this ideology of modern natural right against fellow professors North and South who tended to replace it with the ancient ideology of natural right the view that wisdom gives one the title to command Many southern intellectuals came to believe that individuals are not equally free and independent by nature many northerners came to argue that the states had never been equally free and independent These disagreements contributed to the outbreak of the Civil War At once a work of intellectual history that shows the key role played by professors in helping to formulate southern ideology as well as a recovery of rarely explored arguments this work wrestles with one of the greatest challenges of intellectual history the effort to understand the most controversial ideas of the past on their own terms while searching for the genealogy that connects the past to the present CHAD VANDERFORD is an associate professor of history at the University of Texas of the Permian Basin His articles and reviews have appeared in publications including Civil War History the Journal of Southern History and the Virginia Magazine of History and Biography

[Making the Bible Belt](#) Joseph L. Locke, 2017 By reconstructing the religious crusade to achieve prohibition in Texas Making the Bible Belt reveals how southern religious leaders overcame longstanding anticlerical traditions built a formidable social movement and in the course of outlawing liquor injected religion irreversibly into public life

[The Mind of the Master Class](#) Elizabeth Fox-Genovese, Eugene D. Genovese, 2005-10-17 The Mind of the Master Class tells of America's greatest historical tragedy It presents the slaveholders as men and women a great many of whom were intelligent honorable and pious It asks how people who were admirable in so many ways could have presided over a social system that proved itself an enormity and inflicted horrors on their slaves The

South had formidable proslavery intellectuals who participated fully in transatlantic debates and boldly challenged an ascendant capitalist free labor society. Blending classical and Christian traditions they forged a moral and political philosophy designed to sustain conservative principles in history, political economy, social theory, and theology while translating them into political action. Even those who judge their way of life most harshly have much to learn from their probing moral and political reflections on their times and ours, beginning with the virtues and failings of their own society and culture. *Dealing with Darwin* David N. Livingstone, 2014-05-15. How was Darwin's work discussed and debated among the same religious denomination in different locations? Using place, politics, and rhetoric as analytical tools, historical geographer David N. Livingstone investigates how religious communities sharing a Scots Presbyterian heritage engaged with Darwin and Darwinism at the turn of the twentieth century. His findings, presented as the prestigious Gifford Lectures, transform our understandings of the relationship between science and religion. The particulars of place, whether in Edinburgh, Belfast, Toronto, Princeton, or Columbia, South Carolina, shaped the response to Darwin's theories. Were they tolerated, repudiated, or welcomed? Livingstone shows how Darwin was read in different ways, with meaning distilled from Darwin's texts depending on readers' own histories, their literary genealogies, and cultural preoccupations. That the theory of evolution fared differently in different places, Livingstone writes, is exactly what Darwin might have predicted. As the theory diffused, it diverged. *Dealing with Darwin* shows the profound extent to which theological debates about evolution were rooted in such matters as anxieties over control of education, the politics of race relations, the nature of local scientific traditions, and challenges to traditional cultural identity. In some settings, conciliation with the new theory, even endorsement, was possible, demonstrating that attending to the specific nature of individual communities subverts an inclination to assume a single relationship between science and religion in general, evolution and Christianity in particular. Livingstone concludes with contemporary examples to remind us that what scientists can say and what others can hear in different venues differ today just as much as they did in the past.

The Old Faith in a New Nation Paul J. Gutacker, 2023. Conventional wisdom holds that tradition and history meant little to nineteenth-century American Protestants who relied on common sense and the Bible alone. *The Old Faith in a New Nation* challenges this portrayal by recovering evangelical engagement with the Christian past. Even when they appeared to be most scornful toward tradition, most optimistic and forward-looking, and most confident in their grasp of the Bible, evangelicals found themselves returning time and again to Christian history. They studied religious historiography, reinterpreted the history of the church, and argued over its implications for the present. Between the Revolution and the Civil War, American Protestants were deeply interested in the meaning of the Christian past. Paul J. Gutacker draws from hundreds of print sources—sermons, books, speeches, legal arguments, political petitions, and more—to show how ordinary, educated Americans remembered and used Christian history. While claiming to rely on the Bible alone, antebellum Protestants frequently turned to the Christian past on questions of import: how should the government relate to religion? Could Catholic

immigrants become true Americans What opportunities and rights should be available to women To African Americans Protestants across denominations answered these questions not only with the Bible but also with history By recovering the ways in which American evangelicals remembered and used Christian history The Old Faith in a New Nation shows how religious memory shaped the nation and interrogates the meaning of biblicism

Apocalypse and the Millennium in the American Civil War Era Ben Wright, Zachary W. Dresser, 2013-11-04 In the Civil War era Americans nearly unanimously accepted that humans battled in a cosmic contest between good and evil and that God was directing history toward its end The concept of God's Providence and of millennialism Christian anticipations of the end of the world dominated religious thought in the nineteenth century During the tumultuous years immediately prior to during and after the war these ideas took on a greater importance as Americans struggled with the unprecedented destruction and promise of the period Scholars of religion literary critics and especially historians have acknowledged the presence of apocalyptic thought in the era but until now few studies have taken the topic as their central focus or examined it from the antebellum period through Reconstruction By doing so the essays in Apocalypse and the Millennium in the American Civil War Era highlight the diverse ways in which beliefs about the end times influenced nineteenth century American lives including reform culture the search for meaning amid the trials of war and the social transformation wrought by emancipation Millennial zeal infused the labor of reformers and explained their successes and failures as progress toward an imminent Kingdom of God Men and women in the North and South looked to Providence to explain the causes and consequences of both victory and defeat and Americans black and white experienced the shock waves of emancipation as either a long prophesied jubilee or a vengeful punishment Religion fostered division as well as union the essays suggest but while the nation tore itself apart and tentatively stitched itself back together Americans continued looking to divine intervention to make meaning of the national apocalypse Contributors Edward J. Blum, Ryan Cordell, Zachary W. Dresser, Jennifer Graber, Matthew Harper, Charles F. Irons, Joseph Moore, Robert K. Nelson, Scott Nesbit, Jason Phillips, Nina Reid Maroney, Ben Wright

Perplexing Patriarchies: Fatherhood Among Black Opponents and White Defenders of Slavery Pierre Islam, 2019-08-15 Perplexing Patriarchies examines the rhetorical usage and lived experience of fatherhood among three African American abolitionists and three of their white proslavery opponents in the United States during the nineteenth century Both the prominent abolitionists Frederick Douglass, Martin Delany and Henry Garnet as well as the prominent proslavery advocates Henry Hammond, George Fitzhugh and Richard Dabney appealed to the popular image of the father, husband and head of household in order to attack or justify slavery How and why could these opposing individuals rely on appeals to the same ideal of fatherhood to come to completely different and opposing conclusions This book strives to find the answer by first acknowledging that both the abolitionists and the proslavery men shared similar concerns about the contested status of fatherhood in the nineteenth century However due to subtle differences in their starting assumptions and different choices of what parts of a father's responsibilities to

emphasize the black abolitionists conceived of an ideal father who protected the autonomy of his dependents while the proslavery men conceived of one whose authority necessitated the subordination of those he protected Finding that these differences arose from choices in starting assumptions and emphases rather than total disagreement on what the role of the father should be this work reveals that black abolitionists were not radically critiquing the gender conventions of their day but innovatively working within those conventions to turn them towards social reform This discovery opens up a new way for historians to consider how oppressed peoples negotiated the intellectual boundaries of the societies which oppressed them Not necessarily breaking entirely from those boundaries nor passively accepting them but ingeniously synthesizing a worldview from within their confines that still allowed for freedom and personal autonomy [Evangelical Dictionary of Theology \(Baker Reference Library\)](#) Walter A. Elwell, 2001-05-01 Fifteen years after its original publication comes a thoroughly revised edition of the Evangelical Dictionary of Theology Every article from the original edition has been revisited With some articles being removed others revised and many new articles added the result is a completely new dictionary covering systematic historical and philosophical theology as well as theological ethics
