Robert Minhinnick Selected Poems:

Selected Poems Robert Minhinnick, 1999 This text draws on six previous collections published between 1978 and 1994 The earlier poems are diverse ranging from descriptions of work in heavy industry to observations of wildlife around the writer's childhood home in Wales Later poems deal with travel in Brazil and the United States and also deal with schizophrenia The book celebrates the life and characters of a close knit community It then breaks away from the peopled landscape to consider history and culture from wider perspectives

New Selected Poems Robert Minhinnick, 2012 New Selected Poems contains Les Murray's gathering from the full range of his poetry from poems of the 1960s to work from *Taller When Prone* and new poems yet to appear in a collection

A Poet's Guide to Britain Owen Sheers, 2009-10-29 Introduced and selected by the poet/presenter Owen Sheers A Poet's Guide to Britain is a major poetry anthology that ties in with the BBC series of the same name Owen Sheers passionately believes that poems and particularly poems of place not only affect us as individuals but can have the power to mark and define a collective experience our identities our country our land He has chosen six powerful poems all personal favourites and all poems that have become part of the way we see our landscape The anthology follows a similar format to the BBC series itself while also offering paper chains of poems about the landscape and nature of Britain transcripts of contemporary poet interviews and a short introduction to each lead poem

Diary of the Last Man Robert Minhinnick, 2017-04-15 Wales Book of the Year 2018 Winner of the 2018 Roland Mathias Poetry Award Shortlisted for the 2017 T S Eliot Prize The opening poem sequence *Diary of the Last Man* sets the tone for Robert Minhinnick's book a celebration of the dwindling Earth an elegy a caution His Wales is a touchstone other landscapes and cityscapes are tried against it with its erratic weather its sudden changes of mood a black tonic The sequence remembers all the geographies of his earlier work old and new world but now unpeopled and the lonely spirit free to go anywhere do anything but meaning with mankind has drained away Yet still alive and still with language registering The rest of the book is filled with voices of children of rivers terrorists magicians and voices translated from the Welsh and from Turkish and Arabic shared enriching with their difference their other worlds History washes over and washes up on the strand of this Welsh book It is seen and recognised it begins to be transformed In the long concluding poem *The Sand Orchestra* the poet returns to his own voice and to the voice of a Bechstein piano abandoned in the open air played now by nature its winds and sand The last man who has been looking for Ulysses is the very man he has been looking for

The Beach in Anglophone Literatures and Cultures Ursula Kluwick, Virginia Richter, 2016-03-09 From

early colonial encounters to the ecological disasters of the twenty first century the performativity of contact has been a crucial element in the political significance of the beach Conceptualising the beach as a creative trope and as a socio cultural site as well as an aesthetically productive topography this collection examines its multiplicity of meanings and functions as a natural environment engendering both desire and fear in the human imagination from the Victorian period to the present The contributors examine literature film and art in addition to moments of encounter and environmental crisis to highlight the beach as a social space inspiring particular codes of behaviour and specific discourses as a geographical frontier between land and water as an historical site of contact and conflict and as a vacationscape promising regeneration and withdrawal from everyday life The diversity of the beach is reflected in the geographical range with essays on locales and texts from Britain Ireland the Caribbean South Africa the United States Polynesia and New Zealand Focusing on the changed function of the beach as a result of processes of industrialisation and the rise of a modern leisure and health culture this interdisciplinary volume theorises the beach as a demarcater of the precarious boundary between land and the sea as well as between nature and culture

A Companion to Twentieth-Century Poetry Neil Roberts,2008-04-15 In the twentieth century more people spoke English and more people wrote poetry than in the whole of previous history and this Companion strives to make sense of this crowded poetical era The original contributions by leading international scholars and practising poets were written as the contributors adjusted to the idea that the possibilities of twentieth century poetry were exhausted and finite However the volume also looks forward to the poetry and readings that the new century will bring The Companion embraces the extraordinary development of poetry over the century in twenty English speaking countries a century which began with a bipolar transatlantic connection in modernism and ended with the decentred heterogeneity of post colonialism Representation of the canonical and the marginal is therefore balanced including the full integration of women poets and feminist approaches and the in depth treatment of post colonial poets from various national traditions Discussion of context intertextualities and formal approaches illustrates the increasing self consciousness and self reflexivity of the period whilst a Readings section offers new readings of key selected texts The volume as a whole offers critical and contextual coverage of the full range of English language poetry in the last century
