**Robert Bly** Joyce Peseroff, 1984-01-01      *The Incorporative Consciousness of Robert Bly* Victoria Frenkel Harris, 1992

Victoria Frenkel Harris traces the aesthetic journey of poet Robert Bly from his early structured works of mystical imagery and lyrical landscapes to his recent explorations of intimate relationships and male socialization Examining the various ways Bly's prose poems articulate his opposition to the Vietnam War and his recent writings manipulate more formal patterns in detailing the intricacies of human relationships Harris labels this evolution in form subject and imagery the incorporative consciousness incorporative because it assimilates Jungian psychological categories international poetic traditions and a compelling breadth of topics Harris relies in part on contemporary feminist theory to throw revealing new light on Bly's recent works Though sympathetic to Bly Harris finds that in spite of his affirmation of the interaction of psychic creative and intellectual energies in both sexes the poet's later erotic poems tend to objectify women in counterproductive ways Bly's idealization of woman as a Jungian universal Harris contends can blind him toward actual women Harris is at her best as she delimits with balance and precision the full complexity of the poet's work      A Study Guide for Robert Bly's "Come with Me"

Quetchenbach, 2000 Many poets writing after World War II have found the individual focus of contemporary poetics poorly suited to making statements directed at public issues and public ethics The desire to invest such individualized poetry with greater cultural authority presented difficulties for Vietnam protest poets for example and it has been a particular challenge for nature writers in the Thoreau tradition who have attempted to serve as advocates for the natural world Examining the implications of this dilemma Bernard W Quetchenbach locates the poets Robert Bly Gary Snyder and Wendell Berry within two traditions the American nature writing tradition and the newer tradition of contemporary poetics He compares the work of two other twentieth century poets Robinson Jeffers and Theodore Roethke to illustrate how the contemporary shift toward a poetics focused on the poet's life has affected portrayals of nature and the public voice in poetry Turning back to the work of Bly Snyder and Berry Quetchenbach assesses their attempts to reinvent the public voice in the context of contemporary poetics and what effect these attempts have had on their work He argues that these poets have learned from their postwar generation techniques for adapting a personalized poetics to environmental advocacy In addition to modifying what critics have called the poetics of immediacy these poets have augmented their poetic output with prose and identified themselves with long standing traditions of poetic ethical and spiritual authority In doing so Bly Snyder and Berry have attempted to solve not only a problem inherent in contemporary poetics but also the larger problem of the role of the poet in a society that

does not recognize poetry While it would be an overstatement to suggest that these three figures have found a place for the poet in American life they have reached audiences that extend beyond traditional readers of poetry At the end of the twentieth century Quetchenbach concludes poets have begun to identify and direct their writing to specific audiences defined less by aesthetic preferences and more by a shared interest in and dedication to the work s subject matter Whether revealing a disturbing trend for poetry or an encouraging one for environmentalism and other political causes it is one of many provocative conclusions Quetchenbach draws from his examination of postwar nature poetry

**American Poets and Poetry** Jeffrey Gray, Mary McAleer Balkun, James McCorkle, 2015-03-10. The ethnically diverse scope, broad chronological coverage, and mix of biographical, critical, historical, political, and cultural entries make this the most useful and exciting poetry reference of its kind for students today. American poetry springs up out of all walks of life; its poems are maternal as well as paternal, stuff d with the stuff that is coarse and stuff d with the stuff that is fine as Walt Whitman wrote adding "Of every hue and caste am I of every rank and religion." Written for high school and undergraduate students, this two-volume encyclopedia covers U.S. poetry from the Colonial era to the present, offering full treatments of hundreds of key poets of the American canon. What sets this reference apart is that it also discusses events, movements, schools, and poetic approaches, placing poets in their social, historical, political, cultural, and critical contexts and showing how their works mirror the eras in which they were written. Readers will learn about surrealism, ekphrastic poetry, pastoral elegy, the Black Mountain poets, and language poetry. There are long and rich entries on modernism and postmodernism as well as entries related to the formal and technical dimensions of American poetry. Particular attention is paid to women poets and poets from various ethnic groups. Poets such as Amiri Baraka, Nathaniel Mackey, Natasha Trethewey, and Tracy Smith are featured. The encyclopedia also contains entries on a wide selection of Latino and Native American poets and substantial coverage of the avant garde and experimental movements and provides sidebars that illuminate key points.
