Saint Augustine Of The City Of God:

The City of God, Books XVII-XXII Saint Augustine, 2008-09 No description available **The City of God** Saint Augustine (of Hippo), Saint Bp of Hippo AUGUSTINE, 1972 **The City of God** Saint Augustine, 2021-05-07 The City of God is a book of Christian philosophy written in Latin by Augustine of Hippo in the early 5th century AD. The book was in response to allegations that Christianity brought about the decline of Rome and is considered one of Augustine's most important works. Augustine wrote The City of God as an argument for the truth of Christianity over competing religions and philosophies. He argues that Christianity was not responsible for the Sack of Rome but instead responsible for its success. Even if the earthly rule of the Empire was imperiled, it was the City of God that would ultimately triumph. As a work of one of the most influential Church Fathers, The City of God is a cornerstone of Western thought, expounding on many profound questions of theology such as the suffering of the righteous, the existence of evil, the conflict between free will and divine omniscience, and the doctrine of original sin. **The City of God** Augustine (Saint Bishop of Hippo.), 1884 *The City of God, Books VIII-XVI* Saint Augustine, 2008-09 This volume continues the translation of St Augustine's monumental work The City of God, a product of his vast erudition. Three books in particular, viz 8, 9, and 10, reveal Augustine's grasp of the tenets of the Platonists, Peripatetics, and Cynics. The greater part of this continuation, however, is concerned with Augustine's treatment of theological and scriptural topics. There is no strictly logical sequence, however, and numerous digressions intervene. In the course of books 11 and 16, he finds occasion to discuss among many other topics the creation of angels and their nature, demons and evils, the age of the earth and of the human race, death and dying, and the purpose of marriage. From the discussion of such topics, he passes easily to comments on the Hebrew and Greek texts of the Bible, the accuracy of the Septuagint and Latin translations, the discrepancies among various texts. As a product of his times, Augustine shares the opinion that Hebrew may be the oldest and perhaps most common language before the Tower of Babel incident recorded in Scripture. Most of Augustine's treatment of scriptural passages is concerned with allegorical interpretation. In book 14, however, the former professor of rhetoric at Milan comes through again in his discussion of the semantics of the words *caritas*, *amor*, *dilectio*, and *amo*. *The Cambridge Companion to Augustine's City of God* Fr. David Vincent Meconi, S.J., 2021-08-26 Augustine of Hippo's The City of God is generally considered to be one of the key works of Late Antiquity. Written in response to allegations that Christianity had brought about the decline of Rome, Augustine here explores themes in history, political science, and Christian theology and argues for the truth of Christianity over competing religions and philosophies. This Companion volume includes specially commissioned essays by an international team of scholars that provide new insights into The City of God. Offering commentary on each of this massive work's 22 books/chapters, they sequentially and systematically explore The City of God as a whole. Collectively, these essays demonstrate the development and coherence of Augustine's argument. The volume will be an invaluable resource for students and scholars of ancient and contemporary theology, philosophy, cultural studies, and

political theory Augustine's City of God James Wetzel,2012-10-04 Augustine's City of God has profoundly influenced the course of Western political philosophy but there are few guides to its labyrinthine argumentation that hold together the delicate interplay of religion and philosophy in Augustine's thought The essays in this volume offer a rich examination of those themes using the central contested distinction between a heavenly city on earthly pilgrimage and an earthly city bound for perdition to elaborate aspects of Augustine's political and moral vision Topics discussed include Augustine's notion of the secular his critique of pagan virtue his departure from classical eudaimonism his mythology of sin his dystopian politics his surprising attention to female bodies his moral psychology his valorisation of love his critique of empire and his conception of a Christian philosophy Together the essays advance our understanding of Augustine's most influential work and provide a rich overview of Augustinian political theology and its philosophical implications **The City of God** Saint Augustine of Hippo,Aeterna Press,1950 The glorious city of God is my theme in this work which you my dearest son Marcellinus suggested and which is due to you by my promise I have undertaken its defence against those who prefer their own gods to the Founder of this city a city surpassingly glorious whether we view it as it still lives by faith in this fleeting course of time and sojourns as a stranger in the midst of the ungodly or as it shall dwell in the fixed stability of its eternal seat which it now with patience waits for expecting until righteousness shall return unto judgment and it obtain by virtue of its excellence final victory and perfect peace A great work this and an arduous but God is my helper Aeterna Press **City of God** Augustin ((saint ;),2012
