Sculpture West And East Two Traditions:

The Treasury of Knowledge: Books Two, Three, and Four Jamgon Kongtrul, 2010-08-16 Jamgon Kongtrul's ten volume Treasury of Knowledge is a unique encyclopedic masterpiece embodying the entire range of Buddhist teachings as they were preserved in Tibet. Tibetan Buddhist teachers expected their students to study Buddhist philosophical texts as well as practice reflection and meditation. Present day students have also realized that awakening has its source in study as well as in reflection and practice. Buddhism's Journey to Tibet presents Kongtrul's masterful history of Buddhism in India and Tibet. Beginning with the appearance of the Buddha in our world, Book Two describes the Buddha's life, his enlightenment, and what he taught. Book Three, from a multitude of Buddhist viewpoints, describes Buddhism's transmission to and preservation in Tibet, which is the focus of the main part of this volume. Book Four, which describes the scriptural transmissions and lineages of meditation practice as well as the Buddhist arts that together make up the world of Tibetan Buddhism. *Sculpture West and East* Outlet, Outlet Book Company Staff, Random House Value Publishing Staff, 1976-08-01 Isamu Noguchi's Modernism Amy Lyford, 2013-06-08 In a study that combines archival research, a firm grounding in the historical context, biographical analysis, and sustained attention to specific works of art, Amy Lyford provides an account of Isamu Noguchi's work between 1930 and 1950 and situates him among other artists who found it necessary to negotiate the issues of race and national identity. In particular, Lyford explores Noguchi's sense of his art as a form of social activism and a means of struggling against stereotypes of race, ethnicity, and national identity. Ultimately, the aesthetics and rhetoric of American modernism in this period both energized Noguchi's artistic production and constrained his public reputation. *Newsletter, East Asian Art and Archaeology*, 1998 **ANNALS OF TRANSCULTURAL HISTORY OF ART** LI Jun, 2025-04-07 This book, grounded in a broad cross-regional and transcultural perspective, explores the cultural contexts, generative mechanisms, artistic forms, and ontological characteristics of art globally. It examines the complex interactions between diverse cultures and artistic traditions, offering insights into how these relationships have shaped artistic expression throughout history. The book is organized into three key sections. The Methodological Perspectives section highlights an integrated transcultural approach to art history, merging Eurasian art histories to present a holistic view. Ornament, Object, and Material Culture focuses on micro-level case studies within material culture, particularly along the Silk Road, revealing how foreign decorative styles and motifs merged with local traditions over time. The final section, Book Reviews, evaluates recent influential publications in transcultural art history and cultural studies. As the first book globally to explicitly identify itself as a study of the Transcultural History of Art, it presents groundbreaking research that moves beyond traditional nation-based narratives of art history. It introduces innovative methodologies and offers detailed case studies demonstrating the practical application of transcultural approaches, contributing to a deeper understanding of global artistic exchanges and the shared construction of human cultural heritage. **A History of Western Society, Volume 1** John P.
