BOOK JACKET Scythian Gold ,1999 **Legacy in Gold, Scythian Treasures from Ancient Ukraine [STUDENT REPORTS]** Sarah Gard,2022 **The Scythians** Barry Cunliffe,2019-09-26

Brilliant horsemen and great fighters the Scythians were nomadic horsemen who ranged wide across the grasslands of the Asian steppe from the Altai mountains in the east to the Great Hungarian Plain in the first millennium BC Their steppe homeland bordered on a number of sedentary states to the south the Chinese the Persians and the Greeks and there were inevitably numerous interactions between the nomads and their neighbours The Scythians fought the Persians on a number of occasions in one battle killing their king and on another occasion driving the invading army of Darius the Great from the steppe Relations with the Greeks around the shores of the Black Sea were rather different both communities benefiting from trading with each other This led to the development of a brilliant art style often depicting scenes from Scythian mythology and everyday life It is from the writings of Greeks like the historian Herodotus that we learn of Scythian life their beliefs their burial practices their love of fighting and their ambivalent attitudes to gender It is a world that is also brilliantly illuminated by the rich material culture recovered from Scythian burials from the graves of kings on the Pontic steppe with their elaborate gold work and vividly coloured fabrics to the frozen tombs of the Altai mountains where all the organic material wooden carvings carpets saddles and even tattooed human bodies is amazingly well preserved Barry Cunliffe here marshals this vast array of evidence both archaeological and textual in a masterful reconstruction of the lost world of the Scythians allowing them to emerge in all their considerable vigour and splendour for the first time in over two millennia

The Scythian Connection and the Shamanistic Crowns of Ancient Korea Shirley Fish, 2021-08-22 The Three Kingdoms Period in Korean history consisted of the kingdoms of Silla Koguryo and Paekche It was only the Silla kingdom which seemed to have had a connection to the ancient nomadic Scythians These people seemed so different from the indigenous inhabitants who were already living in Korea during the 3th to 6th centuries CE It is the author's opinion that they were the descendants of the Scythians who although they would not have called themselves Scythians they were none the less the remnant members of nomadic tribes that pushed eastward from Central Asia and Siberia to the Korean peninsula Once in Southern Korea they established the Silla kingdom where their time honored beliefs are depicted in their mound burials wooden burial chambers gold crowns horse riding and also in their Siberian shamanism This time period of the gold crowns and the people who produced the royal headgear was the Maripgan Period and as mentioned they were the descendants of Scythians who although in Central Asia and Siberia were known to have existed as far back as 10 000 years BC they were always on the move searching for new pasturelands for their herds or to avoid conflicts and war with their enemies The Silla crowns were created around the 5th to the 7th centuries in Kyongju the former capital of the Silla people When they were discovered in various archaeological mound sites they were found to be in a highly fragile state The crowns were each designated as national treasures by the Korean government and most weigh about one kilogram Some of the crowns came in two parts an inner gold cap which may have been covered in silk fabric and sat inside of the crown and the crown itself The crowns were totally shamanistic in their symbolism and represented the belief systems of the Scythians of Central Asia and Siberia which eventually made its way to Korea and the ancient Kingdom of Silla

renowned selection of scholars The authors adopt an interdisciplinary methodology examining both literary and archaeological sources and a comparative perspective that transgresses national chronological and cultural boundaries in order to investigate the nature of the links between text and image This multifaceted approach to the study of ancient artifacts enables the authors to treat art and artistic production as activities that do not merely mirror social or cultural relationships but rather and more significantly as activities that create social and cultural relationships The essays in this book are motivated by their authors belief that there is no simple direct link between art and myths art and text or art and ritual and that art should not be delegated to the role of a by product of a literate culture Instead the contextual and symbolic analyses of artifacts and representations offered in this volume elucidate how art actively shaped myth how it changed texts how it transformed ritual and how it altered the course of local regional and Mediterranean histories
