"A series which has set a new standard in *Natural History Books*."
THIRD LITERARY SUPPLEMENT

THE SEA COAST by J. A. Steers

"As our greatest authorities on coastal topography remain to be supplanted than Professor Steers to write the natural history of our sea coast. This book is a complete study showing the contours, the evolution and origin of the cliffs, rocks, sea stacks, beaches and dunes, together with the plants and animals that support."
WATERLOO COURTESY NEW

BIRDS AND MEN by E. M. Nicholson

The Bird Life of British Towns, Villages, Gardens and Farmland "Explores a new subject and evokes themes: what exactly has been the impact of modern civilization upon bird life? A notable blend of high scholarship with graphic writing."
BRITAIN

THE FULMAR (Special Volume) by James Fisher

"The species of British bird has never been photographed so completely as the Fulmar is in this splendid volume, and none can be a more worthy subject for so exhaustive a study. The author's researches have given us a book that is an example of scientific bird ornithology as no book. He is to be congratulated on successfully accomplishing this monumental work, which will be a constant reference point for many years to come."
