**50 Simple Things You Can Do to Save the Earth** John Javna, 2008-04-01 Together We Can Make a Difference Today's environmental problems may seem too overwhelming for one person to tackle but you don't have to do it alone Now you have partners

**50 of them** 50 Simple Things You Can Do to Save the Earth the revolutionary 1990 bestseller is back in a completely revised updated edition and it's just as innovative and groundbreaking as the original The authors have teamed up with 50 of

America's top environmental groups including The Natural Resources Defense Council the National Wildlife Federation and Rainforest Action Network Each group has chosen one issue and provided a simple step by step program that will empower you and your family to become citizen activists in the fight to save the Earth It's easy to get started Just pick one Fight global warming one city at a time with the Sierra Club's Cool Cities Campaign Roll up your sleeves and save an endangered species with the Wilderness Society Protect coral reefs and create a marine reserve with Seacology Get your congregation excited about protecting God's creations with Interfaith Power and Light Invite songbirds into your neighborhood with the National Audubon Society All it takes is a little effort When we work together we can work miracles Get started now **Hungry**

**Planet** Faith d'Aluisio, 2007-09 Provides an overview of what families around the world eat by featuring portraits of thirty families from twenty four countries with a week's supply of food 50 Ways to Save the Ocean David Helvarg, 2010-09-24 The oceans and the challenges they face are so vast that it's easy to feel powerless to protect them 50 Ways to Save the Ocean written by veteran environmental journalist David Helvarg focuses on practical easily implemented actions everyone can take to protect and conserve this vital resource Well researched personal and sometimes whimsical the book addresses daily choices that affect the ocean's health what fish should and should not be eaten how and where to vacation storm drains and driveway run off protecting local water tables proper diving surfing and tide pool etiquette and supporting local marine education Helvarg also looks at what can be done to stir the waters of seemingly daunting issues such as toxic pollutant runoff protecting wetlands and sanctuaries keeping oil rigs off shore saving reef environments and replenishing fish reserves

Sustaining Life Eric Chivian, Aaron Bernstein, 2008-06-02 The Earth's biodiversity the rich variety of life on our planet is disappearing at an alarming rate And while many books have focused on the expected ecological consequences or on the aesthetic ethical sociological or economic dimensions of this loss Sustaining Life is the first book to examine the full range of potential threats that diminishing biodiversity poses to human health Edited and written by Harvard Medical School physicians Eric Chivian and Aaron Bernstein along with more than 100 leading scientists who contributed to writing and reviewing the book Sustaining Life presents a comprehensive and sobering view of how human medicines biomedical research the emergence and spread of infectious diseases and the production of food both on land and in the oceans depend on biodiversity The book's ten chapters cover everything from what biodiversity is and how human activity threatens it to how we as individuals can help conserve the world's richly varied biota Seven groups of organisms some of the most endangered on Earth provide detailed case studies to illustrate the contributions they have already made to human medicine and those they are expected to make if we do not drive them to extinction Drawing on the latest research but written in language a general reader can easily follow Sustaining Life argues that we can no longer see ourselves as separate from the natural world nor assume that we will not be harmed by its alteration Our health as the authors so vividly show depends on the health of other species and on the vitality of natural ecosystems With a foreword by E O Wilson and a prologue by Kofi

Annan and more than 200 poignant color illustrations *Sustaining Life* contributes essential perspective to the debate over how humans affect biodiversity and a compelling demonstration of the human health costs It is the winner of the Gerald L Young Book Award in Human Ecology Best Sci Tech Books of 2008 for Biology by Gregg Sapp of Library Journal     **Jax Fish House Book of Fish** Dave Query,Jill Zeh Richter,2002 Now fans of JAX can cook more than seventy of their most requested receipts adapted for home cooking     *Feeding the Future* Andrew Heintzman,Evan Solomon,2006 Outlines practical solutions to global food supply problems in the twenty first century suggesting relevant ways to address key issues related to food safety conservation global trade and more Original     **Marine Mammal Research** John Elliott Reynolds,2005-11-18 Marine mammal conservation presents a number of challenges for scientists This work presents an argument about how science if conducted properly can provide insights needed to minimise crisis management and implement more anticipatory action     **Swordfish** Richard Ellis,2013-04-15 A perfect fish in the evolutionary sense the broadbill swordfish derives its name from its distinctive bill much longer and wider than the bill of any other billfish which is flattened into the sword we all recognize And though the majesty and allure of this warrior fish has commanded much attention from adventurous sportfishers eager to land one to ravenous diners eager to taste one no one has yet been bold enough to truly take on the swordfish as a biographer Who better to do so than Richard Ellis a master of marine natural history *Swordfish A Biography of the Ocean Gladiator* is his masterly ode to this mighty fighter The swordfish whose scientific name means gladiator can take on anyone and anything including ships boats sharks submarines divers and whales and in this book Ellis regales us with tales of its vitality and strength Ellis makes it easy to understand why it has inspired so many to take up the challenge of epic sportfishing battles as well as the longline fishing expeditions recounted by writers such as Linda Greenlaw and Sebastian Junger Ellis shows us how the bill is used for defense contrary to popular opinion it is not used to spear prey but to slash and debilitate like a skillful saber fencer *Swordfish* he explains hunt at the surface as well as thousands of feet down in the depths and like tuna and some sharks have an unusual circulatory system that gives them a significant advantage over their prey no matter the depth in which they hunt Their adaptability enables them to swim in waters the world over tropical temperate and sometimes cold and the largest ever caught on rod and reel was landed in Chile in 1953 weighing in at 1 182 pounds and this heavyweight fighter like all the largest swordfish was a female Ellis s detailed and fascinating fact filled biography takes us behind the swordfish s huge cornflower blue eyes and provides a complete history of the fish from prehistoric fossils to its present day endangerment as our taste for swordfish has had a drastic effect on their population the world over Throughout the book is graced with many of Ellis s own drawings and paintings which capture the allure of the fish and bring its splendor and power to life for armchair fishermen and landlocked readers alike     **From the Earth to the Table** John Ash,Sid Goldstein,2007-03-08 This beloved cookbook is now available in a handsome paperback edition Completely revised and updated with 45 all new recipes each delicious dish reflects acclaimed chef John Ash s commitment
