Seaweed Gatherers:

The Seaweed Gatherers Jessica Blair, 2010 *The Kelp-gatherers* John Townsend Trowbridge, 1890 Seaweed Kaori O'Connor, 2017-05-15 Some might be put off by its texture aroma or murky origins but the fact of the matter is seaweed is one of the oldest human foods on earth And prepared the right way it can be absolutely delicious Long a staple in Asian cuisines seaweed has emerged on the global market as one of our new superfoods a natural product that is highly sustainable and extraordinarily nutritious Illuminating seaweed s many benefits through a fascinating history of its culinary past Kaori O Connor tells a unique story that stretches along coastlines the world over O Connor introduces readers to some of the 10 000 kinds of seaweed that grow on our planet demonstrating how seaweed is both one of the world s last great renewable resources and a culinary treasure ready for discovery Many of us think of seaweed as a forage food for the poor but various kinds were often highly prized in ancient times as a delicacy reserved for kings and princes And they ought to be prized there are seaweeds that are twice as nutritious as kale and taste just like bacon superfood indeed Offering recipes that range from the traditional to the contemporary taking us from Asia to Europe to the Americas O Connor shows that sushi is just the beginning of the possibilities for this unique plant *The Chinese in America* Susie Lan Cassel, 2002 This new collection of essays demonstrates how a politics of polarity have defined the 150 year experience of Chinese immigration in America Chinese Americans have been courted as model workers by American business but also continue to be perceived as perpetual foreigners The contributors offer engrossing accounts of the lives of immigrants their tenacity their diverse lifeways from the arrival of the first Chinese gold miners in 1849 into the present day The 21st century begins as a uniquely Pacific Century in the Americas with an increasingly large presence of Asians in the United States Canada and Mexico The book will be a valuable resource on the Asian immigrant experience for researchers and students in Chinese American studies Asian American history immigration studies and American history **We Gather Together** Charles C. Eldredge, 2022-01-18 The mutual history of art agriculture and American identity as told through the theme of the harvest The harvest has traditionally been a productive season both on American farms and in its artists studios Before the early nineteenth century the ideal of the Jeffersonian yeoman singly cultivating a subsistence plot for family use dominated the American imagination after World War II the advent of big agribusiness proved less immediately attractive for artists In *We Gather Together* Charles C Eldredge examines the period in between when many Americans were farmers and much of America was farmland Organized in a series of case studies each devoted to a single crop *We Gather Together* initially focuses on familiar commodity crops such as corn wheat and potatoes and then expands to other yields by Native American harvesters and California floriculturists as well as winter ice cutters and coastal seaweed gatherers This novel history of agriculture and art traces parallel developments on land and canvas highlighting breakthroughs in each field Artists such as Winslow Homer Doris Lee and Georgia O Keeffe are joined by innovators in agriculture whether mechanical inventors such as Eli Whitney John Deere

and Cyrus McCormick or genetic hybridizers such as Luther Burbank W Atlee Burpee and Theodosia Shepherd Surveying an astonishing amount of material and a wide range of paintings prints and other artworks from the nineteenth century to the mid twentieth century We Gather Together gorgeously demonstrates how the use of agricultural metaphors permeated American visual culture The harvest we see here came to signify and dominate politics poetry and popular culture ultimately representing a primary facet of American identity and nationhood

Small-Scale Fisheries in Europe: Status, Resilience and Governance José J. Pascual-Fernández,Cristina Pita,Maarten Bavinck,2020-04-28 This book offers a comprehensive account of the status and dynamics of people participating in the small scale fisheries SSF of Europe It covers the situation of SSF in 25 coastal countries thereby providing a portrait of almost every coastal country on the continent and analyzing the recent evolution of the sector Small scale fisheries are argued to be extremely important in Europe as they provide employment and welfare while increasing food sovereignty and maintaining communities in coastal areas The recent worldwide focus on SSF derives from their environmental sustainability which distinguishes many of their activities from those of large scale fisheries This book analyses the diversity of SSF and shows how fishing communities have sometimes developed successful governing models demonstrating social and economic resilience While the book emphasizes the strengths of SSF and the synergies that occur with other marine sectors it also presents cases of failure in which collective action and policy have actually contributed to a weakening of the sector In this context the book shows how governmental policies toward SSF vary considerably from country to country in a way that is not entirely consistent with European policies **Chambers's Journal** ,1916
