Sébastien CHÂTEILLON,1613 **Sebastian Castello, 1515-1563** Hans R. Guggisberg,Bruce Gordon,2017-07-05

Sebastian Castello linguist humanist and religious reformer is one of the most remarkable figures of the Reformation Attracted by Calvin s reforms Castellio moved to Geneva in the 1540s where he wrote his influential work on educational reform Ironically it was Castellio s work as a scholar in Geneva which was to lead to his falling out with Calvin and ultimately his forced departure from Geneva and his resettlement in Basle Exiled from Geneva Castellio soon attracted a circle of like minded reformers who opposed the intolerant attitude of Calvin exemplified by the execution of the heretical Michael Servetus It is Castellio s residence in Basle where he developed his liberal humanist approach to religious toleration in opposition to Calvin s dogmatic othodoxy which forms the core of this study It explores what toleration meant and how both sides argued their case Much attention is paid to Castellio s most important work On Heretics in which he argues against the execution of those who err in the faith By telling the fascinating tale of Castellio s life this work illuminates the furious debate which he unleashed and how it marked a crucial stage in the development of Protestant thought **Catalogue of the Wren**

Theology John Leslie (bookseller.),1848 **Scriptural Authority and Biblical Criticism in the Dutch Golden Age** Henk

Nellen,2017-10-06 Scriptural Authority and Biblical Criticism in the Dutch Golden Age explores the hypothesis that in the long seventeenth century humanist inspired biblical criticism contributed significantly to the decline of ecclesiastical truth claims Historiography pictures this era as one in which the dominant position of religion and church began to show signs of erosion under the influence of vehement debates on the sacrosanct status of the Bible Until quite recently this gradual but decisive shift has been attributed to the rise of the sciences in particular astronomy and physics This authoritative volume looks at biblical criticism as an innovative force and as the outcome of developments in philology that had started much

earlier than scientific experimentalism or the New Philosophy Scholars began to situate the Bible in its historical context The contributors show that even in the hands of pious orthodox scholars philological research not only failed to solve all the textual problems that had surfaced but even brought to light countless new incongruities This supplied those who sought to play down the authority of the Bible with ammunition The conviction that God's Word had been preserved as a pure and sacred source gave way to an awareness of a complicated transmission in a plurality of divergent ambiguous historically determined and heavily corrupted texts This shift took place primarily in the Dutch Protestant world of the seventeenth century
