Security Challenges In The Mediterranean Region:

Security Challenges in the Mediterranean Region Roberto Aliboni, Tim Niblock, 1996 This book sets out to identify the challenges to western security emerging from the Mediterranean area Troubled Waters James Black, 2017 New challenges are reshaping the international order requiring government leaders to consider new strategies and tools that integrate diplomatic economic and military instruments of power Nowhere is this more evident than around the Mediterranean Sea which has progressively returned as a region of global strategic interest where political tensions armed conflict economic and social instability and transnational criminal networks demand solutions that cross traditional institutional boundaries of domestic and international policy making The geo political situation on the southern coast of the Mediterranean has radically changed and new challenges have emerged for the European Union United States and beyond Long lasting issues such as the Israeli Palestinian conflict or the tensions between Turkey and Greece continue to be present but new destabilising factors have emerged in the region following the Arab spring of 2011 The US EU and NATO continue to maintain a significant military presence in and around the Mediterranean but military capabilities must be nested within a whole of government international approach The challenges in this region demand unprecedented levels of civil military and intergovernmental cooperation In this context RAND established the Mediterranean Foresight Forum MFF in 2015 to support the development of comprehensive integrated civil military responses to complex regional challenges through an innovative combination of research scenario based sensitivity analysis and strategic level exercises Publisher s web site

Calleya, 2012 This book

The Greek-Turkish Relationship and NATO Dr Fotios Moustakis, 2004-11-23 This publication shows that the Eastern Mediterranean having been transformed from a region of secondary importance during the Cold War to one of greater importance for the western interests in the post Cold War era is in a state of flux Despite sporadic periods of rapprochement tensions between Greece and Turkey still exist Therefore one must question the grounds behind the lack of normal relations that exist between these two NATO members and its effects on the NATO organisation as a whole Hence this volume has two purposes first to examine Greek and Turkish foreign security and defence policies during and after the post Cold War period and second to investigate why these policies have been formulated

Euro-Mediterranean Security: A Search for Partnership Sven Biscop, 2017-11-22 This title was first published in 2003 This work provides a clearer understanding of the EU s approach towards security in the Mediterranean After examining the EU s interests and the potential threats to security in the region it analyzes EU security policy towards the region as a whole through the Euro Mediterranean Partnership and towards all disputes and conflicts in the area It recommends opening up the European Security and Defence Policy to Mediterranean participation in order to establish a deep and equitable security partnership between both shores The book argues that this way the EU could implement its innovative comprehensive and co operative approach to security Rather than focusing on the military aspect alone this approach takes into account all dimensions of security political socio economic cultural and ecological and is based on partnership rather than confrontation It therefore contrasts quite sharply with the policies advocated in the US National Security Strategy

Strengthening Maritime Security Through Cooperation I. Chapsos, C. Kitchen, 2015-07-30 Seventy

percent of our planet is covered by water and even in today's world of instant communication the global community is still heavily reliant on sea based transport. The maritime domain has always been one of NATO's key strengths but concerns about maritime security have taken on renewed importance in recent years and NATO has been forced to re-examine some of its fundamental assumptions about the post Cold War security environment. This book shares some of the research debates and findings from a NATO Advanced Research Workshop ARW Building Trust to Enhance Maritime Security held in Geneva Switzerland in November 2014. The chapters in the book deal extensively with lessons learned by NATO from a wide range of policies operations and situations. This maritime experience has been amassed from the Atlantic and Mediterranean to the Baltic and the Black Sea and even into the Indian Ocean as well as from the four decades spent defending NATO allies on the high seas during the Cold War. The single most profound lesson learned over the years has concerned the importance of efficient coordination. Structures and mechanisms have been created not least in recent counter piracy operations which enable a vast array of actors to work together in an efficient way and which could prove invaluable in future efforts to counter terrorism and aggression worldwide. The safety of the maritime domain is essential to the freedom and security of all nations and this book will be of interest to all those whose work involves maintaining that freedom and security.

The security dimensions of EU enlargement David Brown, Alistair Shepherd, 2021-06-15. The changing nature of security the enlargement of European institutions and the evolving functions of the EU have been key developments in post Cold War Europe. This book blends these three crucial developments in a sophisticated and illuminating manner. It assesses the impact of EU enlargement on both pre-existing security arrangements and key relationships with the EU's new partners and neighbours. It also investigates both hard and soft and internal and external security issues ranging from military intervention to terrorism and from organised crime to human rights. From this it concludes that enlargement has both positive and negative implications for European security. Completing the analysis this study examines the evolving security relationships with key states regions and international organisations in the EU's neighbourhood. The examination of relations with Turkey Russia Ukraine the Greater Middle East and the Balkans provides a sense of the direction in which European security politics is moving.
