Security The Middle East The Problem:

The Security of the Middle East Brookings Institution (États-Unis),1950 **The Security of the Middle East** Brookings Institution. International Studies Group,1950 **The Middle East and American National Security** Donald M. Snow,2021-07-30 As a new administration reshapes American security policy a leading scholar of U S foreign relations and national security reviews the most critical problems facing the Middle East and the United States policy and actions to address them **Middle East Problems** United States. Congress. Senate. Committee on Foreign Relations. Subcommittee on Near Eastern and South Asian Affairs,1977 *Middle East Strategic Problems* United States. Congress. Senate. Committee on Foreign Relations. Subcommittee on Near Eastern and South Asian Affairs,1977 *Regional Security in the Middle East* Pinar Bilgin,2004-09-09 This is an accessible yet critical analysis of regional security in the Middle East Using a non realist approach Bilgin provides a comprehensive study of the past present and future of security in the region She also considers the question of identity formation explaining how and why various regional representations came into being and explor **The Middle East, Oil, and the U.S. National Security Policy** Donald M. Snow,2016-03-17 Three interrelated subject areas are at the heart of the current foreign and national security dilemma One is the Middle East which has been the epicenter of most U S policy activity for over a third of a century The second is energy policy particularly as it is affected by the development and exploitation of shale oil and gas reserves in the United States This is linked to the Middle East because it has been American dependence on Middle East petroleum that has created the interest the U S has in this region The third area is military manpower policy and two simultaneous wars in the new century have raised questions about the all volunteer force policy in place since 1972 It is increasingly evident that foreign and defense policy are strained and in need of fresh conceptualization The three areas identified are the most obvious examples of policy dysfunction The key area is the Middle East region As long as the United States remains heavily committed to this part of the world especially with military force and essentially because of its energy needs there will be strains on manpower resources that could force a reexamination of the all volunteer concept At the same time the reduction of U S dependence on Middle Eastern oil loosens the bonds that seem to impel American activism in the region The result could be true opportunities for a less confrontational adversary driven foreign and defense posture *Regional Security in the Middle East* , *Security In The Middle East* Mark Bruzonsky,Shaun Murphy,Samuel F. Wells,2020-01-16 This book examines the deep seated problems in the Middle East and their impact on the United States and its allies Exploring the disruptive effects of the double edged sword of nationalism and modernization the contributors discuss the full range of Western security interests in the region Case studies of key countries emphasize the prospect for peaceful political economic and cultural change The authors analyze the ramifications of the Arab Israeli conflict and the threats posed by Soviet penetration Arguing that confusion and contradiction mark U S policy in the Middle East the book concludes that U S strategists should focus not on curing the region s internal problems but on coping

with them without sacrificing long term goals for quick fixes

Contentious Issues of Security and the Future of

Turkey Nursin Atesoglu Güney, 2018-01-18 Security is a major contemporary concern with foreign and security policies topping the agenda of many governments At the centre of Western security concerns is Turkey due to its geographical proximity to converging major fault lines such as the Caucasus the Mediterranean and the Middle East As trans Atlantic debates evolve around these major fault lines future relations will have a direct impact on the re orientation of Turkish foreign and security policies This comprehensive study focuses on the future of Turkish foreign and security policies within the emerging strategies of the two Wests Discussing the challenges Turkey has been facing since the turn of the century it examines Turkish foreign policy in the context of trans Atlantic relations as a global actor and with respect to conflict new power relations energy security Greece Cyprus and the environment
