Salunkhe, Narayana R. Bhat, Babasaheb B. Desai, 2012-12-06 The floricultural industry has been undergoing an unprecedented revolution in terms of the type of commodity produced and the production and marketing technology in both developed and developing countries As a result of this revolution as we know today there is a flower for every purpose and for every person in the world as is evident from the slogan of the Society for American Florists say it with flowers In recent years the Latin American and European countries have become sizeable competitors for the North American fresh flower markets and the trend continues growing Like any other crop production floricultural production can be divided into three basic factors 1 production costs 2 quality 3 transportation costs All these must be optimum for this area or industry to be safe from competition With increasing consumer awareness and the current recession the pressure from the artificial floral products industry and also of neighbouring countries on the American fresh flower industry and continued competition even amongst the growers whole salers and retailers quality in floricultural industry is becoming increasingly important to all those concerned with handling these products The visual quality aspects of the product are the sole determiner of consumer acceptability in this industry and unlike fruits and vegetables flowers cannot be marketed by just discarding the damaged portion Introduction to Floriculture Roy A. Larson, 2013-10-22 Introduction to Floriculture provides an introduction to commercial floriculture containing information on major and minor greenhouse and field crops and includes potted plants and cut flowers The book is organized into two parts Part I on cut flowers discusses the history and propagation of chrysanthemums carnations roses snapdragons orchids gladiolus and minor cut crops Part II on potted plants includes bulbous plants azaleas pot mums African violets poinsettias and Easter lilies This book was written for students who have been exposed to a sufficient number of biology courses to acquaint them with many of the terms and plant processes discussed in the text It would be beneficial if they have also taken a course in greenhouse management or are taking one concurrently with their floriculture course The

book can be used by commercial growers who constantly seek more information to enable them to realize maximum gain from the investments of labor time and capital they have placed in this challenging field **Handbook of Flowering**

Abraham H. Halevy, 2019-07-23 These volumes are an exhaustive source of information on the control and regulation of flowering They present data on the factors controlling flower induction and how they may be affected by climate and chemical treatments For each plant specific information is provided on all aspects of flower development including sex expression requirements for flowering initiation and development photoperiod light density vernalization and other temperature effects and interactions Individual species are described from the standpoint of juvenility and maturation morphology induction and morphogenesis to anthesis All information is presented alphabetically for easy reference
