Seeking Spirit Vision Essays On Developing Imagination:

Seeking Spirit Vision Dennis Klocek, 1998 This meditative book by Dennis Klocek provides a new approach to developing the capacities of our souls Based in anthroposophy Klocek's thinking goes beyond what already exists to create a truly unique contribution that can heal the reader in profound ways Working with the book as Robert Sardello suggests in the foreword will lead to capacities of sustained concentration on and receptivity to the spiritual worlds CONTENTS Foreword by Robert Sardello PhD Imagination Creativity or Innovation Hypothesis Apocalypse Apotheosis The Abstract Predicament The Transformation of Sympathy The Black Madonna and the Mysteries of Dionysos From Image to Vision The Place of the North The World of Imagination From Dowsing to Divining The Development of the Heart Soul A Modern Path Imagination The Sacred Door The Great Tree Preparation for Meditation Contemplation The New Yoga The Alchemy of Goethe's Fairy Tale Seeing the Double *Acts of the Heart* Robert Sardello, 2011-10 Reading through this volume is to be taken on a journey It is to walk with Robert Sardello on his journey as he pushes forward toward new realities In a sense each step is not so easy The thinking often appears dense the ideas often new and therefore disconcerting But each individual piece as the whole is bathed in an aura in a way we may say it is bathed in soul in love in generosity and friendship Attending to these we find the ideas and the new possibilities begin to make sense We are moved to change our lives Christopher Bamford from his introduction In these introductions Robert Sardello introduces us to many people we may not otherwise have met and introduces us to many ways of being and thinking which we didn't know before The range of those we meet in these pages is staggering At the same time there is a sweet harmony and ever unfolding deepening of a single theme Miraculously it pervades and shapes the entire sequence of those whom he presents even though he often wrote in response to a request and not initially on his own initiative Robert writes of matters with which he has made a deep friendship and out of that friendship he has received and participated in a communion of ideas He is able to do this because he has entered the aspiration of those he is introducing at the deepest level making their insights his own and deepening them in his own way An introduction conveys a particular soul capacity For Robert Sardello soul capacities are of the essence of what he calls Spiritual Psychology Together with the worlds and beings to which they correspond it is such capacities that make us human and enable us to fulfill our human tasks Reading these introductions is an astonishing experience Within their short individual compasses they allow us to participate in Robert's own journey to catch as it were the bird in flight and fly with it That is they map his journey at least that portion of it that began to unfold as his destiny began to crystallize Robert Sardello's insights navigate many hazardous abstractions from the so called New Age through the perennial philosophies With Sophia as his muse the current from the future calls him carrying its many imaginations as energy the always immediate now and the truly new Across these authors writings his visionary perspective deepens in dialogue with the different works as authored beings For writings possess their own spirit or how otherwise do they engender a unique spirit when reborn within
