## Lord Nuffield:

Lord Nuffield Peter Hull,2008-03-04 It is largely as a result of the career of William Richard Morris Viscount Nuffield that the university city of Oxford became one of Britain's foremost industrial cities William Morris left school at fourteen and because he had shown an aptitude for taking things to pieces and reassembling them he was apprenticed to a bicycle repairer Within nine months he set up his own cycle business and from then on his rise to become one of Britain's leading industrialists Though not a great engineer he was an astute business man and expert mechanic he saw the need for a small economical car that was of high quality yet could be produced in large numbers His special talent enabled him to obtain the right parts and to assemble them and so the first Morris Oxford car appeared in 1913 Production boomed in the 1920s and Morris became a millionaire and was made a peer but he was generous with money and gave away over GBP30 000 000 in his lifetime much of it to hospitals and other medical causes in which he had a deep interest He also financed the establishment of Nuffield College Oxford which bears his title His name ceased to appear on motorcars after 1983 when Morris Motors was part of British Leyland but the MG Morris Garages badge has survived Our Mornings May Never be Joan MacDonald,2002 My First 75 Years of Medicine A. M. Cooke,1994 **MG Century** David Knowles,2024-03-12 Celebrate and explore 100 years of MG cars with this impressive volume featuring expert commentary historical images period ads and contemporary photography For many car enthusiasts MG is synonymous with sports car It is often credited with igniting a passion for European cars in postwar America at a time when roads were otherwise filled with the lumbering output of Detroit In MG's native England the company's cars filled roles from family transport to competition driving MG as we think of it today began in the 1920s but its roots go back even further with a young William Morris Initially working in the booming bicycle trade he eventually branched into motorcycle and car repair with the fledgling Morris Garage hence MG in 1907 By the mid 1920s the successful Morris Garages was in a position to begin manufacture of its own cars under the MG name MG grew significantly in the years before World War II building and racing its classic Midgets and Magnettes World War II provided challenging times for the company as it did for the UK and much of the world In the postwar period a focus on sales outside England and particularly in the United States both defined MG's product line and ensured its success Legendary cars followed including MG TC TD and TF followed by thoroughly modern MGA MGB MGB GT and Midget Magnettes and the 1100 offered options for those wanting sedans and more practical cars MG ownership moved through a number of UK companies in the postwar period as well as ownership by BMW and today's SAIC a Chinese based company through which it operates as MG Motor Highlights along the way included the MGB GT V8 MG Metro Group B rally car and MGF Based on its latest state of the art EV platform MG will soon launch an all new roadster coming full circle over its century in business Authored by marque expert David Knowles The MG Century 100 Years of Safety Fast is a fitting celebration of one of the automotive world's oldest and most beloved brands and a must have for every car enthusiast
