L. Stine, 1991

Drift: Space for Evermore Subhas, 2021-09-15 IMAGINATION DRIFT SPACE FOR EVERMORE is the conclusion of the trilogy The protagonists are spirited energy forms and their stories merge the human and animal worlds with all its rationalities and irrationalities its realities and fantasies set in galactic space with references to life forms on the planet BOOK ONE A PRINCE FOR THREE DAYS is a satiric story that focuses on King Zalador and his quest to secure a place on the Supreme Council However he must fulfil the requirements of a wish to achieve his objective It takes three tries and three days to achieve success The conclusion ends in the death of his wish partner Malcolm Zalador s appeal to the Council that it was not his fault that Malcolm was killed is rejected BOOK TWO THE CHALLENGE Zalador is given a second chance but he is asked to assist a young lion the Major in finding a wish partner to complete the requirements for entrance into the Supreme Council The difficulty is that there are two lions competing for a single position on the Council and this becomes THE CHALLENGE Zalador completes the requirements of the wish and is accepted as the new Supreme Councillor The Major is disqualified on a technicality BOOK THREE SPACE FOR EVERMORE details the Major s despair and Zalador s concern in assisting the Major achieve his position and ascendancy to become the Chief of the Galactic Assembly and the Protector of All Lion Spirits The Major requests the transformation into a human people to complete the wish and he is drawn into a bewildering experience To his chagrin Zalador has to pretend that he is not a lion during this encounter The two lions

after multiple meetings are accepted into the Supreme Council Major gains control of the Council renames it to be called the Galactic Assembly The Major and Zalador are successful in making changes to the Assembly but it is the Open Door Policy of allowing all lions into the Galactic Assembly that undermines their position Knowledge, Space, Economy John Bryson, Peter Daniels, Nick Henry, Jane Pollard, 2002-01-04 We are now living through a period of knowledge capitalism in which as Castells put it the action of knowledge upon knowledge is the main source of productivity In the face of such transformation the economic social and institutional contours of contemporary capitalism are being reshaped At the heart of this world are an emergent set of economies regions institutions and peoples central of the flows and translations of knowledge This book provides an interdisciplinary review of the triad of knowledge space economy on entering the twenty first century Drawing on a variety of disciplinary backgrounds the first part of the book comprises a set of statements by leading authors on the role of knowledge in capitalism Thereafter the remaining two parts of the book explore the landscape of knowledge capitalism through a series of analyses of knowledge in action within a range of economic political and cultural contexts Bringing together a set of authors from across the social sciences this book provides both a major theoretical statement on understanding the economic world and an empirical exemplification of the power of knowledge in shaping the spaces and places of today s society Commercial Space Launch Industry United States. Congress. Senate. Committee on Commerce, Science, and Transportation. Subcommittee on Science, Technology, and Space, 2001 **Explorations in Information Space** Max H. Boisot, Ian C. MacMillan, Kyeong Seok Han, 2007-12-27 With the rise of the knowledge economy the knowledge content of goods and services is going up just as their material content is declining Economic value is increasingly seen to reside in intangible assets rather than material This book explores the framework of I Space a theoretical approach to the production and distribution of knowledge Deep Space Kolchak Enterprise Tremors Terminator Potter Jim Fenn, 2015-02-04 Being parodies of Deep Space 9 Kolchak the Night Stalker Star Trek Enterprise Tremors The Terminator and Harry Potter Enjoy the zany adventures of Cisco Kid and Nurse Killer of the Deep Spice Mine Curl Ketchup and assorted monsters Captain Jon Boy Acher and his buddy Topol Oily Basset and Burp Gummer fight the Grabbers All B Bock the Term a Paper Airy Paw Uh Wrong Weasel and many more Space Is Power John Hickman, 2016-02-29 From Russia s annexation of Crimea to China s nine dash line in the South China Sea it is clear that territory is as important in international politics now as it has ever been Yet too few contemporary foreign policy makers journalists and scholars are able to speak coherently about territorial issues Space Is Power The Seven Rules of Territory challenges the intellectual conceits that human territoriality is merely a social construct that territorial sovereignty is atavistic that territorial annexation is always irrational and that territorial disputes are provoked by foreign policy makers who seek to divert public attention from more important issues Space Is Power argues that territoriality is too basic to human nature to be denied and territorial sovereignty is too important to the survival of the modern state to be ignored The truths

about territory are captured in seven rules some of which are intuitive while others contradict conventional wisdom Rather than anticipating the transcendence of the territorial states this book argues that the unmistakable direction of international politics is toward encompassing ever more physical space as the territory of states

Economies of Signs and Space Scott Lash, John Urry, 1993-12-09 This is a novel account of social change that supplants conventional understandings of society and presents a sociology that takes as its main unit of analysis flows through time and across space Developing a comparative analysis of the UK and US the new Germany and Japan Lash and Urry show how restructuration after organized capitalism has its basis in increasingly reflexive social actors and organizations The consequence is not only the much vaunted postmodern condition but also a growth in reflexivity In exploring this new reflexive world the authors argue that today's economies are increasingly ones of signs information symbols images desire and of space where both signs and social subjects refugees financiers tourists and financiers are mobile over ever greater distances at ever greater speeds
