Invisible Residents Ivan T. Sanderson, 2005 This book is a groundbreaking contribution to the study of the UFO enigma, originally published over 30 years ago. In this book, Sanderson, a renowned zoologist with a keen interest in the paranormal, puts forward the curious theory that a "OINTS" (Other Intelligences) live under the Earth's oceans. This underwater parallel civilization may be twice as old as *Homo sapiens*, he proposes, and may have developed what we call space flight. Sanderson postulates that the OINTS are behind many UFO sightings as well as the mysterious disappearances of aircraft and ships in the Bermuda Triangle. What better place to have an impenetrable base than deep within the oceans of the planet? Yet if UFOs or at least some of them are coming from beneath our oceans or lakes, does it necessarily mean that there is another civilization besides our own that is responsible? In fact, could it be that since WWII a number of underwater UFO bases have been constructed by the very human governments of our planet? Whatever their source, Sanderson offers here an exhaustive study of USOs (Unidentified Submarine Objects) observed in nearly every part of the world. He presents many well-documented and exciting case studies of these unusual sightings.

The Manila-Acapulco Galleons : the Treasure Ships of the Pacific Shirley Fish, 2011-05-18 During the sixteenth to the nineteenth centuries, the transpacific treasure galleons sailed annually from Manila to Acapulco. In Manila, the vessel was loaded with the scented spices of the East, luxurious silks from China, exquisite hand-crafted lacquerware from Japan, and a multitude of Oriental goods that the

Spaniards of New Spain longed to own The returning galleon from Acapulco to Manila carried as much as 2 5 million silver pesos in payment of the goods sent to the New Spain in the previous year as well as a yearly silver subsidy of 250 000 reales for the maintenance of the colonial government in the Philippines But while the galleons mainly sailed alone and unaccompanied from Manila to Acapulco and vice versa they were vulnerable to a host of calamities and misfortunes A fire on board the vessel or a terrifying storm could end the voyage and the lives of every one on the ship even before the galleon was able to reach land Additionally the commanders of the galleons were always threatened by lurking pirates and privateers who preyed on the vessels and coveted the treasures they carried The book describes in detail how the galleons were attacked at sea and how they fought against enemy vessels as well as how many of the ships sank or were shipwrecked over the years It also covers their management construction manning weaponry navigation daily life on the ship provisions cargoes and voyages The book contains an annotated list of the galleons sailing between the Philippines and Mexico from 1565 to 1815 This informative book is the first of its kind to cover such an expansive history of the Pacific galleons which up to this point had remained largely untold
