Inventing the Thrifty Gene Travis Hay, 2021-09-10 Though First Nations communities in Canada have historically lacked access to clean water affordable food and equitable health care they have never lacked access to well funded scientists seeking to study them *Inventing the Thrifty Gene* examines the relationship between science and settler colonialism through the lens of Aboriginal diabetes and the thrifty gene hypothesis which posits that Indigenous peoples are genetically predisposed to type 2 diabetes and obesity due to their alleged hunter gatherer genes Hay's study begins with Charles Darwin's travels and his observations on the Indigenous peoples he encountered setting the imperial context for Canadian histories of medicine and colonialism It continues in the mid twentieth century with a look at nutritional experimentation during the long career of Percy Moore the medical director of Indian Affairs 1946-1965 Hay then turns to James Neel's invention of the thrifty gene hypothesis in 1962 and Robert Hegele's reinvention and application of the hypothesis to Sandy Lake First Nation in northern Ontario in the 1990s Finally Hay demonstrates the way in which settler colonial science was responded to and resisted by Indigenous leadership in Sandy Lake First Nation who used monies from the thrifty gene study to fund wellness programs in their community *Inventing the Thrifty Gene* exposes the exploitative nature of settler science with Indigenous subjects the flawed scientific theories stemming from faulty assumptions of Indigenous decline and disappearance as well as the severe inequities in Canadian health care that persist even today

Assessing Social Science Research Ethics and Integrity Harry Perlstadt, 2024-01-19 This book discusses the development of key issues in research ethics relevant for clinical sociologists concerning client rights to confidentiality privacy and informed consent It describes the US human research protection system used by clinical and applied sociologists through a history of research ethics including the landmark Belmont Report and the creation of the regulatory structure of Institutional Review Boards IRBs in the United States It also discusses ethical research systems in other nations like Canada the UK Australia and New Zealand The book provides a comprehensive account of controversial studies in the US including Milgram's Obedience to Authority Zimbardo's Stanford Prison Experiment and the US Public Health Service and the Tuskegee Syphilis Study and analyzes how ethical concerns in these studies were or were not resolved This book covers a topic of core interest to clinical and applied sociologists and other social science practitioners who do research as well as students and teachers in research ethics courses in anthropology psychology political science sociology and philosophy thereby broadening an awareness of clinical sociology

Journal of Anthropological Research, 1973 Persistence of Good Living James R. Welch, 2023-05-01 Cultural understandings of well being often differ from scientific measures such as health happiness and affluence For the Indigenous A'uw Xavante people in the tropical savannas of Brazil special forms of intimate and antagonistic social relations camaraderie suffering and engagement with the environment are fundamental aspects of community wellness Anthropologist James R Welch transparently presents ethnographic insights from his long

term fieldwork in two A'uw communities. He addresses how distinctive constructions of age organization contribute to social well-being in an era of major ecological, economic, and sociocultural change. Welch shows how A'uw perspectives on the human life cycle help define ethnic identity, promote cultural resilience, and encourage the betterment of youth. They provide frameworks that people may creatively mobilize to responsibly and respectfully engage with others at different stages of life. They also motivate people to access and manage landscape resources essential to the social construction of good living. Through careful analysis, Welch shows how contemporary traditional peoples can foster enthusiasm for service to family and community amid dominant cultures that prioritize individual well-being. This book is an essential resource for students and scholars interested in sociocultural anthropology, Indigenous cultures, health and culture, and human ecology.
