The British National Bibliography Arthur James Wells,2005 **Magic, Witchcraft, and Ghosts in the Greek and**

Roman Worlds Daniel Ogden, 2002 In a culture where the supernatural possessed an immediacy now strange to us magic was of great importance both in the literary mythic tradition and in ritual practice In this book Daniel Ogden presents 300 texts in new translations along with brief but explicit commentaries Authors include the well known Sophocles Herodotus Plato Aristotle Virgil Pliny and the less familiar and extend across the whole of Graeco Roman antiquity *Ancient Greek Love Magic* Christopher A. FARAONE, Christopher A Faraone, 2009-06-30 The ancient Greeks commonly resorted to magic spells to attract and keep lovers as numerous allusions in Greek literature and recently discovered voodoo dolls magical papyri gemstones and curse tablets attest Surveying and analyzing these various texts and artifacts Christopher Faraone reveals that gender is the crucial factor in understanding love spells There are he argues two distinct types of love magic the curselike charms used primarily by men to torture unwilling women with fiery and maddening passion until they surrender sexually and the binding spells and debilitating potions generally used by women to sedate angry or philandering husbands and make them more affectionate Faraone s lucid analysis of these spells also yields a number of insights about the construction of gender in antiquity for example the femininity of socially inferior males and the maleness of autonomous prostitutes Most significantly his findings challenge the widespread modern view that all Greek men considered women to be naturally lascivious Faraone reveals the existence of an alternate male understanding of the female as naturally moderate and chaste who uses love magic to pacify and control the naturally angry and passionate male This fascinating study of magical practices and their implications for perceptions of male and female sexuality offers an unusual look at ancient Greek religion and society *Ancient Charms of the Eastern Isles* Pasquale De Marco, 2025-07-16 Journey into the heart of East Anglia s magical heritage and uncover the secrets of its ancient practices in this captivating book East Anglia a region steeped in history and mystery has long been a fertile ground for magical beliefs and practices From the rolling hills of Norfolk to the windswept coast of Suffolk the landscape is dotted with sacred sites stone circles and ancient burial mounds all whispering tales of a rich and vibrant magical tradition In this comprehensive exploration of East Anglian magic we delve into the realm of spells divination and healing uncovering the secrets of ancient rituals and the power of natural elements We meet the mythical creatures that inhabit East Anglia s folklore from mischievous fairies to wise dragons and discover the sacred sites that hold the keys to unlocking the region s magical energies Whether you are a seasoned practitioner of magic or simply curious about the hidden world that lies just beyond our everyday reality this book will provide you with a deeper understanding of East Anglia s magical heritage and its relevance in contemporary society Discover how to incorporate the wisdom of East Anglian magic into your own spiritual journey and harness its power for personal growth and transformation With its rich storytelling and insightful analysis this book is an essential guide for anyone interested in the magical traditions of East Anglia Through its pages you will gain a deeper appreciation for the region s unique cultural heritage and the enduring power of its ancient magic So embark on this magical journey with us and uncover the secrets of East Anglia s
