

Dear lovely,

I know we're not together or anything but I just felt like I have to admit it. It's really stupid, it is. And I know ^{but} there is simply no  way to change my feelings. I don't know if you will ignore this or anything, but I fell in love with you. Simply your laugh, smile, eyes, the way you talk about something you aspire, the kisses you place all over me, the way you wrap your arms around me, your body, your soul, your warmth, your smell. And it gets stronger every time we meet. I fell in love with you, simply because you're you

Love Letter To Americans:

True to America Lana Burkhart, 2020-05-15 Book Delisted **Correspondence and American Literature, 1770-1865** Elizabeth Hewitt, 2004-11-25 Elizabeth Hewitt uncovers the centrality of letter writing to antebellum American literature She argues that many canonical American authors turned to the epistolary form as an idealised genre through which to consider the challenges of American democracy before the Civil War The letter was the vital technology of social intercourse in the nineteenth century and was adopted as an exemplary genre in which authors from Crèvecoeur and Adams through Jefferson to Emerson Melville Dickinson and Whitman could theorise the social and political themes that were so crucial to their respective literary projects They interrogated the political possibilities of social intercourse through the practice and analysis of correspondence Hewitt argues that although correspondence is generally only conceived as a biographical archive it must instead be understood as a significant genre through which these early authors made sense of social and political relations in the nation **Edinburgh Companion to Nineteenth-Century American Letters and Letter-Writing** Celeste-Marie Bernier, 2016-02-15 Provides a wide ranging entry point and intervention into scholarship on nineteenth century American letter writing This comprehensive study by leading scholars in an important new field the history of letters and letter writing is essential reading for anyone interested in nineteenth century American politics history or literature Because of its mass literacy population mobility and extensive postal system nineteenth century America is a crucial site for the exploration of letters and their meanings whether they be written by presidents and statesmen scientists and philosophers novelists and poets feminists and reformers immigrants Native Americans or African Americans This book breaks new ground by mapping the voluminous correspondence of these figures and other important American writers and thinkers Rather than treating the letter as a spontaneous private document the contributors understand it as a self conscious artefact circulating between friends and strangers and across multiple genres in ways that both make and break social ties Key Features Draws together different emphases on the intellectual literary and social uses of letter writing Provides students and researchers with a means to situate letters in their wider theoretical and historical contexts Methodologically expansive intellectually interrogative chapters based on original research by leading academics Offers new insights into the lives and careers of Louisa May Alcott Charles Brockden Brown Emily Dickinson Frederick Douglass Margaret Fuller Henry James Thomas Jefferson Abraham Lincoln Herman Melville Harriet Beecher Stowe and Edgar Allan Poe among many others
