Love Analyzed:

Love Analyzed Roger Lamb, 2018-02-20 Philosophers have turned their attention in recent years to many previously unmined topics among them love and friendship In this collection of new essays in philosophical and moral psychology philosophers turn their analytic tools to a topic perhaps most resistant to reasoned analysis erotic love Also included is one previously published paper by Martha Nussbaum Among the problems discussed are the role that qualities of the beloved play in love the so called union theory of love intentionality and autonomy in love and traditional issues surrounding jealousy and morality *Love's Labour's Lost* by William Shakespeare (Book Analysis) Bright Summaries, 2019-04-04 Unlock the more straightforward side of *Love's Labour's Lost* with this concise and insightful summary and analysis This engaging summary presents an analysis of *Love's Labour's Lost* by William Shakespeare a comedy centred on Ferdinand the King of Navarre and three of his closest friends all of whom decide to swear an oath to avoid the company of women and devote themselves to philosophical study for three years However their resolve is shaken when the Princess of France visits the court and each of them falls in love with a member of her entourage leading to a series of comic antics and misadventures *Love's Labour's Lost* is a lesser known play by William Shakespeare who is widely considered to be one of the most influential writers in the history of the English language Find out everything you need to know about *Love's Labour's Lost* in a fraction of the time This in depth and informative reading guide brings you A complete plot summary Character studies Key themes and symbols Questions for further reflection Why choose BrightSummaries.com Available in print and digital format our publications are designed to accompany you on your reading journey The clear and concise style makes for easy understanding providing the perfect opportunity to improve your literary knowledge in no time See the very best of literature in a whole new light with BrightSummaries.com **Love's Vision** Troy Jollimore, 2011-07-05 Love often seems uncontrollable and irrational but we just as frequently appear to have reasons for loving the people we do In *Love's Vision* Troy Jollimore offers a new way of understanding love that accommodates both of these facts arguing that love is guided by reason even as it resists and sometimes eludes rationality At the same time he reconsiders love's moral status acknowledging its moral dangers while arguing that it is at heart a moral phenomenon an emotion that demands empathy and calls us away from excessive self concern Love is revealed as neither wholly moral nor deeply immoral neither purely rational nor profoundly irrational Rather as Diotima says in Plato's *Symposium* love is something in between Jollimore makes his case by proposing a vision view of love according to which loving is a way of seeing that involves bestowing charitable attention on a loved one This view recognizes the truth in the cliché love is blind but holds that love's blindness does not undermine the idea that love is guided by reason Reasons play an important role in love even if they rest on facts that are not themselves rationally justifiable Filled with illuminating examples from literature *Love's Vision* is an original examination of a subject of vital philosophical and human concern *The World's Great Sermons: Drummond to Jowett, and General Index*

Lovers in Essence Sharon Krishek,2022 Romantic love is a defining phenomenon in human existence and an object of heightened interest for literature art popular culture and psychology But what is romantic love and why is it typically experienced as so significant to our existence Using central ideas from the

philosophy of Søren Kierkegaard as well as engaging with contemporary discussions in the philosophy of love this book explores the nature of romantic love and philosophically substantiates its meaningfulness to an individual's life. It does so by developing a connection between love and selfhood here explained in terms of one's distinct individuality. To be a self it is claimed is to possess a name that is an individual essence. Further the book argues it is when we love that we regard people by their names we respond to who they truly are. Accordingly the idea anchoring the book is that love is a correspondence between essences if Jane loves Edward she responds to him being who he is by virtue of her being who she is. The conception of being thus correspondent has important implications as to the moral and spiritual value of romantic love. Relying on Kierkegaard's analysis of the self of faith and of love even if sometimes in a way that departs from Kierkegaard's explicit position the book explores these implications. By doing this it construes romantic love as a desirable phenomenon emotionally morally and spiritually.

The Congregationalist, 1919 **A Modern Relation of Theology and Science Assisted by Emergence and Kenosis** Bradford McCall, 2018-02-28 How should we attempt to understand the relationship between theology and science in the twenty first century. In this book I will attempt to answer this question by examining several previous attempts to classify this relationship. I also develop my personal view of the relation thereafter discussing some Catholic contributions to this project and then revisit some of my previously published material highlighting the role of panentheism therein and noting an emergent implication from the literature the resultant possibilities for God an implication that creates space for a broadly relational perspective of the process of emergence. These movements allow me to argue that kenosis and emergence can add to the discussion of understanding the theology and science relationship. Herein I advocate a monistic process based view of the overlapping relationship between theology and science.

Relational Transactional Analysis Heather Fowlie, Charlotte Sills, 2018-06-14 Through different voices and styles of contributions including papers edited talks and panel discussion this collection explores and applies the principles of relational transactional analysis. It sets them in social cultural and political contexts and considers a number of important implications of this particular relational turn in psychotherapy. The book advances relational transactional analyses and in doing so reflects the creativity and vibrancy of contemporary TA. The editors have skilfully brought together different generations of TA practitioners in an accessible and stimulating volume. I commend the editors and highly recommend the book. Dr Keith Tudor author of a number of books and co author of the article Co creative transactional analysis in the Transactional Analysis Journal. He is Associate Professor Auckland University of Technology Auckland Aotearoa New Zealand.

Gathering contributions from theologians pastors and practitioners Shawn Graves and Marlena Graves cast a vision of Christian nonviolence in today's world not only responding to the realities of war but also offering a deeper understanding of peace a holistic shalom.
