**Head Over Heels** Leigh Roberts, 1986 *Head Over Heels* by Leigh Roberts released on Jan 25 1986 is available now for purchase     Love Circuits Leigh Roberts, 1984 *Love Circuits* by Leigh Roberts released on May 25 1984 is available now for purchase     *Feminist Criticism and Social Change (RLE Feminist Theory)* Deborah Rosenfelt, Judith Newton, 2013-05-20 This lively and controversial collection of essays sets out to theorize and practice a materialist feminist criticism of literature and culture Such a criticism is based on the view that the material conditions in which men and women live are central to an understanding of culture and society It emphasises the relation of gender to other categories of analysis such as class and race and considers the connection between ideology and cultural practice and the ways in which all relations of power change with changing social and economic conditions By presenting a wide range of work by major feminist scholars this anthology in effect defines as well as illustrates the materialist feminist tendency in current literary criticism The essays in the first part of the book examine race ideology and the literary canon and explore the ways in which other critical discourse such as those of deconstruction and French feminism might be useful to a feminist and materialist criticism The second part of the book contains examples of such criticism in practice with studies of individual works writers and ideas An introduction by the editors situates the collected essays in relation both to one another and to a shared materialist feminist project *Feminist Criticism and Social Change* demonstrates the important contribution of materialist feminist criticism to our understanding of literature and society and fulfils a crucial need among those concerned with gender and its relation to criticism     Theorizing Feminism Anne C. Herrmann, Abigail J. Stewart, 2018-05-04 In the past three decades feminist scholars have produced an extraordinary rich body of theoretical writing in humanities and social science disciplines This revised and updated second edition of *Theorizing Feminism Parallel Trends in the Humanities and Social Sciences* is a genuinely interdisciplinary anthology of significant contributions to feminist theory This timely reader is creatively edited and contains insightful introductory material It illuminates the historical development of feminist theory as well as the current state of the field Emphasizing common themes and interests in the humanities and social sciences the editors have chosen topics that remain relevant to current debates reflect the interests of a diverse community of thinkers and have been central to feminist theory in many disciplines The contributors include leading figures from the fields of psychology literary criticism sociology philosophy anthropology art history law and economics This is the ideal text for any advanced course on interdisciplinary feminist theory one that fills a long standing gap in feminist pedagogy     Feminisms Robyn R. Warhol, Diane Price Herndl, 1997 In the landmark 1991 edition of *Feminisms* Robyn Warhol and Diane Price Herndl assembled the most comprehensive collection of American and British feminist literary criticism ever to be published In this revised edition the editors have updated the volume in keeping with the expanded parameters of feminist literary discourse With the inclusion of more than two dozen new essays along with a major reorganization of the sections in which they appear

Warhol and Price Herndl have again established the measure for representing the latest developments in the field of feminist literary theory. Believing that the feminist movement can only move forward where difference commands attention not dismissal or negativism they have continued the original collection's mission of providing a multiplicity of perspectives and approaches. This anthology contains three new sections: Conflict, Gaze, and Practice, and includes more selections by and about women of color and lesbians. Aimed at academics and the general public alike, this collection is an indispensable guide to the range of practice on campus today in the field of feminist literary criticism.
