Ethics and Business Bart Wernaart, 2021-05-26 Ethics in business is not a new topic and has been intensely discussed since the emergence of the so called limited companies However privatization technological and digital innovation changes in moral perception economic and financial crises and globalization stir a more recent debate on how companies should behave in our societies This book starts from the position that ethics in business should imply an open debate on norms and values using a sound methodology to get there Ethics should cross borders not only the borders of a country but also the borders of someone s moral imagination Ethics should not only be about harmony but also about conflict and how to deal with that Ethics should be realistic and well substantiated by academic research Ethics should be used to understand the complexity of the world and the challenges companies struggle with on various levels Therefore this book is composed of three parts in which ethics is discussed at different levels In part one we discuss ethics at the level of the individual In part two we discuss ethics and business In the third part ethics is discussed in the context of a globalized world In each chapter we discuss the ethical complications of each topic from various and preferably opposing perspectives Each perspective is methodologically and academically substantiated Each chapter ends with an extensive literature list in which the original sources are listed for further reading Furthermore at the end of each chapter a summary is written in which the most important definitions and viewpoints are highlighted The frequent use of colorful and bold examples make this an accessible read for bachelor and master students at business schools and professionals in international business

ourselves differently Col 3 12 13 The wardrobe of the holy saints is full of love The imperative of the new self is to reflect Christ's holiness in the way that we relate to each other The selfishness that was at the core of our existence now gives way to a loving self sacrifice for the good of others resulting in a theology of radical reversal which is the theology of a holy life i compassion instead of contempt for or indifference to others ii kindness instead of malice iii humility instead of arrogance iv gentleness instead of rudeness v patience instead of anger vi forbearance instead of resentment and vii forgiveness instead of revenge This is the fruit of Christ's redemptive act on the cross manifest in those who live in joyous obedience and willful submission to the Holy Spirit Readers will be drawn into the depth of biblical and theological truths presented with anecdotes and antidotes
