Lovegrove's Guide to Britain's North Sea Oil and Gas Martin Lovegrove, 1981 Performance Profiles of Major Energy Producers, 1986 **Offshore Information Guide** Arnold Myers, Diana J. Edmonds, Karen Donegani, 1988 **The Petroleum Economist**, 1984 *Petroleum Exploitation Strategy* Derek Fee, 1988 Behind the Mask John Paterson, 2017-11-01 This title was first published in 2000 The most recent developments in occupational health and safety regulation in the UK's offshore oil industry represent a departure from traditional legal forms But how should they best be understood and what advantages do they offer over the previous regulatory approaches Informed by autopoiesis theory this study takes seriously the notion of an empirical field constituted by diverse communicative systems and thus traces the development of the industry along a series of dimensions including those of management and engineering as well as of politics and regulation Adapting cognitive mapping the book offers graphic demonstrations of the resultant constructive misunderstandings of regulatory and scientific signals and accordingly an alternative perspective on the nature of risk The latest regulatory developments are shown to possess the potential to address these issues but only insofar as they are understood as distinct from previous legal forms and in particular as an example of reflexive law **Macmillan Directory of UK Business Information Sources** James Tudor, 1992-09-15 The objective of this publication is to provide a one stop guide to business information insofar as that is possible within the confines of a useable book It aims to give guidance on both the published and organisational sources relevant to the needs of the non professional business researcher and provides a listing of worthwhile references and contacts As previously the Directory is organised so that both published sources and information centres are grouped together under their applicable Standard Industrial Classification SIC number and heading This new edition also incorporates NACE classification and correlation tables The second category again includes those UK and pan national organisations which focus on specific discrete industry sectors which limits the number of organisational sources in the directory to those that are most worthwhile **The Market for North Sea Crude Oil** Robert Mabro, 1986 In light of the North Sea's major role in today's world petroleum market these essays examine the structure of the market the international framework and tax regime the function and mechanism of forward dealings and price behavior Oil Investment in the North Sea Carlo A.
