Gillette, 2024-11-19 Explains how to embrace the paradox of the spiritual path that we are already reflections of the Divine and manifest our soul's transcendent nature in everyday life Provides contemplative and philosophical tools to support the journey to experience the Sacred Explores mythic stories of soul development and intuition found in Maya and Pythagorean traditions ancient Egyptian thought and Zoroastrianism In the mind of the Divine every person has Infinite Eternal and Absolute Worth But how do we manifest our transcendent nature in everyday life How can we construct our lives in the material world so they reflect the Divine nature of our souls Through his

Communication and Lonergan Thomas J. Farrell, Paul A. Soukup, 1993 Essays about communication and the thought of Canadian Jesuit philosopher and theologian Bernard Lonergan

Facing the Dragon Robert L. Moore, 2003 Structured around a series of lectures presented at the Jung Institute of Chicago in a program entitled Jungian Psychology and Human Spirituality Liberation from Tribalism in Religious Life this book length essay attacks the related problems of human evil spiritual narcissism secularism and ritual and grandiosity Robert Moore dares to insist that we stop ignoring these issues and provides clear sighted guidance for where to start and what to expect Along the way he pulls together many important threads from recent findings in theology spirituality and psychology and brings us to a point where we can conceive of embarking on a corrective course Traditional doctrinal and historical interpretation both rely heavily on rational analysis But from the disciples at Emmaus to the beginnings of the present century it has been the impact of scripture upon the human heart that has changed human lives In recent decades this impact has been strengthened by advances in linguistic and literary theory by such disparate influences as feminism structuralism Jungianism deconstructionism the analysis of archaic imagery and myth the recovery of Gnostic texts and finally an openness to pluralism whether ethnic geographic religious or interpretive All of these factors are treated here with a brevity and comprehensiveness which convincingly show that the reader of scripture has a creative and not merely passive role If you would understand the deepest roots of terrorism greed and religious fanaticism read Facing the Dragon But be forewarned you may find some offshoots in your own garden
