Loyal And Ancient City Lichfield In The Civil Wars:

Loyal and Ancient City Howard Clayton,1992 The English Civil War Peter Gaunt,2014-05-09 Sir God hath taken away your eldest son by a cannon shot It brake his leg We were necessitated to have it cut off whereof he died In one of the most famous and moving letters of the Civil War Oliver Cromwell told his brother in law that on 2 July 1644 Parliament had won an emphatic victory over a Royalist army commanded by King Charles I s nephew Prince Rupert on rolling moorland west of York But that battle Marston Moor had also slain his own nephew the recipient s firstborn In this vividly narrated history of the deadly conflict that engulfed the nation during the 1640s Peter Gaunt shows that with the exception of World War I the death rate was higher than any other contest in which Britain has participated Numerous towns and villages were garrisoned attacked damaged or wrecked The landscape was profoundly altered Yet amidst all the blood and killing the fighting was also a catalyst for profound social change and innovation Charting major battles raids and engagements the author uses rich contemporary accounts to explore the life changing experience of war for those involved whether musketeers at Cheriton dragoons at Edgehill or Cromwell s disciplined Ironsides at Naseby 1645 The Civil Wars John Philipps Kenyon,Jane H. Ohlmeyer,John Stephen Morrill,1998 This beautifully illustrated military history of the British and Irish Civil Wars offers an integrated account of the conflict that engulfed the kingdoms ruled by Charles I after 1638 On one hand it studies the interaction between the Stuart kingdoms comparing and contrasting their wartime experiences on the other it outlines the various civil wars which were fought in Scotland Ireland and England during the 1640s Throughout the text contributors examine how troops were raised trained clothed armed fed and paid the strategies adopted by the protagonists fighting in the various theatres of war and the tactics used by their generals in combat What role did siege warfare play in shaping the course of events What contribution did seapower make to the conduct of combat on land What impact did ten years of brutal conflict have on the populations of England Ireland and Scotland especially on the women and children Such are the questions this book aims to answer *Catholic Staffordshire 1500-1850* Michael W. accessible and well presented volume is to aid the identification of buildings associated with the industry to help their conservation and to promote understanding amongst archaeologists historians and the general public Cocroft examines key factories notably the Royal Gunpowder Factory at Waltham Abbey many of which have been cloaked in secrecy until recently parallels in North America and on the Continent and the distinctive design of buildings created for the First and Second World Wars Includes a gazetteer and a glossary Oxford Dictionary of National Biography: Avranches-Barnewall British Academy,2004 55 000 biographies of people who shaped the history of the British Isles and beyond from the earliest times to the year 2002 **Cavaliers** John Barratt,2000 This important new book offers the first history of the Royalist armies and thier role in the Civil War for over a quater of a century Divided into two sections the first part of the book describes and analyses the organisation recruitment training arms equipment tactics and performance of the Royalist armies The second part takes a look at some of the engagements and accidents of the Civil War and examines the relaity behind the legend by looking at actual cases in their proper contexts **Art-Union** ,1872 Britons and their Battlefields Ian Atherton,2024-08-19 While much attention has been paid to the commemoration of conflict in the twentieth century this book is the first to consider conflict memory in the long term arguing that modern practices were not created out of the mud of the trenches but evolved from much longer practices From the fourteenth century to the present day this work analyses the changing commemoration and memories of British battlefields at home and overseas from Bannockburn 1314 to Bosworth 1485 to Basra 2003 9 Across these seven centuries there has been a series of recurring post battle rituals that have shaped and continue to shape memories of conflict Three distinct but overlapping periods of memory can be delineated In the later Middle Ages battlefields were consecrated by the burial of the fallen and often by the erection of a battlefield cross or chapel or chantry to pray for the dead The second phase began with the Protestant Reformation in the 1530s when pilgrimage and prayers for the dead were abolished and battlefield chantries were dissolved and many battlefield crosses were demolished Memories shifted from the dead to the living especially the bodies of surviving veterans who commemorated the conflict by their wounds and from soil and stone to print and ink The third phase began in the eighteenth century when antiquaries and others established new monuments on past battlefields Monuments to survivors and the dead were established on contemporary battlefields such as Waterloo once again hailed as sacred ground hallowed by bloodshed fit destinations for a pilgrimage Not just officers but ordinary soldiers began to be memorialized by name on the battlefield culminating in the cult of the names of the dead enshrined by the creation of the War Graves Commission in 1917 and the idea that battlefields should be preserved unchanged as seen in modern heritage management Drawing on a wide variety of literary and historical sources and taking a uniquely longue dur e approach the book explores and links memory making practices from across the period to reconsider the ways in which battlefields are commemorated and re commemorated In so doing it makes a unique contribution to a wide range of historiographical fields British history since the fourteenth century memory studies heritage
