Loyalty Defiled:

Loyalty Defiled Alison Stuart, 1996 **Loyalty** Bob Sorge, 2004 This book sounds a bold call for loyalty to God and to God's Davids. God's Davids are leaders male and female who are safest to follow because of their unwavering passion to be intimate with Christ. God is turning the hearts of fathers to the children and giving the children a heart of loyalty to the fathers. Knowing the power of loyalty to produce Kingdom blessing at every level, Satan has done everything in his power to give this subject a bad reputation. But today's generation isn't buying it anymore. Now more than ever the bride of Christ is giving her heart with intense loyalty to her Beloved and preparing eagerly for His return. Get ready; this book could rock your world.

Methods of the Way Rune Svarverud, 2021-11-01 In the second century B.C. the Chinese political philosopher Jia Yi allegedly composed his *Daoshu*. *Methods of the Way*. In this work he describes the early development of terms for proper comportment and it would eventually turn out to be an important source for our knowledge of the early development of Chinese ethical thought. The author of this new study, Rune Svarverud, defines a set of 112 key terms of early Chinese ethics in the text *Daoshu*. The second part is devoted to an annotated translation of the *Daoshu* chapter followed by a detailed analysis of the development of these ethical terms. In the first part the author deals with the textual authenticity and transmission. This work is an important contribution to our understanding of the roles of ethics in early China.

An Anthology of Informal Latin, 200 BC-AD 900 J. N. Adams, 2016-09-26 This book contains over fifty passages of Latin from 200 BC to AD 900, each with translation and linguistic commentary. It is not intended as an elementary reader though suitable for university courses but as an illustrative history of Latin covering more than a millennium with almost every century represented. Conventional histories cite constructions out of context, whereas this work gives a sense of the period, genre, stylistic aims, and idiosyncrasies of specific passages. Informal texts, particularly if they portray talk, reflect linguistic variety and change better than texts adhering to classicising norms. Some of the texts are recent discoveries or little known. Writing tablets are well represented as are literary and technical texts down to the early medieval period when striking changes appear. The commentaries identify innovations.

discontinuities and phenomena of long duration Readers will learn much about the diversity and development of Latin
