Lsat Power:

Power, Legal Education, and Law School Cultures Meera Deo, Mindie Lazarus-Black, Elizabeth Mertz, 2019-10-10 There is a myth that lingers around legal education in many democracies That myth would have us believe that law students are admitted and then succeed based on raw merit and that law schools are neutral settings in which professors also selected and promoted based on merit use their expertise to train those students to become lawyers Based on original empirical research this book investigates this myth from myriad perspectives diverse settings and in different nations revealing that hierarchies of power and cultural norms shape and maintain inequities in legal education Embedded within law school cultures are assumptions that also stymie efforts at reform The book examines hidden pedagogical messages showing how presumptions about theory's relation to practice are refracted through the obfuscating lens of curricula The contributors also tackle questions of class and market as they affect law training Finally this collection examines how structural barriers replicate injustice even within institutions representing themselves as democratic and open revealing common dynamics across cultural and institutional forms The chapters speak to similar issues and to one another about the influence of context images of law and lawyers the political economy of legal education and the agency of students and faculty

Power Ballads Will Boast, 2011-09-16 Real musicians don't sign autographs date models or fly in private jets They spend their lives in practice rooms and basement clubs or toiling in the obscurity of coffee shop gigs casino jobs and the European festival circuit The ten linked stories in *Power Ballads* are devoted to this unheard virtuoso the working

musician From the wings of sold out arenas to hip hop studios to polka bars these stories are born out of a nocturnal world where music is often simply work but also where it can in rare moments become a source of grace and transcendence speaking about the things we never seem to say to each other A skilled but snobby jazz drummer joins a costumed heavy metal band to pay his rent A country singer tries to turn her brutal past into a successful career A vengeful rock critic reenters the life of an emerging singer songwriter bent on wreaking havoc The characters in *Power Ballads* aging head bangers jobbers techno DJs groupies and the occasional rock star and those who have to live with them need music to survive yet find themselves lost when the last note is played the lights go up and it's time to return to regular life By turns melancholy and hilarious *Power Ballads* is not only a deeply felt look at the lives of musicians but also an exploration of the secret music that plays inside us all
