African Dream Machines Anitra Nettleton,2007-10-01 African Dream Machines takes African headrests out of the category of functional objects and into the more rarefied category of art objects Styles in African headrests are usually defined in terms of western art and archaeological discourses but this book interrogates these definitions of style and demonstrates the shortcomings of defining a single formal style model as exclusive to a single ethnic group Among the artefacts made by southern African peoples headrests were the best known Anitra Nettleton s study of the uses and forms of headrests opened up a number of art historical methodologies in the attempt to gain an understanding of form style and content in African art objects Her drawings of each and every headrest encountered become a major part of the project

The Power of Form Ezio Bassani,Michael Bockemühl,Patrick R. McNaughton,2002 Many elements converge in the construction of a high quality art collection making it a fascinating intellectual and emotional adventure a journey of discovery and a labour of love Formed over the course of thirty years by Udo Horstmann and his wife the Horstmann collection is rather exceptional inasmuch as it offers a captivating vision of the variety of solutions adopted by black artists over the course of the centuries nearly 120 extraordinary sculptures

figures masks household objects and weapons from Guinea Bissau Mali Burkina Faso Cote d'Ivoire Ghana Togo Nigeria Cameroon Gabon Congo Angola Zambia Zimbabwe South Africa Swaziland Mozambique Kenya and Sudan The origin of the artworks selected for their perfection transcending the mere utilitarian function touches all of the lands of the continent including the southern and eastern lands rarely so authoritatively represented in other collections and their execution covers an arc of time of several millennia The presence of ancient works contributes to the demolition of the preconception that has weighed unfairly until recent years on African art and that is the absence of evolution in the artistic creation of Black Africa and therefore of any historic quality This is a difficult negation to cancel if African sculpture is still often labeled as primitive Another meritorious quality of the Horstmanns lies in the fact that they chose the sculptures in their collection not out of any generic passion for the exotic and neither for any abstract demand for representativity of ethnicity or significance or destination but for their quality for the enchantment of the form or better of the forms Paging through the book the reader will discover that the artistic creation that is the need to give form to the formless is a common heritage of mankind shared by the artists of Black Africa

Africa British Museum, 2000 The collections of the British Museum provide an exceptional resource for exploring both African antiquity and its contemporary arts and cultures This book looks at the continent as a whole It describes through a series of essays the history and arts of particular regions and the sources of the collections now in the Museum Each section will be well illustrated with a mix of archival and contemporary field photographs and will also integrate illustrations of up to 50 important individual objects from this world famous collection The objects will have a commentary on their significance by leading figures in the field of African studies many of them native to the areas from which the objects derive The book brings to bear a mix of Western and African scholarship in an innovative collaboration to reassess one of the great African collections
