Descriptive List[s] of Novels and Tales: Novels and tales dealing with life in Italy. 1892 William McCrillis Griswold, 1892

Italian Americans Eric Martone, 2016-12-12. The entire Italian American experience from America's earliest days through the present is now available in a single volume. This wide-ranging work relates the entire saga of the Italian American experience from immigration through assimilation to achievement. The book highlights the enormous contributions that Italian Americans, the fourth largest European ethnic group in the United States, have made to the professions, politics, academy, arts, and popular culture of America. Going beyond familiar names and stories, it also captures the essence of everyday life for Italian Americans as they established communities and interacted with other ethnic groups. In this single volume, readers will be able to explore why Italians came to America, where they settled, and how their distinctive identity was formed. A diverse array of entries that highlight the breadth of this experience, as well as the multitude of ways in which Italian Americans have influenced U.S. history and culture, are presented in five thematic sections. Featured primary documents range from a 1493 letter from Christopher Columbus announcing his discovery to excerpts from President Barack Obama's 2011 speech to the National Italian American Foundation. Readers will come away from this book with a broader understanding of and greater appreciation for Italian Americans' contributions to the United States.

The Fifth Column Series: Books 1-4 Nathan M. Farrugia, 2017-04-18. The entire Fifth Column series of technothrillers is now in one value-packed box: *The Chimera Vector*, *The Seraphim Sequence*, *The Phoenix Variant*, and the bonus short story *The Phoenix Ascent*. Damien and Jay don't exist. Officially. Unofficially, they're black operatives with an impossible mission. One of their agency's best operatives has gone rogue, and they're sent to stop her. But when Damien and Jay start to experience alternate memories and missing gaps in time, they realize there's more to this mission than they were supposed to know. And their hunt for the truth will take them to some dangerous places. If you love conspiracies and covert ops, this book is for you. What readers are saying: I COULDN'T PUT IT DOWN. Nathan Farrugia is in a class by himself. You can't help but enjoy this adventure. What an amazing series. Plenty of action, thrills, gut-wrenching pace, cool weapons/gadgets, and well-written story. Can I give this book 10 stars? It kept me on the edge of my seat from the first page to the last. The Fifth Column series is a tour de force. This amazing series deserves a 5-star review. Really humorous, lots of action, and the characters are so much fun. Loved it. Fast-paced, entertaining read. I picked up a copy of *The Chimera Vector* thinking it would be a standard adventure novel. I was wrong. From the sands of the Middle East to the streets of New York, Nathan Farrugia has taken the techno-action/spy novel pioneered by David Morrell and given it steroids. Farrugia weaves an amazing tale of power, deceit, and double crosses. Espionage at its finest. Intrigue that will tighten your gut and light every nerve on fire. *The Chimera Vector* goes far beyond science fiction and becomes a fast-paced mystery.

Enlightenment and Political Fiction Cecilia Miller, 2016-03-22 The easy accessibility of political fiction in the long eighteenth century made it possible for any reader or listener to enter into the intellectual debates of the time as much of the core of modern political and economic theory was to be found first in the fiction not the theory of this age Amusingly many of these abstract ideas were presented for the first time in stories featuring less than gifted central characters The five particular works of fiction examined here which this book takes as embodying the core of the Enlightenment focus more on the individual than on social group Nevertheless in these same works of fiction this individual has responsibilities as well as rights and these responsibilities and rights apply to every individual across the board regardless of social class financial

status race age or gender Unlike studies of the Enlightenment which focus only on theory and nonfiction this study of fiction makes evident that there was a vibrant concern for the constructive as well as destructive aspects of emotion during the Enlightenment rather than an exclusive concern for rationality

Before the Dawn - A Story of the Fall of Richmond
Joseph A. Altsheler, 2012 The characters in Joseph Altsheler's *Before the Dawn* have also fallen upon bluggy times but compared with John Oxenham Mr Altsheler is evidently a man of peace He has added another to the grist of Civil War stories but he has gone a little aside from the beaten path and has given us a story of the fall of Richmond of the wreck of the old regime of the death struggle of the Confederacy There is no violent sectional feeling in the book and though the heroine is a Northern woman and the hero a Virginian even that complication rouses little bitterness Mr Altsheler has not pictured all Southern women fair and all Southern men chivalrous but he has done full justice to the honor and courage that supported a lost cause has been just to Lee the gallant and brave as to Grant the grim and tenacious and when the two great men lock forces in the Battle of the Wilderness one forgets the cause in the magnitude of the struggle feels only the pity of it all the tragedy of the sacrifice upon the Union's altar
