

## Lucians Place – Book Review

Lucians Place is a tale of far-fetched proportions, yet so close to the possibilities of our own present technologies that it is quite believable.

The idea of three people and their immediate surroundings (a high-tech self-sustained ranch) being thrown back in time might seem a trifle wild, yet the author gives it all a sense of normalcy that distracts you from that. As the characters discover they are defending their very lives from strange creatures from another time, the dangers never relent. With the help of an aware computer that thinks acts and feels like a human, the battle to simply survive is eased somewhat, however the question of returning to [□□□□□□](#) their proper time is inherent.

Belle Smith gives us a great science fiction read without the typical concoction of space travel and high-tech aliens. Instead, she keeps us on Earth with a taste of what computers, combined with nano-technology and human creativity, may achieve for us in the not too distant future or should I say past? Her unique vision of how civilization might be rebuilt from scratch with minimal impact on the environment makes for an inspiring read.

Lucians Place is a definite page-turner and a book I found very hard to put down. Guaranteed to make you think differently before cursing your home computer!

community in Northeast Brazil Maya Mayblin offers a vivid and provocative rethink of gendered portrayals of Catholic life  
For the residents of Santa Lucia life is conceptualized as a series of moral tradeoffs between the sinful and productive world  
against an idealized state of innocence conceived with reference to local Catholic teachings As marriage marks the beginning  
of a productive life in the world it also marks a phase in which moral personhood comes most actively and poignantly to the

challenge As well as making an important contribution to the ethnographic literature on morality Christianity and Latin  
America the book offers a compelling alternative to received portrayals of gender polarity as symbolically all encompassing
