Francesco Stella, Lucie Doležalová, Danuta Shanzer, 2024-07-15 The textual heritage of Medieval Latin is one of the greatest
reservoirs of human culture Repertories list more than 16 000 authors from about 20 modern countries Until now there has
been no introduction to this world in its full geographical extension Forty contributors fill this gap by adopting a new
perspective making available to specialists but also to the interested public new materials and insights The project presents
an overview of Medieval and post medieval Latin Literatures as a global phenomenon including both Europe and extra
European regions It serves as an introduction to medieval Latin s complex and multi layered culture whose attraction has
been underestimated until now Traditional overviews mostly flatten specificities yet in many countries medieval Latin
literature is still studied with reference to the local history Thus the first section presents 20 regional surveys including
chapters on authors and works of Latin Literature in Eastern Central and Northern Europe Africa the Middle East Asia and
the Americas Subsequent chapters highlight shared patterns of circulation adaptation and exchange and underline the
appeal of medieval intermediality as evidenced in manuscripts maps scientific treatises and iconotexts and its performativity
in narrations theatre sermons and music The last section deals with literary interfaces that is motifs or characters that
exemplify the double sided or the long term transformations of medieval Latin mythologemes in vernacular culture both early
modern and modern such as the legends about King Arthur Faust and Hamlet **Shattered Hearts** Lee Ryder, 2014-02-13
