Lucky Year:

Encyclopedia of New Year's Holidays Worldwide William D. Crump, 2016-03-30 Among the world's myriad cultures and their associated calendars the idea of a New Year is relative and hardly specifies a universal celebration or even a universal point in time Ways of celebrating the New Year range from the observances of religious rituals and superstitions to social gatherings featuring particular foods music dancing noisemaking fireworks and drinking This first encyclopedia devoted exclusively to the New Year includes 320 entries that give a global perspective on the New Year beyond its traditional Western associations with Christmas National or regional entries detail the principal traditions and customs of 130 countries while 27 entries discuss major calendar systems in current use or of significant historical interest The remaining entries cover a wide variety of subjects including literary works movies and television specials the customs of specific ethnic groups universal customs such as toasting and drinking football bowl games and parades and the New Year celebrations at the White House and the Vatican

Social life of the Chinese Justus Doolittle, 2023-03-23 Before describing the principal annual customs and festivals observed at this place and vicinity a few preliminary observations will be made relating to the yearly periods which among the Chinese are regarded of very great importance The customs noticed are performed at the same time every year on the recurrence of the period or term used to denote certain epochs in the season or on fixed days of the month The Chinese year contains thirteen or twelve months according as it has or has not an intercalary month Consequently the great annual periods as the winter solstice or vernal equinox do not fall in successive years on the same day of the same month Generally in five successive years there are two intercalary months or more exactly in nineteen successive years there are seven intercalary months There are no intercalary days The months are spoken of as the first month the second month etc no distinct name for each month being in common use The month which is intercalary is known as such in common conversation and in legal documents For example if the sixth month is intercalated there are two six months in that year viz the sixth month and the intercalary sixth month

Wife to the Bastard Hilda Lewis, 2011-11-30 Matilda of Flanders queen to William the Conqueror was beautiful exquisitely small clever with a perfect courtesy trained in the rigid school of medieval manners But within lay a root of darkness inheritance perhaps of Viking ancestors Twice at least in her lifetime the Viking streak broke through in vengeance on a faithless lover in fury wreaked on a rival of the marriage bed The marriage though fruitful of so many children was on her side no match of love But a passionate loyalty to her husband an equally passionate ambition together with her own sense of justice gave her the will and the skill to dissemble her feelings and to make her the praise of Christendom No Queen ever wielded so much power as she in the long years she ruled Normandy before her no woman in England was ever crowned or was known as Queen

documents in archives and libraries in Buenos Aires La Plata Montevideo London Cambridge Stanley Paris Munich and Washington DC some never printed before many printed here for the first time in English and where different in their original languages Spanish French German Italian Latin or Dutch It provides the facts to correct the fallacies and distortions in accounts by earlier authors It reveals persuasive evidence that the Falklands were discovered by a Portuguese expedition at the latest around 1518 19 and not by Vespucci or Magellan It demonstrates conclusively that the Anglo Spanish agreement of 1771 did not contain a reservation of Spanish rights that Britain did not make a secret promise to abandon the islands and that the Nootka Sound Convention of 1790 did not restrict Britain's rights in the Falklands but greatly extended them at the expense of Spain For the first time ever the despairing letters from the Falklands written in German in 1824 to Louis Vernet by his brother Emilio are printed here in full in both the original German and in English translation revealing the total chaos of the abortive 1824 Argentine expedition to the islands This book reveals how tiny the Argentine settlement in the islands was in 1826 33 In April 1829 there were only 52 people and there was a constant turnover of population many people stayed only a few months and the population reached its maximum of 128 only for a few weeks in mid 1831 before declining to 37 people at the beginning of 1833 This work also refutes the falsehood that Britain expelled an Argentine population from the Falklands in 1833 That myth has been Argentina's principal propaganda weapon since the 1960s in its attempts to undermine Falkland Islanders' right to self-determination In fact Britain encouraged the residents to stay and only a handful left the islands A crucial document printed here is the 1850 Convention of Peace between Argentina and Britain At Argentina's insistence this was a comprehensive peace treaty which restored perfect friendship between the two countries Critical exchanges between the Argentine and British negotiators are printed here in detail which show that Argentina dropped its claim to the Falklands and accepted that the islands are British That and the many later acts by Argentina described here definitively ended any Argentine title to the islands The islands' history is placed in its world context with detailed accounts of the First Falklands Crisis of 1764 71 the Second Falklands Crisis of 1831 3 the Years of Confusion 1811 1850 and the Third Falklands Crisis of 1982 the Falklands War as well as a Falklands perspective on the First and Second World Wars including the Battle of the Falklands 1914 and the Battle of the River Plate 1939 with extensive details and texts from German sources The legal status of the Falklands is analysed by reference to legal works to United Nations resolutions on decolonisation and to rulings by the International Court of Justice which together demonstrate conclusively that the islands are British territory in international law and that the Falkland Islanders who have now 2024 lived in their country for over 180 years and for nine generations are a unique people who are holders of territorial sovereignty with the full right of external self-determination
