Ming-Southeast Asian Overland Interactions, 1368-1644 Laichen Sun, 2000 Over the last fifty years Southeast Asia has been narrowly defined based on its modern political boundaries and when scholars look for external factors affecting Southeast Asian history the maritime approach has dominated This dissertation redresses these problems by defining a zone termed Northern Mainland Southeast Asia encompassing southern Yunnan northeast India and northern parts of mainland Southeast Asia and by focusing on Ming Southeast Asian overland interactions Utilizing a large number of primary sources in Chinese Vietnamese Tai and Burmese it examines the transfer of military technology from Ming China to Southeast Asia Ming China's political expansion overland trade and the migration of Han Chinese into Northern Mainland Southeast Asia It argues that the overland stimuli especially

military technology and trade from Ming China contributed to the emergence of Northern Mainland Southeast Asia between the 1430s and 1530s which was epitomized in the rise of the Maw Shans the decisive defeat of Champa by Dai Viet Dai Viet's long march as far as the Irrawaddy River the prosperity and military strength of Lan Na the rise of Mongmit and Mohnyin and the sack of Ava by Mohnyin and the expansion of the Ahoms However after the arrival of European military technology via the maritime route after the early sixteenth century the tables were turned Southern Mainland Southeast Asia as represented by Burma Myanmar started its northward and eastward expansion at the expense of Northern Mainland Southeast Asia Without denying internal dynamics this dissertation demonstrates that the shift of external stimuli in particular military technology changed the orientation of mainland Southeast Asian history and Sino Southeast Asian overland interactions Manusya ,2014 **Chronicles of Chiang Khaeng** Volker Grabowsky, Rēnū Wichāsin, 2008 *Chronicles of Chiang Khaeng* goes far beyond a mere annotated translation of four Lu chronicles The polyglot co authors Grabowsky and Wichasin take the annotations out of their meticulously researched footnotes of the translation proper and deftly integrate them into a history not only of a principality in northwestern Laos but a panorama of the jostlings for power among other Chiang and their respective Chao in the upper Mekong region This geographic area outlines a cultural realm that shared Buddhist ethics and dhammic writing while also subscribing to the notion of hierarchy reinforced by demands for tribute the display of regalia and pomp and the brutal armed removal of local populations in incessant wars over human resources Myth and history merge in these chronicles which document sibling and spousal rivalries in networks of intermarriage and political alliances among the elite of the region All of this was taking place at a time in history when the British and French arrived on the scene to engage China and newly emerging Siam in a mapping exercise that brought an end to centuries of regional rule by previously fairly autonomous city states In this careful study Chiang Khaeng emerges as a paradigm of a Southeast Asian tributary state with more than one overlord *Chronicles* is a model of translation skill and historical acumen at its finest Khosana ,1998
