Infolgedessen wurden Flugzeuge schon früh fast ausschließlich zur Aufklärung eingesetzt wodurch die Generäle ein noch nie dagewesenes Maß an Informationen über feindliche Bewegungen gewinnen konnten Diese Informationen ermöglichten es den Franzosen die deutschen Bewegungen in der Ersten Marneschlacht zu kontern und die deutschen Hoffnungen auf einen Sieg durch den Schlieffenplan zu beenden Auch im Osten waren deutsche Flugzeuge von entscheidender Bedeutung für die Verfolgung Einkreisung und Vernichtung der russischen Truppen bei Tannenberg Einige Armeen wie z B die Franzosen betrachteten die Aufklärung aus der Luft als eine strategische Angelegenheit wobei die Flugzeuge vor allem in der Lage waren die feindlichen Kräfte vor der Schlacht zu identifizieren und zu den Vorbereitungen beizutragen Die Deutschen hingegen glaubten dass Flugzeuge taktische Informationen liefern könnten sobald die Schlacht begonnen hatte Piloten wie Oswald Boelcke der erste große deutsche Fliegeroffizier überflogen in zweisitzigen Flugzeugen mit einem Beobachter im Heck feindliche Stellungen identifizierten alliierte Stellungen und lenkten mit Hilfe von Farblichtern das Feuer der Artillerie am Boden Mit der zunehmenden Reichweite und Schlagkraft der Artillerie gewann die Zielerfassung natürlich an Bedeutung Ein Großteil des Feuers der großen Geschütze wurde indirekt abgefeuert da die Kanoniere ihre Ziele nicht sehen konnten und daher auf Informationen anderer angewiesen waren um sie zu lenken Die Karten der vom Feind gehaltenen Gebiete waren anfangs oft völlig unzureichend und da man wissen musste wo sich die feindlichen Verbände bewegten wurde die Angelegenheit noch komplizierter aber die Flugzeuge konnten hier Abhilfe schaffen indem sie aktuelle Informationen über die feindlichen Stellungen lieferten und an die Geschützbatterien weiterleiteten die ihre eigenen Frontlinien mit Granaten beschossen Die Royal Air Force RAF Großbritanniens legendäre Luftwaffe wurde im Himmel über dem Ersten Weltkrieg geboren Zuvor hatten die Briten jahrzehntelang Ballons zur Beobachtung und Aufklärung eingesetzt und in den Jahren vor dem Krieg wurden Flugzeuge erstmals militärisch genutzt Sie dienten vor allem der Aufklärung doch es wurden auch Versuche unternommen sie offensiv einzusetzen Während des Burenkrieges 1899-1902 setzte die britische Armee die Besatzungen von mit Helium gefüllten Ballons ein um den Artilleriebeschuss zu planen und zu unterstützen Dies waren jedoch nur kleine zaghafte Schritte Das erste Patent für den Einbau eines Maschinengewehrs in ein Flugzeug das 1910 angemeldet wurde hatte noch nicht zu aktiven Kampffahrzeugen geführt und es gab keine Doktrin keine Taktik und keinen Kampf zwischen großen Luftflotten Das änderte sich im Ersten Weltkrieg als der Himmel über der Westfront zum Schmelztiegel wurde in dem die vorangegangenen Fragmente der Luftkriegsführung in der weißen Hitze des Krieges geschmolzen wurden Für die Briten bedeutete dies die Schaffung einer großen und einheitlichen Fliegertruppe aus der 1918 die RAF hervorging *Death*

from the Skies Dietmar Süß, 2014-02 Investigates the effects of mass bombing on both Britain and Nazi Germany showing how these two very different societies sought to withstand the onslaught and keep up morale **Der Luftkrieg** Georg W. Feuchter, 1964 På basis af luftkrigens historiske udvikling vurderes dens betydning som den har været og som den tegner sig for den samlede krigsforløb **Der Krieg im 20. und 21. Jahrhundert** Malte Riemann, 2020-08-19 War is a chameleon as the famous Prussian General Carl von Clausewitz remarked in the nineteenth century And war can in fact take on different outward forms Particularly during the last 120 years the modes and strategies of war have changed several times from people's war and total war through the Cold War to humanitarian and asymmetric war All of these forms of war also make statements about the social political and economic conditions in the states that wage them Studying war is therefore not merely a specialized discipline in military history but rather an integral component of a critical view of history Malte Riemann provides a concise introduction to the various forms of war and the way in which they have developed since the early twentieth century He vividly discusses types of war war technologies and military strategies Beyond the narrow military field the effects of war on societies and on the politics of the belligerent countries are also described In the introduction the author recounts debates in the history of ideas on the nature of war in modern times This is followed by seven chronologically arranged chapters initially considering the First World War a people's positional and colonial war This is followed by a description of the Second World War as a total war Subsequent chapters are devoted among other matters to the Cold War and the wars that followed the dissolution of the Soviet Union In conclusion the author provides a forward look towards potential scenarios for the future of war based on current developments the war on terror asymmetric war drone war private war conducted by mercenaries and automated war The fact that the topic of war has never been off the political agenda since 1990 and that even in Germany we are by no means living in an age of perfect peace is made particularly clear whenever the Bundestag has to decide yet again on the deployment of the Federal Armed Forces abroad It is this topical relevance of the issue that has given the New Military History its impetus attracting wide interest both from the general public and in the academic field **The Allied Air War and Urban Memory** Jörg Arnold, 2011-08-22 The cultural legacy of the air war on Germany is explored in this comparative study of two bombed cities from different sides of the subsequently divided nation Contrary to what is often assumed Allied bombing left a lasting imprint on German society spawning vibrant memory cultures that can be traced from the 1940s to the present While the death of half a million civilians and the destruction of much of Germany's urban landscape provided usable rallying points in the great political confrontations of the day the cataclysms were above all remembered on a local level in the very spaces that had been hit by the bombs and transformed beyond recognition The author investigates how lived experience in the shadow of Nazism and war was translated into cultural memory by local communities in Kassel and Magdeburg struggling to find ways of coming to terms with catastrophic events unprecedented in living memory Bombing, States and Peoples in Western Europe 1940-1945 Claudia Baldoli, Andrew

Knapp, Richard Overy, 2011-06-30 This is the first book to treat bombing during WWII as a European phenomenon and not just the Blitz on Britain and Germany With Western Europe now at the heart of a united continent it is even more difficult to explain how only 70 years ago European states destroyed much of the urban landscape from the air There were many blitzes between 1940 and 1945 with an estimated 700 000 people killed The purpose of this book is to provide the basis for a comparison of the experience of western states under the impact of bombing In particular it considers the political cultural and social responses to bombing rather than the military strategic and social dimensions which have formed the core of the discussion hitherto This book will correct the popular perception of the British Blitz as the key bombing experience by exposing the reality of life under the bombs for communities as far apart as Brest Palermo and Rostock An international panel of historians consider the issues raised amidst the bombing of human rights and protection of civilians in this seminal event in 20th history

Bodies and Ruins David F. Crew, 2017-05-19 Bodies and Ruins explores changing German memories of World War II as it analyzes the construction of narratives in the postwar period including the depiction of the bombing of individual German cities The book offers a corrective notion rising in the late 1990s notion that discussions of the Allied bombing were long overdue because Germans who had endured the bombings had largely been condemned to silence after 1945 David Crew shows that far from being marginalized in postwar historical consciousness the bombing war was in fact a central strand of German memory and identity Local narratives of the bombing war including photographic books had already established themselves as important vectors of memory in the late 1940s and early 1950s The bombing war had allowed Germans to see themselves as victims at a time when the Allied liberation of the concentration camps and the Nuremberg trials presented Germans to the world as perpetrators or at least as accomplices The bombing war continued to serve this function even as Germans became more and more willing directly to confront the genocide of European Jews which by the 1960s was beginning to be referred to as the Holocaust Bodies and Ruins examines a range of local publications that carried photographic images of German cities destroyed in the air war images that soon entered the visual memory of World War II Despite its obvious importance historians have paid very little attention to the visual representation of the bombing war This book follows the search for what were considered to be the right stories and the right pictures of the bombing war in local publications and picture books from 1945 to the present and is intended for historians as well as general readers interested in World War II the Allied bombing of German cities the Holocaust the history of memory and photographic visual history

Visions of Community in Nazi Germany Martina Steber, Bernhard Götto, 2018-07-16 When the Nazis seized power in Germany in 1933 they promised to create a new harmonious society under the leadership of the Führer Adolf Hitler The concept of Volksgemeinschaft the people's community enshrined the Nazis vision of society a society based on racist social Darwinist anti democratic and nationalist thought The regime used Volksgemeinschaft to define who belonged to the National Socialist community and who did not Being accorded the status of belonging granted citizenship rights access to the

benefits of the welfare state and opportunities for advancement while these who were denied the privilege of belonging lost their right to live They were shamed excluded imprisoned murdered Volksgemeinschaft was the Nazis project of social engineering realized by state action by administrative procedure by party practice by propaganda and by individual initiative Everyone deemed worthy of belonging was called to participate in its realization Indeed this collective notion was directed at the individual and unleashed an enormous dynamism which gave social change a particular direction The Volksgemeinschaft concept was not strictly defined which meant that it was rather marked by a plurality of meaning and emphasis which resulted in a range of readings in the Third Reich drawing in people from many social and political backgrounds Visions of Community in Nazi Germany scrutinizes Volksgemeinschaft as the Nazis central vision of community The contributors engage with individual appropriations examine projects of social engineering analyze the social dynamism unleashed and show how deeply private lives were affected by this murderous vision of society *German Angst* Frank Biess, 2020-09-09 *German Angst* analyses the relationship between fear and democracy in postwar West Germany While fear and anxiety have historically been associated with authoritarian regimes Frank Biess demonstrates the ambivalent role of these emotions in a democratizing society in West Germany fear and anxiety both undermined democracy and stabilized it By taking seriously postwar Germans uncertainties about the future this study challenges dominant linear and teleological narratives of postwar West German success highlighting the prospective function of memories of war National Socialism and the Holocaust Postwar Germans projected fears and anxieties that they derived from memories of a catastrophic past into the future Based on case studies from the 1940s to the present *German Angst* provides a new interpretive synthesis of the Federal Republic It tells the history of the Federal Republic as a series of cyclical crises in which specific fears and anxieties emerged served a variety of political functions and then again abated Drawing on recent interdisciplinary insights generated by the field of emotion studies Biess's study transcends the dichotomy of reason and emotion Fear and anxiety were not exclusively irrational and dysfunctional but served important roles in postwar democracy These emotions sensitized postwar Germans to the dangers of an authoritarian transformation and they also served as emotional engines of new social movements including the environmental and peace movements *German Angst* also provides an original analysis of the emotional basis of right wing populism in Germany today and it explores the possibilities of a democratic politics of emotion *Euphemistische Sprache im Nationalsozialismus* Iris Forster, 2025-05-16 Das Phänomen des Euphemismus als sprachliche Ausdrucksform zur mildernden beschönigenden oder verschleiern den Umschreibung eines unangenehmen Wortes oder Sachverhaltes wird in der vorliegenden Arbeit erstmals systematisch für die Zeit des Nationalsozialismus untersucht Als Basis fungieren hierbei ein kommunikativ pragmatischer Euphemismusbegriff der den sprachlichen und außersprachlichen Kontext berücksichtigt und den Euphemismus als multiple Funktion von Sprache begreift sowie ein erweiterter Tabubegriff der neben den klassischen Tabubereichen auch aus grundsätzlichen taktisch politischen Überlegungen heraus entstandene Tabus einschließt Im Rahmen

einer Analyse euphemistisch dicht besetzter Themenfelder zwischen 1933 und 1945 ergeben sich so Erkenntnisse zu Merkmalen kommunikativen Funktionen formal grammatischen Eigenschaften sowie möglichen Bildungsweisen von Euphemismen in der politischen Sprache auch über den untersuchten Zeitraum hinaus **The Bombers and the Bombed** Richard Overy, 2015-04-28 An essential part of the literature of World War II Jonathan Yardley The Washington Post From acclaimed World War II historian Richard Overy comes this startling new history of the controversial Allied bombing war against Germany and German occupied Europe In the fullest account yet of the campaign and its consequences Overy assesses not just the bombing strategies and pattern of operations but also how the bombed communities coped with the devastation This book presents a unique history of the bombing offensive from below as well as from above and engages with moral questions that still resonate today *Victims and Perpetrators: 1933-1945* Laurel Cohen-Pfister, Dagmar Wienroeder-Skinner, 2012-03-12 This volume examines the politics of history and memory in Germany today through a review and analysis of seminal developments in the current discourse on 1933 1945 An interdisciplinary work this book examines questions of representing the past from the perspective of literary studies social psychology film studies history and cultural studies Themes include transgenerational memory and remembrance the air war and German literature commemoration and silences transnational reconciliation and historical consciousness in the German present The collected essays make clear that as the current discourse contributes toward an historically informed differentiated understanding of individuals roles in the Third Reich and World War Two victim and perpetrator identities cannot be defined as exclusive from one another The discourse emphasizes personal over collective experience and answers questions of responsibility and guilt on the individual level Niedersächsisches Jahrbuch für Landesgeschichte Historische Kommission für Niedersachsen und Bremen, 2017-12-11 Das Niedersächsische Jahrbuch für Landesgeschichte ist allen Epochen und Teildisziplinen der Geschichtswissenschaft verpflichtet und begreift analog zur Historischen Kommission die heutigen Bundesländer Bremen und Niedersachsen als sein wissenschaftliches Tätigkeitsfeld Es enthält als jährlich wechselnde thematische Schwerpunkte die zu Aufsätzen umgestalteten Vorträge die auf der jeweils letzten Jahrestagung der Historischen Kommission vorgestellt wurden Der umfangreiche Besprechungsteil bietet Rezensionen zur nordwestdeutschen Landesgeschichte aber auch zu allgemeineren Werken
