Maps Myths And Men The Story Of The Vinland Map:

Maps, Myths, and Men Kirsten A. Seaver, 2004 The Vinland Map first surfaced on the antiquarian market in 1957 and the map's authenticity has been hotly debated ever since in controversies ranging from the anomalous composition of the ink and the map's lack of provenance to a plethora of historical and cartographical riddles *Maps Myths and Men* is the first work to address the full range of this debate Focusing closely on what the map in fact shows the book contains a critique of the 1965 work *The Vinland Map and the Tartar Relation* scrutinizes the marketing strategies used in 1957 and covers many aspects of the map that demonstrate it is a modern fake such as literary evidence and several scientific ink analyses performed between 1967 and 2002 The author explains a number of the riddles and provides evidence for both the identity of the mapmaker and the source of the parchment used and she applies current knowledge of medieval Norse culture and exploration to counter widespread misinformation about Norse voyages to North America and about the Norse world picture

Vinland Map Kaia Stonebrook, AI, 2025-03-04 *Vinland Map* explores the controversial artifact that could rewrite the history of transatlantic exploration challenging the established timeline of Columbus's arrival in America The book meticulously examines the map's physical composition dating and linguistic features to determine its authenticity and significance related to Norse exploration Readers will discover how scientific dating techniques like carbon dating have been applied to the map and how linguistic analysis compares its inscriptions to known Norse texts to uncover inconsistencies The book presents a balanced and critical assessment of the available evidence building toward a conclusion about the map's creation date and origin It delves into medieval cartography and Norse sagas to provide context illustrating the complexities of analyzing such a historically significant artifact The authors use an interdisciplinary approach drawing on chemistry archaeology history and linguistics to investigate the map's mysteries Structured to guide readers through a logical inquiry *Vinland Map* begins by introducing the artifact and its historical context Later chapters focus on scientific analyses like the composition of the ink the results of carbon dating and the linguistic analysis of inscriptions It culminates in a comprehensive assessment of all evidence weighing arguments for and against the map's authenticity and offering a reasoned conclusion based on the available data

When Art Isn't Real Andrew Shortland, Patrick Degryse, 2022-04-15 How an initially valueless object becomes worth hundreds of millions And vice versa The art world is a multi billion dollar industry which captures world headlines on a regular basis for both good and bad reasons This book deals with one of the most discussed areas of controversy high profile objects that have experts arguing about their veracity Some may have been looted others may be fakes some may be heavily restored or misattributed Often in these cases analytical science is called on to settle a dispute The authors of this book have decades of experience in this field working on a range of objects dating from prehistory to the twentieth century They present seven of the most famous cases from the Getty Kouros to the Turin Shroud some of which are still contested and examine how a few words from a connoisseur or scientist can make a virtually valueless object worth hundreds of millions And vice versa

The

North Atlantic Frontier of Medieval Europe James Muldoon, 2017-05-15 Discussion of medieval European expansion tends to focus on expansion eastward and the crusades The selection of studies reprinted here however focuses on the other end of Eurasia where dwelled the warlike Celts and beyond whom lay the north seas and the awesome Atlantic Ocean formidable obstacles to expansion westward This volume looks first at the legacy of the Viking expansion which had briefly created a network stretching across the sea from Britain and Ireland to North America and had demonstrated that the Atlantic could be crossed and land reached The next sections deal with the English expansion in the western and northern British Isles In the 12th century the Normans began the process of subjugating the Celts thus inaugurating for the English an experience which was to prove crucial when colonizing the Americas in the 17th century Medieval Ireland in particular served as a laboratory for the development of imperial institutions attitudes and ideologies that shaped the creation of the British Empire and served as a staging area for further expansion westward

Geographers Elizabeth Baigent, André Reyes Novaes, 2019-12-26 Women are the exclusive focus of the 38th volume of *Geographers* For the first time in the series history the entire volume is devoted to important work of distinguished female geographers amply demonstrating how these scholars professional lives enrich the discipline s history It also illustrates how reading and writing their biographies not only expands our understanding of geography s past but points to its more diverse future The collection includes biographies of Doreen Massey winner of geography s Nobel prize the prix Vautrin Lud for her remarkable contribution to geography and neighbouring disciplines which discovered the importance of space through her work Helen Wallis geographer and historian of cartography who for many years had charge of the UK s foremost collection of maps Alice Saunier Set who applied her geographical training and formidable energy to teaching and educational reform in France Isabel Margarida Andr who lived through a turbulent political period in her native Portugal and meticulously investigated its effect on women and political geography and the many women who helped to create the UK s first Geography department the University of Oxford s School of Geography including Fanny Herbertson Nora MacMunn Marjorie Sweeting Mary Marshall Barbara Kennedy and other women geographers who are memorialised in a group article

Arctic Labyrinth Glyn Williams, Sophia Costley, 2010-03 The elusive dream of locating the Northwest Passage an ocean route over the top of North America that promised a shortcut to the fabulous wealth of Asia obsessed explorers for centuries Until recently these channels were hopelessly choked by impassible ice Voyagers faced unimaginable horrors entire ships crushed mass starvation disabling frostbite even cannibalism in pursuit of a futile goal Glyn Williams charts the entire sweep of this extraordinary history from the tiny woefully equipped vessels of the first Tudor expeditions to the twentieth century ventures that finally opened the Passage

The Vikings Reimagined Tom Birkett, Roderick Dale, 2020-01-20 *The Vikings Reimagined* explores the changing perception of Norse and Viking cultures across different

cultural forms and the complex legacy of the Vikings in the present day Bringing together experts in literature history and heritage engagement this highly interdisciplinary collection aims to reconsider the impact of the discipline of Old Norse Viking Studies outside the academy and to broaden our understanding of the ways in which the material and textual remains of the Viking Age are given new meanings in the present The diverse collection draws attention to the many roles that the Vikings play across contemporary culture from the importance of Viking tourism to the role of Norse sub cultures in the formation of local and international identities Together these collected essays challenge the academy to rethink its engagement with popular reiterations of the Vikings and to reassess the position afforded to reception within the discipline

The Vinland Sagas ,1973-09-27 One of the most arresting stories in the history of exploration these two Icelandic sagas tell of the discovery of America by Norsemen five centuries before Christopher Columbus Together the direct forceful twelfth century Graenlendinga Saga and the more polished and scholarly Eirik s Saga written some hundred years later recount how Eirik the Red founded an Icelandic colony in Greenland and how his son Leif the Lucky later sailed south to explore and if possible exploit the chance discovery by Bjarni Herjolfsson of an unknown land In spare and vigorous prose they record Europe s first surprise glimpse of the eastern shores of the North American continent and the natives who inhabited them

The World Map, 1300-1492 Evelyn Edson,2007-07-15 A history of the development of world maps during the later medieval period in the centuries leading up to Columbus s journey In the two centuries before Columbus mapmaking was transformed The World Map 1300 1492 investigates this important transitional period of mapmaking Beginning with a 1436 atlas of ten maps produced by Venetian Andrea Bianco Evelyn Edson uses maps of the fourteenth and fifteenth centuries to examine how the discoveries of missionaries and merchants affected the content and configuration of world maps She finds that both the makers and users of maps struggled with changes brought about by technological innovation the compass quadrant and astrolabe rediscovery of classical mapmaking approaches and increased travel To reconcile the tensions between the conservative and progressive worldviews mapmakers used a careful blend of the old and the new to depict a world that was changing and growing before their eyes This engaging and informative study reveals how the ingenuity creativity and adaptability of these craftsmen helped pave the way for an age of discovery A comprehensive and complex picture of the changing face of medieval geography With the mastery of a formidable palette of historiographic knowledge and well reasoned discussions of the sources The World Map 1300 1492 will certainly remain an important work to consult for both medieval and early modern scholars for many years to come Ian J Aebel Terrae Incognitae Before Orientalism Kim M. The Forensic Historian Robert C Williams, 2015-03-26 Modern forensic science has significantly affected historical debate over some well known past crimes or mysteries utilizing modern DNA nuclear and chemical analyses to reexamine the past This book takes an in depth look at 20 significant cases where investigators have applied new forensic techniques to confirm dispute or revise accepted historical accounts Among the cases included are the murder of King Tut the validity of the Vinland Map the authenticity of the Hitler diaries Joan of Arc s ashes the bones of Anastasia arsenic and the death of Napoleon and the dating of the Shroud of Turin plus 13 more

Encyclopedia of Dubious Archaeology Kenneth L. Feder, 2010-10-11 This book provides a fascinating encyclopedic antidote for the mysticism and pseudoscience surrounding well known or highly publicized archaeological and anthropological discoveries Archaeology attempts to answer the question where do we come from in the broadest sense possible as a result it is a highly interesting topic for all mankind When did human beings first walk the earth How did civilization develop What compelled our human ancestors to build things like the pyramids the Great Sphinx or Monk s Mound This book presents the widely unknown scientific facts behind the most popular and enthralling mysteries of our world from an expert archaeological perspective and lays out the information and research in a manner that is approachable engaging and entertaining for any reader Encyclopedia of Dubious Archaeology From Atlantis to the Walam Olum contains detailed and highly descriptive definitions for and explanations of terms related to extraordinary claims about human antiquity and its study Some of the terms in this extensive list of topics relate to archaeological hoaxes Many of the entries relate to dubious interpretations of the human past some of the terms relate to far fetched arguments that actually have produced evidence in support of their veracity

Fashioning History R. Berkhofer, 2008-12-08 This book offers historians and aspiring historians a learned absorbing and comprehensive overview of current fashions of method interpretation and meaning in the context of postmodernism that has washed over the historical profession in the last two decades

From Iceland to the Americas Tim William Machan, Jón Karl Helgason, 2020-04-07 This volume investigates the reception of a small historical fact with wide ranging social cultural and imaginative consequences Inspired by Leif Eiríksson s visit to Vinland in about the year 1000 novels poetry history politics arts and crafts comics films and video games have all come to reflect rising interest in the medieval Norse and their North American presence Uniquely in reception studies From Iceland to the Americas approaches this dynamic between Nordic history and its reception by bringing together international authorities on mythology language film and cultural studies as well as on the literature that has dominated critical reception Collectively the chapters not only explore the connections among medieval Iceland and the modern Americas but also probe why medieval contact has become

a modern cultural touchstone **The Far Traveler** Nancy Marie Brown, 2007 Five hundred years before Columbus a Viking woman named Gudrid sailed off the edge of the known world She landed in the New World and lived there for three years giving birth to a baby before sailing home Or so the Icelandic sagas say Even after archaeologists found a Viking longhouse in Newfoundland no one believed that the details of Gudrid's story were true Then in 2001 a team of scientists discovered what may have been this pioneering woman's last house buried under a hayfield in Iceland just where the sagas suggested it could be Joining scientists experimenting with cutting edge technology and the latest archaeological techniques and tracing Gudrid's steps on land and in the sagas Nancy Marie Brown reconstructs a life that spanned and expanded the bounds of the then known world She also sheds new light on the society that gave rise to a woman even more extraordinary than legend has painted her and illuminates the reasons for its collapse

The Battle over America's Origin Story Brian Regal, 2022-05-06 This book examines the legends of who really discovered America It argues that histories of America's origins were always based less on empirical evidence and more on social political and cultural wish fulfillment Influenced by a complex interplay of Nativist hatred of immigrants and Aboriginal people as well as distrust of academic scholarship these legends ebbed and flowed with changing conditions in wider American society The book focuses on the actions of a collection of quirky obsessed amateur investigators who spent their lives trying to prove their various theories by promoting Welsh princes Vikings Chinese admirals Neo lithic Europeans African explorers and others who they say arrived centuries before Columbus These myths acted as mitigating agencies for those who embraced them Along with recent scholarship this book makes extensive use of archival materials some of which have never been employed before It covers the period from the sixteenth century to the present It brings together separate historiographic ideas to create a unified history rather than focusing on one particular legend as most books on the subject do It shows how questions of who discovered America helped create the field of historical scholarship in this country This book does not attempt to prove who discovered America rather it tells the story of those who think they did

Dispatches from the End of Ice Beth Peterson, 2019-11-28 The future of the world's ice is at a critical juncture marked by international debate about climate change and almost daily reports about glaciers and ice shelves breaking oceans rising and temperatures spiking across the globe These changing landscapes and the public discourse surrounding them are changing fast It is science wrought with mystery and for Beth Peterson it became personal A few months after Peterson moved to a tiny village on the edge of Europe's largest glacier things began to disappear The glacier was melting at breakneck pace and people she knew vanished her professor went missing while summiting a volcano in Japan and a friend wandered off a mountain trail in Norway Finally Peterson took a harrowing forty foot fall while ice climbing Peterson's effort to make sense of these losses led to travels across Scandinavia Italy England and back to the United States She visited a cryonics institute an ice core lab a wunderkammer Wittgenstein's cabin and other museums and libraries She spoke with historians guides and scientists in search of answers Her search for a noted glacier

museum in Norway led to news that the renowned building had set on fire in the middle of the night before and burned to the ground Dispatches from the End of Ice is part science part lyric essay and part research reportage all structured around a series of found artifacts a map a museum an inventory a book in an attempt to understand the idea of disappearance It is a brilliant synthesis of science storytelling and research in the spirit of essayists like Robert Macfarlane John McPhee and Joni Tevis Peterson s work veers into numerous terrains orbiting the idea of vanishing and the taxonomies of loss both in an unstable world and in our individual lives

Chinese Global Exploration In The Pre-columbian Era: Evidence From An Ancient World Map Sheng-wei Wang,2023-10-16 How early did the Chinese explore the world Did the Treasure Fleets led by Admiral Zheng He discover many parts of the world before Christopher Columbus While it is known that Christopher Columbus discovered America and Europe ushered in the Age of Discovery there is an ongoing debate on the unknown areas depicted in Western maps from the period and earlier There is agreement among scholars that certain areas seem to have been mapped out prior to the arrival of Western explorers Chinese Global Exploration in the Pre Columbian Era Evidence from an Ancient World Map analyses the world s first modern map known as Kunyu Wanguo Quantu KWQ in Chinese translated as the Complete Geographical Map of All Kingdoms of the World to demonstrate evidence of Chinese global exploration in the Pre Columbian era The map of concern was first printed by Italian missionary Matteo Ricci in 1602 and has been purported to be of entirely European origin based on Ricci s former maps which he had brought to China in 1582 This book thus seeks to be transformational in presenting essential new insights on Pre Columbian world history and Chinese global exploration moving away from the norm of the studies of geography and cartography by
