La migración y los latinos en Estados Unidos Elaine Levine, 2008 **Pablo L. Martínez** Aidé Grijalva, Max Calvillo Velasco, Leticia Landín, 2006 Women in Mexico Julia Tuñón, 1999 Throughout Mexico's history women have been subjected to a dual standard exalted in myth they remain subordinated in their social role by their biology But this dualism is not so much a battle between the sexes as the product of a social system The injustices of this system have led Mexican women to conclude that they deserve a better world one worth struggling for Published originally in Spanish as *Mujeres en México Una historia olvidada* this work examines the role of Mexican women from pre Cortes to the 1980s addressing the interplay between myth and history and the gap between theory and practice Pointing to such varied prototypes as the Virgin of Guadalupe La Malinche and Sor Juana Tunon contrasts what these women represent with more realistic but less exalted counterparts such as Josefa Ortiz de Dominguez La Guera Rodriguez and Juana Belen Gutierrez de Mendoza She also discusses the identity transformation by which indigenous women come to see themselves as Mexicanas and analyzes such issues as women's economic dislocation in the labor force education and self image In challenging the illusion that historians have created of women in Mexico's history Tunon hopes to recover feminism with its strengths and weaknesses its vision of the world that is both intellectual and full of feeling By examining the social world of Mexico she also hopes to determine those situations that cause oppression exploitation and marginalization of women Mujeres en México Julia Tuñón, 1998 *México en Los Angeles* Pedro G.
